BROUGHT TO YOU BY

For the Future: The Campaign for Penn State students www.Future.psu.edu

By Jacqueline Bigar

HAPPY BIRTHDAY for Monday, Nov. 8, 2010. Follow your sixth sense, and financial benefits will lead in your direction. Don't underestimate what you have to offer and your natural talents. A special event or new home affects your domestic life. You could be striking a lot of money into your security. If you are single, you will want someone to call your own. If you are attached, the two of you will take into your home and personal life, loving being a reclusive couple. SAGITTARIUS can be an expensive friend.

The Star Show the Kind of Day You'll Have: 5-Dynamic, 4-Positive, 3-Average, 2-No so, 1-Difficult.

ARIES (March 21-April 19) *** Grasp the bigger picture. You might not be in agreement with others' ideas or attitudes. Use this chiasm to energize, research and to explore different options. You might not choose to share what is on your mind; you could be distracted. Tonight, Follow the music. TAURUS (April 20-May 20) **** Relate to people individually. Your personal touch helps draw people out. If you are tired, take a break. Choose a type of activity that is the opposite of what you are doing. Tonight, Listen to what a partner shares.

GEMINI (May 21-June 20) **** Others come toward you quite suddenly. You might not want to share your thoughts. Let others display their true colors. In order to succeed, you must step back. Tonight, Sort through your options. Just don't be alone. CANCER (June 21-July 22) **** An easy, steady pace brings results. You could be feeling out of sorts. Recognize that not everyone has to agree with you. Still, this source of heaviness could color your day and your plans. Tonight, Take wing ASP. LEO (July 23-Aug. 22) **** Allow ideas to bubble up. A discussion could be overly heavy or serious. Don't let a distance in a relationship go too far. Both you and the other party might have problems restoring the closeness you both value. A discussion with a partner, as well as a youthful individual, creates fun and ideas. Tonight, Play the night away (even if it is Monday). VIRGO (Aug. 23-Sept. 22) *** Take a personal day if possible. You might need some time to work on a project or just catch up on a roommate's news. Others come forward when you are relaxed. Avoid any wild diets or health kicks - as appealing as they may be. Tonight, You don't have to go far. LIBRA (Sept. 23-Oct. 22) **** Your ability to communicate comes through once you loosen up. You might not need to ask intrusive questions if you observe. A light and easy chat will reveal more. A special loved one touches base with you. Tonight, Hang with a favorite friend. SCORPIO (Oct. 23-Nov. 21) *** Be careful if you are diving into the world of financial wheelers and dealers. Unless you are unusually skilled in this arena, this experience could prove to be negative. Your creativity could be funneled into a hobby or project. Tonight, Play as if there is no tomorrow. SAGITTARIUS (Nov. 22-Dec. 21) **** Don't expect any hassles, and

most likely you will bypass any hassles in your path. Once more, you confirm the importance of a positive mind-set. A transforming session could explode into a special project or a new relationship. Tonight, Follow the fun and music. CAPRICORN (Dec. 22-Jan. 19) **** Step back and let those who seem to be full of themselves take the lead. Everyone, including the people in question, needs to find out how much he or she is blowing hot air. At this moment, no one knows. No one questions your competency. Tonight, Take some much-needed personal time. AQUARIUS (Jan. 20-Feb. 18) **** Your ability to express yourself in groups, or perhaps in a special meeting, could define your day and a project's success. For some, the project might be as simple as expanding your immediate circle. It doesn't have to be work-related. Tonight, Being alone won't work. PISCES (Feb. 19-March 20) *** No matter where you are or what your plans, you could feel overwhelmed by everything that hits you from out of left field. Realize what is happening in your mind. Is there a disparity between your scenario and what might be really occurring? Tonight, Could be late.
