### Calling All Grads!

If you want more than just a job, why not start your career at the world's leading independent software company? Right now, we're looking for programmers to develop, support, and enhance systems and network management, database, and application software. Computer Associates provides a dynamic training program, one that immerses you in key industry technologies and CA's technology strategy. Candidates should have both an educational and working knowledge of C++, UNIX, Windows NT, and networking technologies.

### Why CA?

Just ask any of our over 11,000 employees in 160 offices in 43 countries, and they'll tell you why. CA is the world leader in mission-critical business software. We develop, license, and support more than 500 integrated products that include enterprise computing and information management, application development, manufacturing and financial applications. In fact, CA makes more kinds of software for more kinds of computers than any other company.
