at Beaver Brook, has imported a large F. Westlake, who resigned to become WILSON'S ACT COURAGEOUS.

Miss Katherine Fetzer, of Goucher Member of Cleveland's Cabinet Praises President's Domestic Achievements and His Policy to Keep Country Out

No American can speak with higher authority on the issues of this campaign than Richard Olney, who was President Cleveland's attorney general during the railroad strike of 1894 and President Cleveland's secretary of state when the Venezuelan message was sent to the British government. He should know whether President Burton Osterhout, tax agent of the Wilson's action in averting the railmen in the Perkiomen Valley, with an Delaware & Hudson company, was road strike was a "surrender to force;" apiary of fifty-five hives, and will har- killed at Inkerman, near Scranton, by whether the Wilson foreign policy has been "timid and vacillating."

Mr. Olney seeks no political preferment; his interest is that of a retired statesman, of a wise, experienced, dispassionate patriot, who is concerned

only with the welfare of his country. Mr. Olney has written for the New York World a signed article in which he warns the American people against over their affairs to Mr. Hughes and the interests which would dictate his policies, foreign and domestic.

Where Was His Nerve?

Discussing the passage of the Adamson eight hour law, Mr. Olney points out that the Republicans of the senate, if they had really wished more time for the consideration of the bill, could have obtained it by means of a filibuster, a recognized senatorial weapon,

and adds: "Why did not the Republican senators resort to it and get all the time for deliberation they wanted? What was Candidate Hughes doing that he did not make the wires het with messages to Washington-warning against the law the seventy-four Republican representatives who voted for it and urging the twenty-eight Republican

senators to filibuster te the last ditch? "But neither he nor the Republican leaders generally had the nerve to face the situation. With ample means in their hands to prevent legislation until

after its due consideration, they deliberately elected that it should appear to be enacted under coercion in order that after the great national deliverance had been effected they might object to the mode of its accomplishment.

"A pettier and more ignoble game of politics never was conceived. In comparison and in view of the sudden and the country President Wilson's course was characterized by both courage and common sense."

Of Candidate Hughes' conduct in the campaign Mr. Olney remarks:

"No sooner was the nomination assured than the robes and ermine of the judge fell from the candidate as if by magic, and there appeared in their place the motley wear of the ordinary office seeker-a transformation as sudden as that made by the wand of Harlequin in the pantomime, and a transformation showing how thin is the judicial veneer, and forever discrediting the United States supreme court as a training camp for high political office."

Has Kept the Rudder True. In its conduct of foreign relations the Wilson administration, Mr. Olney says, "has kept its rudder true and has won and deserved the respect and gratitude of the country."

The principles and objects of the Wilson foreign policy as stated by Mr.

Olney have been: First-To keep the country out of the great European war.

Second-To insist upon the existence and vitality of international law as determining its own status as a neutral, and defining its rights and obligations as such. Third-To deal with the Mexican

situation in a spirit of perfect fairness and friendliness to the Mexican people, now suffering from civil dissensions and revolution to an extent which leaves a large part of the country in a state of anarchy. Mr. Olney shows that all these objects have been attained through the wise, patient and courageous diplomacy of Woodrow Wilson; that the president has kept the country at peace without dishonor; that under his leadership "the United States has rendered an inestimable service to belligerents and neutrals and to all mankind" in "steadily bearing aloft the banner of international law as the standard under which all civilized peoples must eventually gather."

Mr. Olney finds particular cause to commend President Wilson's Mexican policy. He stands with the president in declaring that the Mexicans have the right to work out their own destiny even through revolution.

Closing by asking what is likely to happen if the "presidential tiller
