### Social Program For Churches To Be Outlined By World Leaders

Syria Mosque, Pittsburgh, Headquarters Christian Citizenship Conference.

THE directors of the Third World's Christian Citizenship Conference to be held in Syria Mosque, Pittsburgh, Pa., from November 9 to 16, inclusive, declare that fully one-third of the Bible consists of God's specific messages to nations rather than to individuals.

They say that the Bible is God's text-book in relation to world civic and political programs, and during the Pittsburgh Conference several bible students of international reputation will interpret these messages of the Bible in view of present-day needs.

It is hoped that growing out of the discussion there will be evolved a program for which United Christianity throughout the world may stand, and that this declaration of principles will result in definite action on the part of churchmen the world over.

The conference will, however, be non-sectarian and non-ecclesiastical in character. It will be evangelical but not evangelistic, the leaders say.

It will be unique in that fully a score of prominent statesmen and social reformers are to come from various foreign countries. Following is a partial list of representatives from other nations: Dr. C. Telford Erickson, Overseer of Educational Work, Albania; Hon. Dr. Calderon, United States Ambassador from Bolivia; Dr. Ping Wen Kuo, Chairman Educational Commission of China; Mrs. Theodore Cory, and Dr. F. Herbert Stead of London, England; Monsieur Paul Bellamy, Mayor of Nantes, France; and Madame Avril de Sainte Croix, Director National Council of French Women; Joaquin Mendez, Ambassador to United States from Guatemala; A. Hume Ford, Editor

"Mid-Pacific," Honolulu; Dr. J. L. Pierson of Holland; Policarpo Bonilla, Former President of Honduras; Dr. Danjo Ebino, pastor Japan's leading Church, and Mrs. Danjo Ebino, Editor "New Woman"; Pierre Chotch, Minister of Justice of Montenegro; William J. Hanna, Ex-Chairman Board of Public Works, New South Wales; Bishop Bernst Stoylen and wife of Christiansand, Norway; Countess d' Ursel, lady-in-waiting to queen of Belgium; William Thomas, Pastor of Vaud, Switzerland; Dr. John Thomas and wife, Secretary Citizen's Union, Wales.

Most of the speakers however will represent the United States.

The Labor problem will be given a prominent place in the program of the conference. One of the nine world-commissions will report on Capital and Labor, Dr. Samuel Zane Batten of Philadelphia, its chairman, having spent two years in preparing this report.

Several leaders in the economic field will give addresses on this subject, and Dr. John Royal Harris, in charge of the Department of Industrialism of the National Reform Association will present the results of his investigations of Bolshevism and other radical movements.

On one of the Sundays it is probable that a great labor mass meeting will be held for the discussion of industrialism, when one of America's leading authorities on the labor question will talk.

While the main meetings will be held in Syria Mosque, which seats about 5,000 people, it is confidently expected that overflow meetings will be held in Soldiers' Memorial Hall, seating 4,000, and Carnegie Music Hall, which accommodates 2,000.

#### Oldtime News Service.

In 1832 James Watson Webb, of the New York Courier and Enquirer, established an express-rider service between New York and Washington which gave his paper valuable prestige. In the following year the Journal of Commerce started a rival service, which enabled it to print Washington news in New York within 48 hours of its occurrence. The most notable express-mail service of all was the "pony express," which carried messages by relays of riders across mountains and deserts and through hostile Indian territory from St. Louis to San Francisco, covering 1,966 miles in 10 days.

#### Rusty Steel.

To clean rusty steel, well oil the rusty parts and set aside in this state for two or three days. Then wipe dry with clean rags and polish with emery or pumice stone. When very rusty and a high polish is desired rub the article with a little slack lime.

#### Youthful Diplomacy.

Pretty Teacher (severely)—"Johnny! Johnny Stubbs! You are whispering again." Johnny (a smart boy)—"Please, I am only telling Winnie Winkles what nice things all the gentlemen said about you when you walked along the street."

REV. JOHN THOMAS  
Noted Welsh Preacher.

REV. JOHN THOMAS, general secretary of the Welsh Forward Movement, will address the Third World's Christian Citizenship Conference to be held in Pittsburgh during Armistice week, November 9 to 16. He will bring a personal message from his friend, Lloyd George.

