### ARMITAGE'S

Electro-Magnet Lightning Rods A FTER many years' close investigation A and numerous experiments, the Pattentee sakes pleasure in informing the public that he has arrived at the true principles of protecting families, dwellings and property from the destructive influence of Lightning. The calamities that every City, Town, Village and Country falls victim to annually, through the gross negligence of its inhabitants, is beyond calculation, especially when the remedy is so casy to obtain-this is found in Armitage's Patent Magnetic Lightning Rods, and in this alone. This Rod has been examined by the most scientific gentlemen in the world-Professors M'Murtrie, Johnson, Wallor and many others, that have examined them, recommend and speak of them in the highest terms of approbation, and have pronounced them the only safe rods in use in this or any other country, for the protection of Lives and Property .est Assortment ever brought to One advantage is to divide and throw back a part of the electric fluid liarmless to the clouds; in time of a stroke this enables the rod to conduct that portion of fluid that belongs to the earth without the slightest danger of leaving the conductor. This rod has many other advantages over the old one. The only place of manufacturing is in Vine St., 3 doors above Twelfth, Philadelphia, where all persons are respectfully invited to call and examine for themselves. For sale Wholesale and Retail by
