

WESTERN PENNSYLVANIA BELGIAN RELIEF SHIP

This city and more than 100 other cities and towns within a radius of 150 miles of Pittsburgh will contribute to the cargo of this great ship which has been chartered by the Pittsburgh and Western Pennsylvania Committee for Relief in Belgium. It will sail from New York early next month and will carry more than a quarter of a million dollars' worth of flour donated by the generous people of western Pennsylvania.

Pittsburgh and its suburbs have raised \$157,000 toward this fund. Although the campaign has not started in many of the outside cities and

towns, these communities already have reported more than \$30,000, and every mail brings large donations in addition. Chairman William Flinn of the general committee is warm in his praise of the patriotic service of the out-of-town organizations. While Pittsburghers were in the midst of their campaign last week he said that the greatest encouragement came from the optimistic reports received from "up state."

Many of the outlying districts have made good their pledges of flour. Others are carrying out the enterprise with spirit.

The pledges of western Pennsylvania cities follow:

City.	Sacks of Flour.
Beaver	500
Beaver Falls	1,000
Butler	2,500
Charleroi	750
Dubois	1,000
Franklin	500
Indiana	500
Johnstown	5,000
Kittanning	1,000
New Brighton	1,000
Oil City	1,700
Punxsutawney	1,000
Rochester	500
Sharon	2,000
Uniontown	500
Washington County	5,000
Waynesburg	1,000

Child of His Own Brain.
"Johnson needn't be mad because the teacher criticised his boy's composition. The boy will improve."
"You don't appear to understand. Johnson wrote the composition himself."—Kansas City Star.

Fight Film Ordered Destroyed.
New York, June 18.—The 3,542 feet of movie film depicting the Ritchie Welsh fight in London in July, 1914, is to be destroyed by the federal authorities in accordance with an order issued by Judge Hough in the United States district court.

Danish House Records Its Neutrality.
London, June 18.—A Reuter dispatch from Copenhagen says the Danish Folketing, or lower house of parliament, unanimously resolved to support the ministry in its policy of absolute neutrality.

WILSON CALLS ON BRYAN

No Personal Differences Appear to Exist Between Two Men.

Washington, June 19.—President Wilson called on William J. Bryan and Mrs. Bryan at Mr. Bryan's home in Calumet place. The president was with his former secretary of state about fifteen minutes. He called to say goodby to Mr. and Mrs. Bryan, who will leave for their summer home in Asheville, N. C., in a few days.

Mr. Bryan issued a statement on the subject of his reported dissatisfaction with the treatment he had received from the president while he was head of the state department. It has been suggested that Mr. Bryan was dissatisfied with the disposition of the president to run the affairs of the state department in his own way and often apparently without consulting Mr. Bryan to any great extent.

Mr. Bryan in his statement says that all this is a mistake; that he was consulted by the president on every occasion and that these stories, if true, would be as much of a reflection upon the president himself as upon Mr. Bryan.

15 KILLED BY STORM

Reports Come In From Stricken Sections of Missouri and Kansas.

Kansas City, Mo., June 19.—Fifteen lives were lost, a score of persons were injured and property damage estimated at \$250,000 was done by a wind, hail and electrical storm which centered in Missouri and Kansas.

The heavy fall of rain, ranging from two to five inches, turned many small creeks into turbulent streams and sent the rivers to which they are tributary on rapid spurts. All points in the Kansas river valley and along the Missouri river from Kansas City to Jefferson City are in possession of government warnings of impending floods.

Many stories of narrow escapes came in as telegraphic communication became better in the area affected.

At Goltry, Okla., J. R. Johnson and Dolney Kraft, farmers, led their families into caves at the approach of a small tornado and saved their lives, the homes of both families being demolished.

Woman Cut In Two by Train.

Reading, Pa., June 19.—Catherine A. Strauss, aged thirty, was cut in half by the Queen of the Valley express on the Reading railroad. She was waiting for an excursion train going to Lancaster when she was run down.

CENSUS BUREAU TELLS WHERE WEALTH OF NATION LIES.

The following figures, taken from a census table, show where the \$200,000,000,000 wealth of the United States is to be found:

Real property and improvements taxed	\$98,362,513,569
Real property and improvements exempt	12,313,519,502
Live stock	6,385,388,985
Farm implements and machinery	1,368,224,548
Manufacturing machinery, tools, etc.	6,091,451,274
Gold and silver coin and bullion	2,618,642,734
Railroads and equipment	16,148,532,502
Street railways, etc.	4,596,563,292
Telegraph systems	223,352,516
Telephone systems	1,081,432,227
Cars not owned by railroads	123,963,701
Shipping and canals	1,491,117,183
Irrigation enterprises	360,865,270
Privately owned waterworks	290,000,000
Privately owned central electric light and power stations	2,098,613,122
Agricultural products	5,240,019,651
Manufactured products	14,623,861,489
Imported merchandise	826,632,467
Mining products	815,552,333
Clothing and personal adornments	4,236,008,593
Furniture, carriages and kindred property	8,463,216,222

The six New England states are credited with sharing to the extent of \$11,805,422,012, New York with \$25,011,105,213, Illinois \$15,484,450,232, Pennsylvania \$15,457,520,277, Ohio \$8,508,432,933, while Delaware is lowest with \$307,548,613.

REVOLT IN INDIA WAS HATCHED IN AMERICA.

