RICORDATE IL NOSTRO GARAGE

521 Philadelphia Street -- Di fronte al Central Hotel
Indiana, Penna.

"A great net of mercy drawn through an ocean of unspeakable pain"

"I'm afraid that's all I can spare"

You're a regular, red-blooded, true-blue American. You love your country. You love that flapping, snapping old flag. Your heart thumps hard when the troops tramp by. You're *loyal*---100%!

You intend to---you *want* to---help win the war in a hurry.

"Sacrifice? Sure," you've been thinking. "Just you wait till they really need it." And you've honestly thought you *meant* that too.

But---look yourself in the eye, now, and search up and down inside of your heart---*did* you mean it? *Did* you really mean "sacrifice"? Listen: You feel poor. This third Liberty Loan, the high prices, the Income Tax---you've *done* your bit. You feel that you've given all you can spare.

What? Then what *did* you mean? What's that you said about loving your country? What did you think the word "sacrifice" means?

Surely you didn't mean; did you, to give only what you can *spare*?

What about our boys who are giving their lives in the trenches? *Are they* giving only what they can "spare"?

How about those mothers and little "kiddies" in the shell-wrecked towns of that war-swept hell:---hungry---ragged---sobbing---alone? Giving up their homes, their husbands, their fathers.

While *we*---over here with our fun and our comforts---we hold up our heads and feel *patriotic* because we have given---*what?* Some loose bills off the top of our roll. "*We've* given all we can spare!"

Come, come! Let's quit fooling ourselves. Let us learn what "sacrifice" *means*. Let us give *more* than we can spare---let us "give till the heart says stop."

Every cent of every dollar received for the Red Cross War Fund goes for War Relief.

The American Red Cross is the largest and most efficient organization for the relief of suffering that the World has ever seen.

It is made up almost entirely of volunteer workers, the higher executives being without exception men accustomed to large affairs, who are in almost all cases giving their services without pay.

It is supported entirely by its membership fees and by voluntary contributions.

It is today bringing relief to suffering humanity, both military and civil, in every War torn allied country.

It plans tomorrow to help in the work of restoration throughout the world.

It feeds and clothes entire populations in times of great calamity.

It is there to help your soldier boy in his time of need.

With its thousands of workers, its tremendous stores and smooth running transportation facilities, it is serving as America's advance guard---and thus helping to win the war.

Congress authorizes it.

President Wilson heads it.

The War Department audits its accounts.

Your Army, your Navy and your Allies enthusiastically endorse it.

Twenty-two million Americans have joined it.

A Vast Stage.

The largest stage in the world is that of the Grand Opera house in Paris. It is 100 feet wide, nearly 200 feet in depth and 80 feet high. The height is measured from the level of the stage to the "flies." The stage of the Metropolitan Opera house, New York, is 101 feet wide, 89 feet deep and 77 feet high.

Dolly Dillon.

Dolly Dillon, denouncing dawdlers, disdained dashing Dick Dereritt, debonaire dancer. Dick, despairing, defied decorum, dug ditches daily, duly demonstrating devotion. Dolly, delighted, discarded derision, discontinued disparagements. Dick's diamond decorates Dolly's dainty digit---Christian Register.

Understanding.

More hate would be mellowed to love by intimate knowledge than would regard to disfavor. A smattering information is a treacherous possession. All it requires to effect better relations between nations as well as individuals is knowledge, and more knowledge.

Stops Flag Wrapping.

The wind will not play pranks with your flag if a soft piece of feather bone, as used by dressmakers, is run through a casing of narrow navy blue ribbon along the upper edge of the field. The casing will never be noticed if carefully done.

A Mutual Pleasure.

Mother---"Were you glad to get back to school and see your dear teacher?" Little Son---"Well, I---I was just about as glad as dear teacher was to get back and see me!"

No Time for Debate.

"Jibbes is the kind of fellow who never makes a move without first asking himself whether or not it will be good for his health." "I saw him jump six feet in the air yesterday to dodge an automobile. Instinct probably told him what was good for his health, without his stopping to debate the matter."

Handy Scrapbook.

Have you a little blank book which you keep full of household suggestions, in alphabetical form? Much can be gained when reading the papers and magazines if you clip out some of the suggestions which are worth while. Paste them in the proper place in your little book. It is more than worth the trouble.---Exchange.

Plants Are Prolific.

If all the seeds of any one sort of plant were allowed to grow they would soon cover the earth to the exclusion of all else. A single orchid plant produced more than 10,000,000 seeds in a season and many common plants, as the foxglove, very nearly equal this remarkable record.

Welcome Punishment.

Ruth was very fond of going to her grandmother's. One day after she had been playing with her little baby sister a little roughly and her mother had reproved her for it, she said: "Why don't you send me to grandma's, so I won't hurt her?"

Taking All the Smell.

Dolly and Dick had saved their pennies and bought their mother a bouquet. In carrying it home Dolly kept smelling it constantly till finally Dick said: "There won't be no smell left for mama when we gets it home."

Left-Handedness.

No attempt should be made to teach naturally left-handed children to use their right hands, according to P. B. Ballard, inspector of schools of London, as it is likely to make them stammerers. Mr. Ballard supplies the following statistics: Out of one group of 545 left-handed children 1 per cent of pure left-handers stammered, against 4.3 per cent of 399 being taught to use the right hand. In another group of 207 the figures was 4.2 per cent and 21.8 per cent, respectively.

Plants on Defensive.

Though some plants assume the offensive and catch insects for food, others act on the defensive to protect them from being used for food. This special provision accounts for the presence of thorns, spines, stinging hairs, etc.

From Lemons.

Process invented by an Italian chemist for extracting essential oils from citrus fruits is said not to affect the chemical properties of the oils in any way, and it is predicted that it eventually will revolutionize the industry.

Good-by Leather Shoes.

The leather shoe is becoming so expensive that it will soon be out of the reach of all but the rich; therefore, according to Andrew H. King, writing in Metallurgical and Chemical Engineering, its place is to be taken by shoes with soles of rubber and uppers of canvas. The properly made rubber sole, into which ground cotton waste and leather dust are incorporated, will outwear two or three leather soles and will not slip on wet pavement.
