Andrew Belle's music has been featured on numerous hit shows, including Grey's Anatomy.

Andrew Belle to rock lunchtime in the HUB

By Karina Yücel
COLLEGIAN STAFF WRITER

Known for setting a melancholy tone on many hit television shows, musician Andrew Belle will perform at noon Friday in the HUB-Robeson Center.

Belle's music has played on popular television shows like "Grey's Anatomy," "Pretty Little Liars" and "90210," to name a few. Last Thursday, Belle's song "The Ladder" played on "The Vampire Diaries."

Carolyn Lederach, the Student Programming Association's (SPA) Noontime Concert Series chairwoman, said she expects this performance to be more popular than past artists.

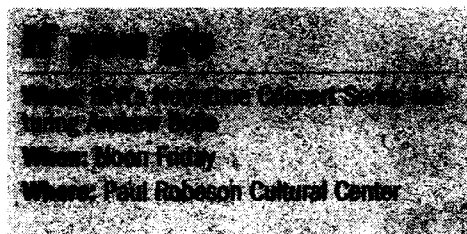

"He's a well-known name compared to other artists [we've had] because of all his publicity on TV shows," Lederach (senior-advertising) said.

Belle, who said he gets his inspiration from bands like Coldplay, described his music as an indie-pop/full band production featuring piano and guitar — with a singer-songwriter twist.

Dan Keiper (senior-premedicine and life science) said he is a big Coldplay fan and will probably be there for Belle's concert.

When Belle's record came out on Feb. 23, it was the most downloaded record that day on iTunes.

Belle also spent three weeks on Billboard's Heatseekers Chart, peaking at No. 23, and was called "Best Breakout Artist, Chicago" by MTV.

Belle said he's looking forward to being on tour — the first month of which will focus on colleges and universities, with the second half focused on clubs. College shows are more relaxed and good for mid-day shows, while clubs are louder, he said.

Belle will perform music off of his first full-length record, "The Ladder," which has been well-received by critics.

The audience won't consist of only Penn State students. One of Lederach's friends is coming all the way from Washington, D.C. to see Belle's performance, Lederach said.

Yashi Diaz said she's very excited to see him perform since she loves both Coldplay and "Pretty Little Liars."

When Diaz (freshman-broadcast journalism) found out Belle's music had been featured on "Pretty Little Liars," she said "he must be good."

Diaz even has one of his songs, "All Those Pretty Lights," on her iPod, and listens to it all the time, she said.

"I love this song," Diaz said.
