## Facts Versus Fallacies

FACT is a real state of things. FALLACY is an apparently genuine but really illogical statement or argument.

These three cities have about the same sized Population

IN THIS series of "FACTS VERSUS FALLACIES," comparisons were cited to show that more than twice as many arrests were made last year for drunkenness in the prohibition city of Topeka, Kansas, as there were in the "wet" city of Chester, Pa.; and three times as many arrests for drunkenness in the prohibition city of Rockford, Illinois, as there were in Chester, all three cities being about the same in population. And it is instructive to show further the FALLACY of Prohibition from a review of comparative FACTS in the Racine (Wisconsin) area, which says:

**675 Persons Arrested for Drunkenness in Dry Rockford**

Racine there were only 10 arrests for this offense.

REPORTS from Rockford are to the effect that the lid is clamped down tight, and yet there were 91 arrests there for gambling, while in Racine there were only 31 arrests for this offense. Rockford requires 33 policemen to protect its people, while in Racine there are only 35.

COMPARATIVE figures, based upon actual FACTS, as authenticated by Police Department reports of cities' experiences under Prohibition law, as compared with the license system of liquor dispensation, decisively refute "dry" FALLACIES.

Remarkable Success of Talented Physician in the Treatment of Chronic Diseases

Offer Services Free of Charge

The United Doctors Specialist, licensed by the State of Pennsylvania for the treatment of all diseases, chronic diseases of men, women and children, offer to all who call on this trip consultation, examination, advice free, making no charge whatever, except the actual cost of treatment. All that is asked in return for these valuable services is that every person treated will state the result obtained to their friends and thus prove to the sick and afflicted in every city and locality, that at last treatments have been discovered that are reasonably sure and certain in their effect.

The United Doctors are experts in the treatment of chronic diseases and so great and wonderful have been their results that in many cases it is hard to find the dividing line between skill and miracle.

Diseases of the stomach, intestines, liver, blood, skin, nerves, heart, spleen, rheumatism, sciatica, tapeworm, leg ulcers, weak lungs and those afflicted with long-standing, deep-seated, chronic diseases, that have baffled the skill of the family physician, should not fail to call. Deafness often has been cured in sixty days.

According to their system no more operation for appendicitis, gall stones, tumors, goiter, piles, etc., as all cases accepted will be treated without operation or hypodermic injection, as they were among the first in America to earn the name of "Bloodless Surgeons" by doing away with the knife, with blood and with all pain in the successful treatment of these dangerous diseases.

No matter what our ailment may be, no matter what others may have told you, no matter what experience you may have had with other physicians, it will be to your advantage to see them at once. Have it forever settled in your mind, if your case is incurable they will give you such advice as may relieve and stay the disease. Do not put off this duty you owe yourself or friends or relatives who are suffering because of your sickness, as a visit at this time may help you.

Worn-out and run down men or women, no matter what your ailment may be, call, it costs you nothing. Remember, this free offer is for this visit only.
