Notaries Public.
 Notaries public are said to have had their origin in a class of men appointed by the early Christian bishops to collect the acts or memoirs of the martyrs of the first century. The office was afterward changed to a legal employment, such as the attesting of deeds and other writings, so as to establish their authenticity in any other country.—New York American.

Odors and Germs.
 The odor of cloves has been known to destroy microbes in thirty-five minutes; cinnamon will kill some species in twelve minutes. Thyme in thirty-five minutes. In forty-five minutes common wild verbena is found effective, while the odor of some geranium flowers has destroyed various forms of microbes in fifty minutes. The essence of cinnamon is said to destroy the typhoid fever microbe in twelve minutes and is recorded as the most effective of all odors as an antiseptic. It is now believed that flowers which are found in Egyptian mummies were placed there more for their antiseptic properties than for merely ornamental or sentimental purposes.

The Thumb.
 The thumb is very powerful. It is stronger than all the fingers put together.

A City of Changes.
 Cattaro, the Austrian sea gate of Montenegro, was held by Montenegro once for a little time. Montenegro acquired it in 1813 with the aid of a British squadron. Any inhabitant of Cattaro who was contemporary with the rise and fall of Napoleon must often have had to pause and think what country he belonged to, for, having been Venetian for centuries, Cattaro became Austrian by the treaty of Campo Formio and Italian in 1805 by the peace of Pressburg. It was absorbed in the French empire in 1810 and wrested from it in 1813, and finally in 1814 Russia compelled Montenegro to give it up to Austria.

The Navel Orange.
 The first we know of the navel orange, which is very valuable not only on account of its fine quality and taste, but also because of its being seedless, is of a single tree that was found growing on the northern shore of the Mediterranean sea. This was about the year 1565. Grafts of this tree were taken to Spain by the Moors several hundred years ago, and from Spain the trees were carried to South America by the Spaniards.—St. Nicholas.

Liquid Measure.
 Jim Snedcor had been elected justice of the peace, and he judged that his office required a silk hat. The only one in town was the parson's, and before he went up to the city Jim borrowed it one afternoon to get a notion of his size. It fitted him. In the city store he told the clerk that he aimed to get a silk hat.
 "What size, sir?" asked the clerk.
 "Well," said Jim, "you'd better gimme the three quart size, young man."—New York Post.

The Word "Wallop."
 The origin of the familiar vernacular verb "wallop" is not generally known. It comes from the family name of the earls of Portsmouth. Sir John Wallop, K. G., was admiral commander in the reign of King Henry VIII of the fleet which avenged French raids by burning French ships and twenty-one French villages. This was called, in the current parlance of the times, "walloping" them, and the phrase passed into the language and still survives.

Won't Go.
 "George Washington, you know, married a widow."
 "So did I."
 "He never told a lie."
 "I find it's no use to tell 'em to widows."—Kansas City Journal.

Pleanty of It.
 "You can't fool all the people all of the time."
 "No. Still, the folks who get up the easy mark lists don't seem to have any trouble about securing material."—Seattle Post-Intelligencer.

Ermine.
 Ermine, contrary to the general belief, cleans well and is an exceedingly durable fur.
Economical.
 It is told of an Aberdeen miser that he eats his meals in front of a mirror because it doubles the dishes.
Spotted Her Trip.
 "Then your wife didn't enjoy her trip to Niagara?"
 "No. The minute she saw that rushing water she began to wonder if she hadn't come away from home and left a faucet running."—Pittsburgh Post.
