HAPPY BIRTHDAY for Thursday, April 29, 2010:
 This year, you often are challenged by others. Know that your ideas and values are being tested. Don't get stuck. When you see that a concept, situation or relationship isn't working, graciously let go. Know when to release what is no longer functioning. Your popularity soars, especially if you know how to say "no" diplomatically. If you are single, you meet a lot of people this year. Go with someone very different. If you are attached, the two of you bone up on your listening skills. You might take a workshop of mutual interest together. SAGITTARIUS relates to you with depth.

The Stars Show the Kind of Day You'll Have:
 5-Dynamic, 4-Positive, 3-Average, 2-So-so, 1-Difficult

ARIES (March 21-April 19)
 ***** Work directly with one individual rather than on your own. Yes, you are resourceful, but you also might want the support and more ideas. Seek out creative people and experts. Unexpected news comes forward. Tonight: Be open to an unusual idea.

TAURUS (April 20-May 20)
 ***** Others demand a lot. Sometimes you would like to close the door and not listen. A meeting proves to be supportive and full of positive vibes. Remember, others also have their negatives and positives. Tonight: Get together with a friend.

GEMINI (May 21-June 20)
 ***** Emphasize accomplishment. Your product or work draws a boss's attention. He or she likes what you do and how you do it. Don't feel disillusioned by some-

one who always makes your thinking look bogus. Tonight: A must appearance.

CANCER (June 21-July 22)
 ***** Your creativity doesn't have a stopper attached to it. You also don't have as much control as you might like over this gift. A discussion with an associate could be tumultuous and touchy. You are unusually serious with a family member. Tonight: Do what comes naturally. Make sure you relax.

LEO (July 23-Aug. 22)
 ***** If you can work from home, all the better. You might accomplish more with the help of another person. Isn't that what telephones are for? Discussions, even in person, could be hard. Unexpected behavior also could be thought-provoking. Tonight: Now allow your imagination to kick in. Remember, it is time to have fun.

VIRGO (Aug. 23-Sept. 22)
 ***** Stay on top of your calls and messages. Someone could pop in with an unanticipated request, forcing a change of plans. For the efficient Virgo, it is very hard to take this constant reorganization. Tonight: Visit with a pal or two on the way home.

LIBRA (Sept. 23-Oct. 22)
 ***** Realize that more is hanging in limbo than money. Other issues are floating to the forefront. You might want or need to change your direction to avoid it. Accept new technology and ideas that come along. Tonight: Nap and then decide.

SCORPIO (Oct. 23-Nov. 21)
 ***** While others wander and question what is going on, you seem to be on target. An unexpected idea could pay off, especially if it taps into a child or creative project. A family member seems to be vested in creating confusion. Tonight: Enjoy the moment.

SAGITTARIUS (Nov. 22-Dec. 21)
 ***** Understand that you are playing the waiting game and that the wait isn't very long. Do needed research and gather more facts. You could be surprised by how easily a roommate or family member can release a problem. Tonight: In your own element.

CAPRICORN (Dec. 22-Jan. 19)
 ***** Knock out key talks and meetings and complete a very important project, if you can. Keep communication flowing, even if you are hearing a little too much for your taste. Expect the unexpected. Tonight: Make it early.

AQUARIUS (Jan. 20-Feb. 18)
 ***** Demonstrate your unusual leadership style, yet don't lose sight of your priorities. Build financial security through taking risks with care. You, among others, can be a little wild at times! Tonight: Double-check your change.

PISCES (Feb. 19-March 20)
 ***** If you don't get into the issues and detach from them, you will be more likely to find an effective solution. Be willing to break patterns; talk to people you don't often talk to. Learn where you could be blocking yourself. Tonight: Be spontaneous.
