HOUSEHOLD NECESSITIES

For sewing machines, Vacuum cleaners, mops, etc., see J. K. Carney, White building, Indiana, Pa.

Wholly Inappropriate.

"I can't find any old clothes to put on the scarecrow," said Farmer Corn-tassel.

"You might use some of the fancy duds our boy Josh brought home," suggested his wife.

"I'm tryin' to scare the crows. I'm not tryin' to make 'em laugh."—Harward Lampon.

TRY SMILING.

Scowling and growling will make a man old;
Money and fame at the best are beguiling.
Don't be suspicious and selfish and cold;
Try smiling.
—John Esten Cooke.

This illustration shows the Victrola XIV, \$150

Victrola dance music is always a favorite

Dance enthusiasts enjoy dancing to the splendid music of the Victrola. It is just like having the greatest bands and orchestras to play for you. And with a Victrola, they keep right on playing until you want them to stop.

We will be glad to play the latest dance numbers for you any time you find it convenient to come in. We'll show you the complete line of Victors and Victrolas too—\$10 to \$400—and tell you about our system of easy terms.

S. Ren Pollock

INDIANA, PENN'A.

Thrifty Actors.

The economy of a stock company offered interesting instances here at the old Boston museum. Some of the actors had no intention of letting grass grow under idle feet. One player was a barber by day; another, the beloved "Smithy," was a tailor—very properly, the tailor played fops. I had a particular friend who was a cab driver. Who shall point the finger of scorn that these had two strings to their bow? Their example might be well followed. An honest barber or, for that matter, an honest cab driver may be the noblest work of God. And well may the actor's study of mankind be multiplied a thousandfold by the scraping of innumerable chins or the driving of the accidental wayfarer from the cradle to the grave. Who could better take man's measure than

the tailor, dissect him to a hair than the barber or consider his final destination than the cab driver?—"My Remembrances," by E. A. Sothorn in Scribner's Magazine.

Wounds of the Heart.

In wounds of the heart itself the escape of blood is never in large quantity, and the lethal consequences are due to the fact that the escape of blood from within its cavity of cavities into the surrounding sac of the pericardium mechanically interrupts the alternate contraction and expansion by which its pumping action is maintained. Accordingly the results of the wound of the heart are usually identical with those of gradual suffocation. — Exchange.

Indian

with new
Powerplus Motor

**Greatest
Speed
Power
Silence
Cleanliness
Accessibility
Economy**

One way to know Twin Cylinder motor efficiency — POWERPLUS, the new Indian motor.

It alone embodies those standards of quietness, cleanliness, power, and speed which advance motorcycling to its highest degree of perfection.

The Powerplus motor develops more horse power per cubic inch of piston displacement than any other stock motor. Without "tuning up," any stock Powerplus develops 15 to 18 horse power, per dynamometer test, and a speed of approximately 70 miles an hour.

Long stroke, light reciprocating parts and minimum friction give the Powerplus its unmatched power. Accuracy of design makes oil-tightness absolute. It has the fastest pickup known—from standstill to 60 miles an hour in 30 seconds!

You must see the Powerplus to appreciate its ease of control, its steady, silent generating force, its many super-qualities.

Come in TODAY and ask us to explain why the Powerplus motor is head and shoulders above any motor of its kind—why the 1916 Indian is the highest development of motorcycle creative genius.
