BULGARIA CENTER OF BALKAN STORM

King Favors Teutons, People Like Allies, Say Reports

GLASH ON LINE REPORTED

Servia Has Declared Bulgarian Frontier a War Zone—Germany Claims Servians Driven Back From Danube. Big Russian Army Seems to Have Escaped Teuton Trap—Bulgaria Gives Notice of Mobilization.

London, Sept. 22.—The Times correspondent in Bucharest, Roumania, says in a dispatch to his paper that the agitation against the pro-German policy of the Bulgarian cabinet is extending throughout the country. Numerous telegrams have been addressed to the premier, asking the immediate convocation of the chamber of deputies.

"All the opposition groups which favor an arrangement with the entente powers will now be reinforced

by the greater part of the Stambolovist party under M. Genadiev, and will constitute a majority in the so-branje," the correspondent says. "The government is naturally reluctant to convene the chamber, fearing a hostile vote as the country is under martial law and as public meetings are forbidden and the newspapers are frequently confiscated, the sentiment of the bulk of the nation finds inadequate expression and discontent is decreasing."

Servian Frontier a War Zone.
Berlin (L. J. Wireless to Sayville, N. Y.), Sept. 22.—It is reported from the Balkans that the Servian government has declared the Servo-Bulgarian frontier district a war zone.

It also is reported that Bulgarian troops are concentrated near the Servian frontier and that German and Austro-Hungarian troops have been concentrated since a certain date along the Servian border line.

The report of the German headquarters staff that German artillery had opened fire upon the Servian positions near Semendria and had driven the Servians from their positions after silencing their batteries is greeted by the German newspapers as the opening on a large scale of a German campaign against Servia.

Slavs Escape Trap.
Petrograd, Sept. 22.—The Vilna army, under command of General Evert, has escaped from the enveloping movement of the German armies. A dispatch received from army headquarters states that the retreat of the Russian troops is now proceeding under normal and favorable conditions.

The withdrawal of the Russians from Vilna eastward instead of southward is authoritatively interpreted here as proof that the German cavalry has been unable seriously to impede the Russian retreat. Passing Oshmiany and Soly the Russians are now battling for crossings over the Biliya river under conditions regarded as favorable. The Germans in their pursuit have occupied territory only as far as the Meeshank river.

Bulgaria For "Armed Neutrality."
Washington, Sept. 22.—M. Stephan Panaretoff, the Bulgarian minister to the United States, announced that he has received a cablegram from his government announcing that the Bulgarian army was ordered mobilized to "preserve armed neutrality."

Bulgars Invade Servia?
Athens, Sept. 22.—A dispatch from Salonika says an unconfirmed report has been received there that a Bulgarian army has invaded Servia. The message does not give the source of the report.

A Troublemaker.
"Why did you tell my wife that before I met her I promised to love you forever?"
"Well, didn't you?"
"Sure I did, but that's no kind of conversation to go to a man's wife with."—Pittsburgh Dispatch.

DUMBA'S LETTERS ARE MADE PUBLIC

Aid Asked to Maintain Papers and Soapbox Campaign

London, Sept. 22.—The papers taken from James F. J. Archibald, the American war correspondent, by the British authorities, on which was based the request of the United States government for the recall of Dr. Dumba, the Austrian ambassador at Washington, have been made public in part.

There were thirty-four documents in all. Of these three are withheld, "for obvious reasons," except for a small extract from one of them. The three thus withheld are No. 2, written by Captain von Papen, the military attache of the German embassy at Washington, and addressed to the chief of the German general staff at Berlin; No. 6, written by Dr. von Nuber, the Austro-Hungarian consul general in New York, to the ministry of foreign affairs at Vienna, and No. 7, sent by Captain von Papen to the chief of the German general staff at Berlin.

In a letter to Archibald just prior to his departure Ambassador von

Bernstorff expresses his pleasure at hearing that the war correspondent is to return to Germany and Austria "after having promoted our interests out here in such a zealous and successful manner."

Captain von Papen pays his respects to "these idiotic Yankees" in a letter to his wife, in which he says that "it seems quite likely that we shall meet again soon" and that "the sinking of the Adriatic may well be the last straw" but expressing the hope that the danger will blow over.

He refers to the German victories on the eastern front and adds: "I always say to these idiotic Yankees they better hold their tongues. It's better to look at all this heroism full of admiration. My friends in the army are quite different in this way."

Smith Wins in Philadelphia.
Philadelphia, Sept. 22.—Thomas B. Smith, the Republican organization's candidate, swept his party's primaries, winning the Republican nomination for mayor, while Director of Public Safety George D. Porter swept the Washington party primaries. B. Gordon Bromley won the Democratic nomination and Judges James C. Gordon, Keystone.

