

"A great net of mercy drawn through
an ocean of unspeakable pain"

Your Red Cross Fighting Dollars

Your Army and Navy fights to make the "World safe for Democracy."

Your Red Cross fights to make it *fit* for Democracy.

Fights for your soldiers--yours and your allies--in trench, canteen and hospital.

Fights for the little children, to save them for the nations' upbuildings of tomorrow.

Fights for the swarms of homeless, dazed refugees and "repatriates" thrown out from the war's black whirlpool.

Fights the white plague, tuberculosis, that takes a greater toll than lead and steel.

Fights in every war stricken country to uphold a wrecked and suffering humanity in its struggle for a free existence.

One hundred million dollars to "carry on."

No power of taxation, no interest rate to urge *those* dollars.

Each one a *volunteer*, sent willingly and by the heart alone.

The noblest fund of all the billions of this war's vast budgets--because the freest given.

What share is yours? What sacrifice to mobilize those Fighting Red Cross Dollars?

Every cent of every dollar received for the Red Cross War Fund goes for War Relief.

The American Red Cross is the largest and most efficient organization for the relief of suffering that the World has ever seen.

It is made up almost entirely of volunteer workers, the higher executives being without exception men accustomed to large affairs, who are in almost all cases giving their services without pay.

It is supported entirely by its membership fees and by voluntary contributions.

It is today bringing relief to suffering humanity, both military and civil, in every War torn allied country.

It plans tomorrow to help in the work of restoration throughout the world.

It feeds and clothes entire populations in times of great calamity.

It is there to help your soldier boy in his time of need.

With its thousands of workers, its tremendous stores and smooth running transportation facilities, it is serving as America's advance guard--and thus helping to win the war.

Congress authorizes it.

President Wilson heads it.

The War Department audits its accounts.

Your Army, your Navy and your Allies enthusiastically endorse it.

Twenty-two million Americans have joined it.

An Old-Time Plow.

An old-time plow, probably used by the early Spaniards around San Antonio, Tex., was upturned by workmen of a construction company. The plow has a three-foot turning blade capable of making a three-foot furrow, and although the wooden handles have rotted away the size of the iron supports indicates the plow must have been about twelve feet in length. It is believed the old instrument was used by the early Spaniards with several yoke of oxen.

Gourd Family Is Important.

The gourd family furnishes the human families with many edible fruits, and it is believed that pumpkins and squashes are of American origin, though in novise certain. On the other hand, it is known that watermelons, muskmelons, cucumbers and all that branch of the family are of Asiatic origin. Yet all countries have native species of this great family.

Left-Handedness.

No attempt should be made to teach naturally left-handed children to use their right hands, according to P. B. Ballard, Inspector of schools of London, as it is likely to make them stammerers. Mr. Ballard supplies the following statistics: Out of one group of 545 left-handed children 1 per cent of pure left-handers stammered, against 4.8 per cent of 389 being taught to use the right hand. In another group of 207 the figures was 4.2 per cent and 21.8 per cent, respectively.

A Mutual Pleasure.

Mother--"Were you glad to get back to school and see your dear teacher?" Little Son--"Well, I--I was just about as glad as dear teacher was to get back and see me!"

Make Gems of Them.

Nearly all artificial gems--that is to say, stones that are really made by artificial means--are compounds of alum crystallized under special conditions. The metallic salts that are added during fusion determine whether the stones produced shall be sapphires, rubies or Oriental topazes, amethysts or emeralds.

Work.

There is nothing but what's bearable, as long as a man can work. The nature of things don't change, though it seems as if one's life was nothing but change. That the square of four is sixteen, and you must lengthen your lever in proportion to your weight, is as true when a man's miserable as when he's happy; and the best of working is, it gives you a good grip-hold of things outside your own lot.--George Elliot.

Understanding.

More hate would be mellowed to love by intimate knowledge than would regard to disfavor. A smattering information is a treacherous possession. All it requires to effect better relations between nations as well as individuals is knowledge, and more knowledge.

Ground Squirrels.

More than 50 species and races of ground squirrels inhabit the United States and Canada.

Watch Winding Machine.

In a New York watch repairing establishment, where more than 700 watches have to be wound every day, an electrical apparatus has been installed to do the winding. It does the work more efficiently than human hands can, and takes the place of several men formerly required for this work.

The Largest Diamond.

The largest diamond that has yet been found is the Cullinan, which was discovered in the Premier mine in the Transvaal in 1907 and weighed 3,025 1/4 carats, or one and one-third pounds, in the rough, and at that it was apparently only a fragment of a larger stone. In cutting this immense gem it was divided into nine large stones and a number of brilliants, the largest finished stone being only 516 1/2 carats.

Handy Scrapbook.

Have you a little blank book which you keep full of household suggestions, in alphabetical form? Much can be gained when reading the papers and magazines if you clip out some of the suggestions which are worth while. Paste them in the proper place in your little book. It is more than worth the trouble.--Exchange.

No Time for Debate.

"Jibbes is the kind of fellow who never makes a move without first asking himself whether or not it will be good for his health." "I saw him jump six feet in the air yesterday to dodge an automobile. Instinct probably told him what was good for his health, without his stopping to debate the matter."

Production of Leghorns.

The average production of eggs by hens of all kinds and ages in the United States is 85. Unselected White Leghorns, however, produce an average of 130 eggs for the first year, 120 for the second, 110 for the third, 85 for the fourth, and fall off about ten a year up to the eighth. These figures are from a bulletin of the Utah experiment station. If the first year production be low, the second will be high and vice versa, the total production for three years being about the same.

LA FESTA DEL 18 AGOSTO IN McINTYRE, PA.

Domenica 18 Agosto, avra' luogo in McIntyre l'annuale festa di
Maria S. S. dell'Assunta.

Quest'anno il comitato direttivo composto di solerti minatori lavora a tutt'uomo a finche' la festa del loro cuore riesca sotto ogni rapporto magnifica.

Programma

L'alba del mattino sara' salutata dallo sparo di mortaretti.

Alle ore 8 A. M. avra' luogo un'imponente parata preceduta da uno scelto corpo musicale la quale dopo di avere attraversato le strade principale del paese, fara' sosta alla chiesa Cattolica dove, il Parroco locale celebrera' la messa cantata.

All'una P. M. si incominciera' il Ballo che durera' sino alle sei; rinfreschi ed altro saranno serviti abbondantemente.

Dalle Ore 7:30 alle 9:00 Il corpo musicale svolgera' un scelto programma.

Alle ore 10:00 Saranno incendiati vari pezzi di fuochi pirotecnici dell'artista Damiano Bruno di Anita, Pa. Tante altre cose che oggi non possiamo svelare il segreto concorreranno alla celebrazione della festa.

TUTTI I CONNAZIONALI DEI DINTORNI SONO CORDIALMENTE INVITATI.
Il Comitato della Festa.

Pagamenti
Facili

Pianoforti
e Pianole

Grande "Stock" di
Rolli musicali

Pianoforti
e Pianole

A prezzi fatti prima della guerra, I prezzi dei Pianoforti e delle Pianole sono stati aumentati durante gli ultimi 6 mesi, e fra altri 6 mesi vi sara' un nuovo aumento su questi strumenti.

La ragione che noi possiamo vendere a prezzo piu' basso degli altri, e' che ci troviamo negli affari da piu' tempo, e compriamo a prezzi bassi. Fra non molto saremo costretti aumentare i prezzi anche noi.

Se volete comprare un pianoforte vi conviene far presto e non aspettare.

Pianole da \$450 a \$700

**Grande varieta' di Pianoforti da \$100 a \$750
di qualsiasi stile o legno.**
