Washington, Feb. 11.—The texts of the notes dispatched by the United States to the governments of Great Britain and Germany were made public here today and prove to be the most vigorous assertions of the rights of America as a neutral yet made by this government.

The communication to Germany is considerably more severe in its tone than had been generally anticipated. So strong are the representations Ambassador Gerhard has been instructed to make to Germany with regard to her implied intentions as to neutral shipping in the near "war zone" that they virtually commit the United States to drastic action if disregarded at Berlin.