Leg Bone Placed in Back.
Pittsburgh, Sept. 22.—With a piece of the bone of his leg in his back following one of the most successful bone grafting operations known, William Magarrall, Jr., eleven years old, left the Allegheny General hospital and is now playing with comrades as though he had never been injured. The boy had been an invalid for eight years.

Anthony Comstock Dead.
Summit, N. J., Sept. 22.—Anthony Comstock died here at his home at 8:15 o'clock last evening, of pneumonia, which developed a few days ago, following an illness in which he had been suffering from an intermittent fever for ten days. Mr. Comstock was seventy-one years old.

Railroads Gain Delay.
Washington, Sept. 22.—The interstate commerce commission has granted a request by the railroads interested for time in which to prepare a formal petition asking for reopening and reargument of the western advance rate case so far as certain rates are concerned.

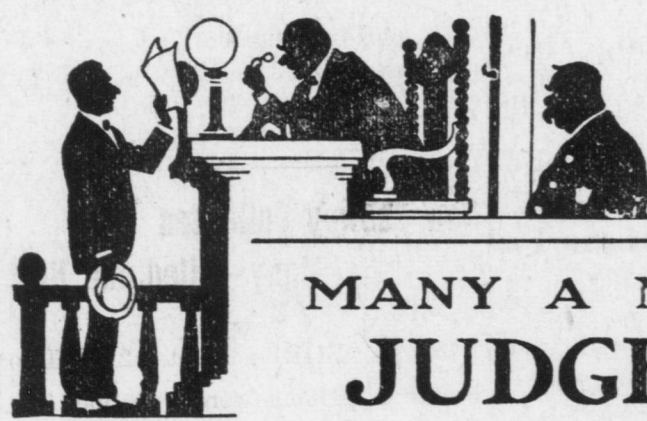

Auto Strikes Boy, Fractures Skull.
Sharon, Pa., Sept. 22.—Wilbert Vath, aged eleven, is at Buhl hospital with a fractured skull as the result of being run down by an automobile driven by Miss Lillian Kirker. Miss Kirker lost control of the automobile and the machine ran on the sidewalk, striking the boy.

An Insinuation.
"They tell me, Mrs. Comeup, your daughter went through that reception in her honor without any faux pas."
"No such thing! She had as much of it as anybody that was there."—Exchange.

Lincoln's Funeral Coach.
The first Pullman sleeping car, constructed in 1864 in the shops of the Alton and Chicago and called the Pioneer, served as the funeral coach for President Lincoln. Its cost was \$18,000, which was regarded in those days as most extravagant, and as it was higher and wider than the ordinary cars and the clearances of station platforms and bridges when it was decided that it should be the funeral coach of the president many changes were involved. Gangs of men were set working night and day to cut wider clearances all the way from Washington (by way of New York and Albany) to Springfield, Ill.—Brooklyn Eagle.

Assets and Liabilities.
An asset is something which you think belongs to you. A liability is something of yours which others think belongs to them. Neither one of you is quite right. An asset without a liability would not be called an asset. Neither would a liability without an asset be called a liability. It would then be debt, while an asset without liability would be wealth or capital or property.
An asset is what you think you own. A liability is what others think you owe. What your liabilities are depend upon your assets. What your assets are depend upon your liabilities. Therefore an asset is a liability and a liability is an asset.—Life.

The Evolution of the Hog.
The time honored razor backed hog is giving place to the sleek porker, on whose broad back a square meal could be displayed without a drop of coffee being spilled and with no danger of even one of the dishes sliding to the ground. The rooster is being shouldered out of the way in Georgia by the hog that doesn't have to root for a living and is so fat that its efforts to root would be ludicrous. Scientists say that when any part of an animal is long unused it tends gradually to disappear. Does that mean that pig culture will cause the final disappearance of the nasal protuberance of the hog with which it formerly was accustomed to root for its living?—Savannah News.

Some Measures.
The length of the foot was used for distances long before it was fixed at twelve inches. A "furlong" is only a furrowlong. The breadth of the hand became the standard because the easiest way of measuring the height of the horse. The length of the arm gave the length of the "ell," and from the elbow to the tip of the middle finger was the "cubit." By stretching out both arms as if on a cross man invented the measure of the "fathom." Cloth measure still decrees that two and one-half inches make a "nail," and this is the width of four fingers held together and measured across the nails. The apothecary's "dram" originally signified "only as much raw spirit as can be held in the mouth."
