

Rumanian Losses In Danube Rout 15,000

Entire Army Is In Hasty Flight Across Danube

SOFIA, Oct. 5 — Bulgarian troops have enveloped and destroyed 15 or 16 Rumanian battalions (about 15,000 men), which crossed the Danube and invaded Bulgaria near Riahovo, said an official statement from the war office today.

The defeat suffered by the Rumanians is the greatest since the destruction of the Rumanian army at the fortress of Tutra-kan, when 23,000 Rumanians were trapped and captured south of the Danube.

The Rumanians were caught by an encircling movement and began to stream back across the

river without offering stubborn opposition. Teutonic monitors had smashed some of the pontoon bridges over which the invaders crossed, thus interfering seriously with their retreat to the north bank.

Bulgarian artillery was trained on Rumanian transports that attempted to facilitate retreat adding to the confusion in the ranks of the enemy. The exact number of prisoners is not definitely known but it is reported that large quantities of war material were brought in.

On the Dobrudja front all Russo-Rumanian attacks were frustrated.

SALONIKI SEES LIVE REPRODUCTION OF AMERICAN PAINTING, "SPIRIT OF 1776"

"-SPIRIT OF 1916" IN GREECE.

Photo by American Press Association.

As the three men shown in the picture paraded the streets of Saloniki, where they were photographed, they reminded some Americanized Greeks of the American painting, "The Spirit of 1776," and the

picture was dubbed, "The Spirit of Greece in 1916." Strictly speaking, however, these men are not Greeks at all, but Macedonian Turks and wandering mendicant musicians, wandering from town to town in the disturbed country. Men such as these

have caused much trouble in Saloniki and the surrounding country by their lawlessness, and their activities will probably be restricted severely when Greece begins active operations against the Bulgars and Turks.

SAYS G. O. P. MUST WORK TO CARRY WEST FOR HUGHES.

COLORADO SPRINGS, Sept. 29—Clarence P. Dodge, former Progressive Chairman of Colorado, today strongly censured the Republican organizations of the Western States for their weak campaign measures.

"If the Republican Party expects to carry Western States for Hughes, the State organizations must adopt more systematic methods to obtain the large vote made up of Progressives and Hughes Democrats," said he. "Otherwise the chances are excellent for Wilson. The party organization of Colorado has so far devoted too much time and attention to local squabbles and internal dissension."

Origin of Bon Ton Fire A Mystery

There have been no developments in the investigation started today to learn the origin of the fire which damaged the Bon Ton store here early Sunday morning. The fire started shortly before 3 and when the firemen reached the store the building is said to have been burning at two distinct places. Broken cash registers, the disappearance of a valuable coat and the finding nearby of two handbags belonging to the store indicate that the interior was visited for the purpose of securing loot and fired either accidentally or intentionally, as the intruders left.

The loss is estimated at several thousand dollars. As soon as the insurance adjusters complete their work the storeroom, which is located on the first floor of the Elk building, will be remodeled and restocked.

INDIANA COUNTY AWARDS CONTRACTS FOR BRIDGES

The County Commissioners awarded the contracts on Thursday for the erection of five county bridges, representing an expenditure of \$19,131.15 for the construction of the structures and culverts.

The most important bridge is that of reinforced concrete over Twolick Creek, near Lower Twolick, on Indiana-Homer City road to replace the present iron bridge, which was condemned, owing to the curves at the approaches, due to the location of the structure. The contract was awarded to Whitaker and Diehl, of Harrisburg, for the sum of \$10,419. The contractors have already begun the preliminary work on the construction of the bridge, which will be completed this year.
