

THE MONSTER LUMP OF GOLD IN SAN FRANCISCO—THE LARGEST IN THE WORLD.

We copy the following from the Alta Californian of December 1st:
An immense lump of quartz gold has been found in Calaveras county, weighing 161 pounds, or 2,576 ounces avoirdupois. Estimating it to contain 20 pounds of quartz, which is a large allowance in the opinion of experienced persons who examined it, the actual weight of the gold in it will be 141 pounds, or 2,256 ounces, avoirdupois, the value of which, at \$17.25 per ounce, would be \$38,916. This is the largest nugget of pure gold ever found in California or in the world! It was brought down to this city yesterday by Adams & Co., and will be shipped to the Atlantic States in the steamer of to-day. The proprietors of it were so excited by their good luck that they sat up beside their treasure night and day on its way here. Mr. Perkins, one of the company to whom it belongs, states that it was taken out in Calaveras county, on Wednesday evening, November 22d, just as the company were about quitting work for the day. He would not give any particulars in regard to where the claim is located, except that it is in the county above named. The company consists of four Americans and one Swiss. Mr. Perkins belongs to Lexington, Kentucky; and for the past two years, although he has labored hard, was not very successful, never having more than \$200 at any one time during that period. The length of this immense mass is about fifteen inches, and its width from five and one-half to six inches. As one side is extremely irregular and uneven in its formation, it is difficult to arrive at the exact thickness, but it will probably average four inches. The other side is almost flat and presents a solid mass of gold; the only quartz perceptible is on the upper or ragged side, and some pieces are so loosely imbedded in the precious metal that with the aid of a pointed instrument, they might be easily removed. The whole mass, at some period, has apparently been in a fused state.

A Philadelphia paper states that there are five hundred lawyers in that city who do no business and who have no other office but their hats. Poor devils.

Three hundred and twenty-six Revolutionary Pensioners died during the past year. The number now on the pension roll is one thousand and sixty.

The Philadelphia Bulletin gives a recapitulation of the principal fires that have occurred in this country during the year 1854, and the reported losses—total \$15,238,000.

THE SUFFERING AMONG THE POOR IN PHILADELPHIA.—The suffering among the poor in Philadelphia is very great at present, and it is feared many will die of starvation before spring. At a meeting of the Board of Managers of the Union Benevolent Association held on Wednesday evening last, a report was read, from which we make the following extract:—
"The demands upon the society at this time are unprecedented. Three hundred and twenty-seven tons of Coal were distributed during the past month, which is equal to one third of the whole distribution of last year; and this earlier in the season than it is customary for the society to commence giving out fuel! The suffering, too, is mostly among the industrial and better classes of the poor, who have been thrown out of employment by the pressure of the times, many of whom would rather starve than beg. Visitors say they find whole families of little children entirely without fire or beds to sleep upon; and sometimes without shoes or stockings to protect them from the pinching cold. One lady reports finding a family of this kind during the coldest weather of last week, who might have perished but for her timely aid."

"The Fortunes of a Day."
"Six Thousand Dollars Lost in a Gambling Room."—About a month ago it was announced that a poor mechanic residing in Cincinnati, William L. Walker, had received intelligence of the death of an uncle in Baltimore, by which he came into the possession of nine thousand dollars, all in cash. He immediately went to Baltimore, it is said, and finding that he could not get possession of the money for six months sold his claim for \$8000 cash, thus losing \$1000. The Cincinnati Gazette says:
Overjoyed at the success which had attended him, he hastened to his home. Five hundred dollars was expended the next day after his return in purchasing new furniture, &c., for his house. The old furniture was sent to Woodruff's, and disposed of at auction, the whole being sold for \$47, such was its inferior character. Walker, with his little family, rented a house on Longworth street at three hundred dollars a year, and expended quite a sum of money in having it repainted and whitewashed.
Walker feeling himself independent enough to play the gentleman, commenced frequenting the saloons and restaurants on Third street in the day time, and theatres at night. He made acquaintances speedily, and very liberally treated them to oysters and other refreshments, and in return his new friends invited him to play cards and billiards at their expense. The new sphere in which he was enjoying himself so eclipsed his better judgment, that he was soon persuaded to visit the gambling rooms. At first he won at nearly every game, and accumulated nearly \$300. Night after night he continued visiting these sinks of iniquity, one of which is located on Third street, until he had lost over six thousand dollars of the fortune he had received but a few weeks since. Walker says that when he lost four thousand dollars of the money he would have stopped, had he not expected to get the sum back again by continuing the game. He has now, however, stopped, and has sought redress in one of our courts of justice. Besides the fine furniture, clothing, &c., he purchased, he has only \$1,700 of the \$8000 left, but promises hereafter to remain at home, and not squander what is left, but resume his daily labor and attend closely to the interest and welfare of his family.

PHILADELPHIA MARKETS.
MONDAY, JAN. 1.—P. M.
The Atlantic's advices are rather favorable for Breadstuffs, but they have had little or no effect upon prices. The Flour market is quiet—a sale of 250 barrels Baltimore was made at a price not made public, and 150 barrels good brands of Pennsylvania at \$9.50 per barrel—extra ranges from \$9.75 to \$10.25, according to quality. In Rye Flour and Corn Meal no change—the former is held at \$6.50 a 67s, and the latter at \$4.25 per barrel.
GRAIN—There is very little Wheat offering, and the demand is limited. Sales of 500 bushels prime red at \$2.10 per bushel, and 200 bushels inferior white at \$1.90, both in store. Rye is wanted at \$1.25. Corn is scarce, and wanted—sales of 500 bushels new yellow at 93 cents in store, and some at a higher rate. Oats are unchanged.

These Matches are packed so that one gross or more may be shipped to any part of the World with perfect safety. They are the most desirable article for Home Consumption, and the Southern and Western Markets that have ever been invented.
