MATCHES! MATCHES!! JOHN DONNELY,

MANUFACTURER AND INVENTOR OF SAFETY PATENT SQUARE UPRIGHT

WOOD BOX MATCHES. No. 106 North FOURTH Street (above Race,) PHILADELPHIA.

MATCHES having become an indispensable article in housekeeping, the subscriber after a great sacrifice of time and money, is enabled to offer to the Public an article at once combining Utility and Cheapness. The inventor knowing the danger apprehended on account of the flimsey manner in which Matches are gencrally packed in paper, has by the aid of New Steam Machinery of his own invention, succecded in getting up a safety patent square upright wood box; this box is far preferable, inasmuch that it occupies no more room than the old round wood box, and contains at least Two Hundred per Cent more Matches, which to Shippers is considerable advantage; it is entirely new, and secure against moisture and spontaneous combustion, and dispels all danger on transportation by means of Railroad, Steamboat or any other

mode of Conveyance. These Matches are packed so that one gross or more may be Shipped to any part of the World with perfect safety. They are the most desira-ble article for Home Consumption, and the Southern and Western Markets that have ever been

DEALERS and SHIPPERS, will do well to call and examine for themselves. These Matches, are WARRANTED to be superior to anything heretofore offered to the Public. JOHN DONNELLY.