Hindus Foiled in Plot Say They Had Aid of Germans Here.

The full story of a carefully planned effort to effect a revolution in British India, hatched, it is said, in California, has been revealed in court proceedings under the new defense of India act at Lahore. Eighty-one persons are charged with "conspiracy to overthrow by force the lawful government of India."

The attempt at revolution, according to the witnesses, was launched under German auspices at a meeting of 5,000 or 6,000 East Indians at Sacramento in August, 1914.

"It was thought," declared one witness who was present at this meeting, "that as a great war had broken out in Europe it was a good chance for East Indians to demand their rights and, if necessary, to use force." The witness was one of a party of seventy Indians who sailed from San Francisco on Aug. 29 for Hongkong en route for India.

The Sacramento meeting was one of a number held at various places in America after the failure of the attempt of Gurdit Singh to obtain the entry of 400 Indian laborers into Vancouver, contrary to law, and their return to the east.

Following the arrival at Hong Kong of the party which sailed from San Francisco on Aug. 29, Indians went to various parts of the far east with a view to seditious propaganda.

A general rising in the Punjab was fixed for Feb. 21, but on Feb. 19 suspicion fell on one Kirpal Singh, who had arranged to go and excite the troops at Main Mr. The conspirators were surrounded at a house in Lahore and the plot was frustrated.

Honeymoon by Auto to Western Expositions

An automobile trip to California will be the unique honeymoon of Mr. and Mrs. George Prothero of this place, who were united in marriage at noon Saturday. The bride, who was Miss Alice Taylor, is a daughter of John B. Taylor, vice president of the Farmers bank. A quiet wedding ceremony performed at the Taylor home by the Rev. J. Day Brownlee of this place, made her the wife of George Prothero, a well known Indiana boy. Immediately after the ceremony the couple left in their machine for Chicago where they will remain for a few days, and from there will go to Yellowstone Park and continue west to visit the Panama and San Diego expositions. Mr. and Mrs. Prothero have resided here all their lives. The bride attended Indiana Normal school and was later a student at National Park seminary, Forest Glen, Md. Mr. Prothero entered the Kiskiminetas Springs schools after completing the course in the Indiana schools. The couple will reside here on their return here in August.

NEW PLANT FOR DONORA

Steel Corporation Plans to Manufacture Zinc and By-Products.

New York, June 18.—E. H. Gary, president of the United States Steel corporation, announced that the corporation had decided to build a plant near Pittsburgh for the manufacture of zinc and by-products. Judge Gary said:

"We have decided to build near Pittsburgh, probably at Donora, a new plant for the manufacture of zinc and its by-products, including sulphuric acid, at a cost of from \$2,500,000 to \$3,000,000. We have for some years been considering the building of such a plant in order to supply material for our own use.

"The market for the products of the plant is largely in the Pittsburgh district and for this reason and the further reason that it is a good point for the assembly of raw materials was here selected this location."

Dream Shattered by Mule Kick.

Columbus, O., June 18.—Samuel Thomas, aged forty-eight, who works in a livery stable, went to sleep in the haymow and dreamed that he was drilling a bunch of raw recruits. He started to march in his sleep, fell through a hole in the floor and landed in a stall where a belligerent mule kicked him in the chin. He was taken to a hospital and his injury was dressed. Thomas has been saving his money to pay his transportation to Canada where he hopes to join the army.

Reading History.

He who reads history learns to distinguish what is local from what is universal, what is transitory from what is eternal; to discriminate between exceptions and rules, to trace the operation of disturbing causes, to separate the general principles which are always true and everywhere applicable from the accidental circumstances with which in every community they are blended and with which, in an isolated community, they are confounded by the most philosophical mind. Hence it is that in generalization the writers of modern times have far surpassed those of antiquity.—Macaulay.

Trademarks.

A trademark is a registration of a word or design attached to goods of a certain trader making it clear to the public that they are his manufacture and that nobody but he can use that same trademark. Its use is almost indispensable in the commercial world, and this can be realized better when one knows what its functions are in respect to the trader and his customers. In the first place, being a certificate of genuineness, it protects the public. Secondly, being an identifying mark, the trader is protected by the law against any competitor who endeavors to trade on another's name or goods. Trademarks were issued as far back as the time of James I.—London Mail.

How to Throw the Spitball.

A spitball is thrown just opposite to an ordinary curve. Instead of giving the rotary motion with the fingers, it is given with the thumb. The thumb is placed firmly against a seam, and the saliva is applied to the ball beneath the fingers. The ball is thrown overhanded, and slipping easily from beneath the moistened fingers, but gripped firmly by the thumb against the seam, a sharp rotary motion is given to the ball. When properly thrown a sharp break is secured, the direction of the break depending upon the angle at which the ball is released. The ball is controlled by the thumb.—American Boy.

Africa and North America.
Africa has sixteen inhabitants to the square mile, and North America has only one more per mile.

Life Insurance.
The earliest record of any life insurance policy bears the date of June 15, 1853.

Cynical.
He—Men are what they eat.
She—I've noticed you're fond of 'alves' brains.—Baltimore American.

Buchheit Brothers

Il primiero fra i negozi di forniture in Indiana e paesi cingorvicini

Letti, Materassi, Springs, Guanciali, Incerate, Tappeti, quadri Sofa Sedie e quanto occorre
