ARMITAGE'S

Electro-Magnet Lightning Rods FTER many years' close investigation A and numerous experiments, the Pattentee sakes pleasure in informing the public that he bundance, Musiin de Lanes, Muslin de has arrived at the true principles of protecting mas arrived at the true principles of proceeding families, dwellings and property from the de-Marceline and Gro de Nap Silk for bonnet structive influence of Lightning. The calcus, Edging Lace, Ribbons, fancy and black amities that every City, Town, Village and ap black silk lace, colored Kid Gloves, Gents' Country falls victim to annually, through the ditto, Linen and Silk Handkershiefs, Black gross negligence of its inhabitants, is beyond calculation, especially when the remedy is so casy to obtain—this is found in Armitage's Patent Magnetic Lightning Rods, and in this alone. This Rod has been examined by the most scientific gentlemen in the world-Professors M'Murtrie, Johnson, Wallor and many others that have examined them, recommend and speak of them in the highest terms in regard to quality and prices, and I flat- of approbation, and have pronounced them the only safe rods in use in this or any other country, for the protection of Lives and Property .-One advantage is to divide and throw back a part of the electric fluid harmless to the clouds; n time of a stroke this enables the rod to conduct that portion of fluid that belongs to the earth without the slightest danger of leaving the conductor. This rod has many other advantages over the old one.
