**Has your menstrual cycle stopped?**

Research is currently underway for a study testing the effects of exercise and eating habits on bone health, reproductive hormones, and metabolism. Financial compensation (\$1000) will be provided for your time.

**Eligible if:**

- you are between the ages of 18-35
- you are not pregnant or have not been for the past 3 months
- you are not taking any medications
- you are not taking any hormonal contraceptives for the past 6 months
- you are not planning to become pregnant in next 7 months

**Benefits will include:**

- fitness assessment
- % body fat testing
- nutritional assessment
- bone density test
- nutritional counseling
- metabolism testing
- Calcium and Vitamin D supplements

**NOTE:** Loss of regular menstrual cycles is associated with poor bone health, poor nutrition, altered cholesterol levels, increased rates of injury, and temporary infertility.

**IF INTERESTED PLEASE CALL US AT (814)863-4488 OR VISIT [www.refuel.psu.edu](http://www.refuel.psu.edu)**

Approval for conducting this study in human subjects has been granted by the Penn State University Institutional Review Board. This study, under the direction of Dr. Mary Jane De Souza and Nancy I. Williams, Noll Laboratory and the Department of Kinesiology, will take place in The Women's Health and Exercise Laboratory and General Clinical Research Center on the campus of Penn State University, University Park, PA.
