OPEN UP YOUR LIFE.

By cultivating our natural gifts we add to them; by neglect we lose them. Seed that is never put into the soil will never produce a plant. The life that remains closed will never produce a man.

MALE DI STOMACO

Rapidamente curato

Molte persone soffrono il male di stomaco da anni, ed immaginano che dovranno sopportarlo per anni anni con la conseguente aggravante di altre malattie. Costoro mangiano e bevono oltre misura forzando lo stomaco alla digestione.

Ma lo stomaco ha bisogno di un estro aiuto per altrettanto lavoro.

Se questa gente usasse la TONOLINE TABLETS regolarmente, sarebbe loro di grande aiuto allo stomaco. Non importerebbe cosa mangiasero e bevessero, le pillole Tonoline addolciscono lo stomaco irritato e fermano le produzioni di gas in 5 minuti. Quando il peso sparisce, significa che lo stomaco è stato molto aiutato nella digestione.

Le pillole Tonoline

Non solamente sollevano il sofferto, ma sono regolarmente prese, curano assolutamente l'indigestione e ricostituiscono lo stomaco abbastanza forte per poter digerire un buon pasto.

Man's Limitations.

Man has done wonders since he came before the public. He has navigated the ocean, he has penetrated the mysteries of the starry heavens, he has harnessed the lightning and made it light the great cities of the world.

But he can't find a spool of thread in his wife's workbasket; he can't discover her pocket in a dress hanging in the closet; he cannot hang out clothes and get them on the line the right end up. He cannot hold clothespins in his mouth while he is doing it either. He cannot be polite to somebody he hates. In short, he cannot do a hundred things that women do almost instinctively.

The Human Face.

Rosa Bonheur, the great painter of animals, had a system of mnemonics which was exceedingly quaint. She could trace in the faces of those people who visited her a resemblance to some sort of animal. For instance, if some one reminded her of a certain lady she would probably hesitate for a moment and then say, "Oh, yes, the lady with the camel face!" or, "Oh, I remember—she had a cow face!" This memory system was not flattering to her friends, but it showed how saturated she was with a knowledge of animals and their characteristics. On every human face she found a likeness to some animal she had studied and delineated.

Harmony of Diet.

He—Why do you always have pickled beets when I bring any friends home to dinner?

She—To match the kind of friends you generally bring.—Baltimore American.

How Much Iron Can We Make?

Iron furnaces of this country, including all in blast or idle, could, according to the Iron Age, "apparently produce about 40,000,000 tons if they remained in blast a year." This would be 9,000,000 tons above the maximum calendar year output. The Iron Age doubts, however, if all the furnaces could stay in blast a full year, and suggests a trifle over 38,000,000 tons as maximum capacity.

Very Annoying.

"I can't bear these men novelists," declared one lady.

"Why not?" the other inquired.

"They calmly tell you that the heroine wore a gown which fascinated a duke and not a word as to what it was made of or how it was trimmed."—Louisville Courier-Journal.

Untrue.

"Your leading lady is not true to life."

"What's the matter?" "In the first act she receives a telegram, and you have her open it without fear or trembling."—Detroit Free Press.

Make yourself an honest man, and then you may be sure there is one less rascal in the world.—Carlyle.

A Lost Mine.

Among the famous lost mines of the western world and one which is again being sought is the Tisingall of Costa Rica. It is said to have yielded great quantities of gold in the time of the Spanish domination. After quelling the Indian uprisings, however, the Spaniards failed to relocate the mine. It is thought that it lies hidden in the bed of one of the larger streams. Many legends are heard dealing with its wonderful richness, and many attempts have been made to find it, but so far without avail.—Argonaut.
