Judge O'Conner is Allowed on Porch

Judge O'Conner continues to steadily improve. Yesterday he was allowed to be on the porch at the Mercy hospital, the first time he has left his room since his leg was amputated.

The judge is spending more and more of his time in a wheel chair and is gradually picking up strength. Unless unforeseen complications set in his recovery seems assured.

Friends of the judge have sent flowers in such profusion to him that his room is literally crowded with fragrant blooms.

Indiana Has Gay Old Time on Hallowe'en

Thousands of people crowded the streets in the business section of Indiana Monday night to witness the biggest Hallowe'en celebration this town has ever had.

While five bands played, red and fire burned, mummers paraded and every noise-making device imaginable was worked over time people from scores of towns surrounding Indiana helped to make this a great celebration. There was no disorder and no accidents reported.

Eighth Telephone Girl in One Office Elopes

Kittanning, Pa., Nov. 4.—Kittanning has a marriage bureau, but it's only the telephone office renamed. Local citizens agreed on the change of name today, when it was learned that Mary Matthews, 18 years old, and Walter Barger, 20 years old, had eloped to Buffalo, N. Y., and were married.

Miss Matthews, until yesterday, was an operator here, and her elopement makes the eighth out of the local telephone office within six weeks. The couple eluded the police at several stations enroute to Buffalo last night, the police having been notified to stop the couple on account of their youth.

CRISSWELL REELECTED

Franklin, Nov. 4.—Crisswell, dry candidate for judge, has been re-elected by a majority of 400 over Edmond C. Breene, in Venango county. It is thought that the entire Republican county ticket has been elected.

ENORMOUS CROWD HEARD BRYAN

By automobile, train and trolley from every direction of the county hundreds of persons assembled in the Auditorium Tuesday night to hear the lecture given by William Jennings Bryan on the European war.

Long before 8 o'clock every seat in the house and sold and fully five hundred persons stood in the rear and in the lobby during the speech.

Miss Leonard, of the Normal, introduced the orator in her effective manner. Mr. Bryan held this vast audience in perfect attention for nearly two hours advocating in turn equal suffrage, temperance and world peace. It was a masterly effort and delighted all hearers.

According to the argument, Mr. Bryan advanced, all talk of preparedness either for defense or for commercial protection is poppycock; everybody who utters such sentiment is a "jingo" and should be set upon. Good roads was the particular plan he advocated as an alternative for the use of the money that now goes into the army and navy. His lecture was divided into three parts, the European war, the "false philosophy" behind it and the "way to permanent peace." The way for this country to keep out of war, he said, is to abide by the treaties he negotiated with 30 other countries while he was secretary of state, then wait a year after an insult is received before deciding to extract an apology.

Suffrage Loss by 45,000 Is Conceded; Women to Battle On.

Harrisburg, Nov. 3—Mrs. Frank M. Roessing, president of the Pennsylvania Woman Suffrage association, tonight conceded the defeat of the woman suffrage amendment by 45,000 votes.

The statement says in part: "From our standpoint the fight has been well worth while. We have shown conclusively that there is no apathy on the subject in Pennsylvania and that in at least 30 counties of the state—the 30 we carried—the majority of the men believe in political justice for women. We thank these men for their votes.

"If our opponents are laboring under the delusion that they have dealt us a death blow by defeating our amendment this year they have a sad shock in store for them. Our campaign for the next amendment is already under way.

VENIZELOS DEPOSES CABINET

Italians Capture Austrians' Zagora

LONDON, Nov. 4.—The defeat of the Greek government in the chamber of deputies and the consequent resignation of the Zaimis cabinet is the latest sensation afforded by the Balkans.

While, of course, it was understood that Eleutherios Venizelos, the former premier, had it in his power to turn the government out whenever he so desired, having the majority in the chamber at his back, the fall of Zaimis came unexpectedly, as it was believed the leader of the majority had decided to accord the premier sufficient support to enable him to remain in office, for the present at least.

Westinghouse Shell Department Closed

No employes in the 12-inch shell department of the Westinghouse Machine Company at East Pittsburgh went to work this morning. The department is striking for better rates for manufacturing the shells, and though it was thought a settlement would be reached at a conference between the officials of the company and the strikers yesterday, the conference was futile and the men continued on strike.

The night force, which had been working until yesterday, joined the day men in the strike last night, closing up the 12-inch shell department. The strikers say they will make no effort to induce other employes of the plant to quit work until all chance of a settlement is gone.