### SCOTLAND'S GREATEST CHURCH SENDS ORATOR TO PITTSBURGH

THE pastor of Scotland's greatest church—Dr. Norman Maclean—is to be one of the score or more of speakers from abroad at the World's Christian Citizenship Conference to be held in Pittsburgh, November 9 to 16 inclusive.

DR. NORMAN MACLEAN

He was appointed to St. Cuthbert's Point Church, Edinburgh, in 1915, which now has a membership of nearly 4,000.

Dr. Maclean was born in the Isle of Skye in 1869, and was the son of a schoolmaster. He was the second of three brothers who were ordained in succession ministers of a lonely Hebridean parish. Then he became minister of the romantic parish of Glengarry, made famous by Ian MacLaren. Afterward—or to be exact, in 1903—he became the minister of Colinton Church of which Robert Louis Stevenson's grandfather was minister for forty years. In 1910 he succeeded the Very Rev. Dr. Donald Macleod as minister of The Park Church, Glasgow, of which Principal Caird was once minister. And in 1915 he was appointed to St. Cuthbert's, Edinburgh.

#### The Candle in History.

The cult of the candle plays a large role in Roman, Jewish and Eastern ecclesiastical history; and many are the customs that have their birth in some magical or ritualistic use to which the candle has been put. In some parts of Ireland, for instance, it was usual on Christmas eve to burn a large candle which no one was permitted to snuff except those who bore the name of Mary.

#### Mendoza Is Old City.

Mendoza is the metropolis of western Argentina. It is a city of some size carefully planned and able to stand comparison with any town in the new world or the old one the point of municipal beauty. It looks distinctly new, but as a matter of fact it is one of the oldest towns in the western hemisphere. It was founded fifty years before the well-known settlement of Jamestown in Virginia, while the fathers and mothers of the Pilgrims were still living peacefully in England.

#### What Is Genius?

Genius is a handsome name frequently given to hard-working men after they have finished a tough job.—The American Magazine.

#### On the Move.

We can say this for the somnambulist—he is no idle dreamer.—Boston Transcript.

#### Work Involved in Making Rifle.

The English rifle, the Lee-Enfield, fires 34 shots a minute. It is made in 94 parts, involving over 1,000 operations.

#### Good Nurse.

When it comes to coddling imaginary wrongs the average man is a faithful nurse.—Cincinnati Times-Star.

#### Faces and Figures.

A woman's face is her fortune for the reason that with it she usually is able to land a man who measures his bank account in six figures.

#### Went Him One Better.

"I love you very much, papa," said four-year-old Edna, as she climbed on her father's knee. "I love you, dear," when you are a good girl," replied her father. "But, papa," said Edna, "I love you even when you ain't no good."

### STENOGRAPHERS.

A stenographer is a young lady who takes down the hard think thoughts of her employer in a notebook and afterwards edits and improves them on a typewriter, as soon as she has done up her cuffs, revised her hair, manicured her nails and modified her complexion.

There was a time when there were no stenographers, and business offices were gloomy places, in which men swore and wore hats, smoked cigars and kept their feet on the tables and their coats on hooks in the closets. Then the cheery stenographer was invented and through her coming, most of the gloom had been dispelled.

Stenographers are manufactured by business colleges out of shop girls, farmers' daughters and assistant housekeepers, with now and then a high school graduate as a prize package. They have good educations and can spell almost any small word by ear. However, the memory of the average stenographer is somewhat defective, which makes it almost impossible for her to understand her notes after they have stood for a few minutes.

Stenographers are great linguists and are forever inventing new words and phrases. A stenographer will write "Supreme Cuff," "snuborgination," "Witnesses be noses and says" and other remarkable improvements on the language, without giving it a thought. Indeed most of them are very modest over these achievements and will take half an

hour of their employer's valuable time to convince him he is entitled to all the credit of the improvement. Stenographers get from \$3 a week to \$10,000 a year and earn less and more than this. A poor stenographer is dear at \$3 a week, while there is always a waiting list of eager employers for the \$150 a month stenographer.

They sometimes spare a moment to typewrite a letter or two.

rapher who sharpens her pencils in her spare time, and writes letters which can be "signed but not read." Stenographers should always dress modestly and refrain from anything but business conversation during office hours. Unless they do this, they are very likely to become millionaire's wives, or to meet some other equally terrible fate.
