

THE GLOBE.

HUNTINGDON, PA

Wednesday, March 28, 1855.

Circulation--the largest in the County.

We are very grateful for the liberal increase we are almost daily receiving to our list of paying subscribers. We have lately entered the names of several gentlemen who have been for years active and influential members of the Whig party, but who now, rather than be made the tools of the unscrupulous, corrupt and bigoted hypocrites managing the affairs of the once great Whig party, have come out from amongst them, and will henceforth act with the Democratic party--the only party of correct principles now in existence.

Important Foreign News.

The steamship Atlantic arrived at New York yesterday with Liverpool dates to the 10th inst.

The death of the Czar is confirmed, and the Emperor Alexander the Second ascended the throne on the 2d inst., having peacefully succeeded his father. He has issued a manifesto stating that he will adhere to the policy of his father.

The confirmation of the news of the death of Nicholas created the utmost excitement all over Europe.

Hopes were entertained at first that peace would be the consequence of Alexander's accession. But these hopes were dampened by his announcement that he would follow the course of his father.

There has been more fighting on the Crimea. The French stormed a redoubt erected by the Russians during the night, and several hundred were killed. A dispatch from Sebastopol stated that 50,000 Russians were threatening the British force at Balaklava.

A strong rumor prevailed that the Grand Duke Michael was among the wounded at Sebastopol, and has since died.

Pennsylvania Legislature.

A large number of Bank bills have passed both Houses, but it is hoped the Governor will apply the "one man power" freely. The bill to incorporate the Pottstown Bank has been vetoed, and the Bill renewing the charter of the Northampton Bank, vetoed by Gov. Bigler, has passed both Houses by a constitutional majority. The Bill repealing the law granting license to public houses, as it passed the House, is now under consideration in the Senate, and it is generally believed that it will pass that body in some shape. The Bill for the sale of the Main Line of the public improvements, comes up to-day for further consideration.

Where is the Whig Party?

The last *Huntingdon Journal* says: "The election in this borough may be safely taken as a criterion of the strength of the Know-Nothings, not only in our town, but throughout the county."

Just as we expected. All the successful candidates are claimed as Know-Nothings. Whether they are, or are not, we will not swear--as some of the successful candidates on the day of the election, perhaps only for the purpose of securing votes, openly denied being in any way connected with the secret political order. But "Sam" should know, and we freely concede the victory, over truth and honor, to the Know-Nothings.

If "the election in this borough may be safely taken as a criterion of the strength of the Know-Nothings in the county," we ask, what has become of the great Whig party?

Has "Sam," by order of the Councils, taken it under his care and keeping, that it may be more readily molded to suit the purposes of the greatest rascals that ever disgraced our country? Without waiting for an answer, we say, the Whig party has been swallowed up by the secret political order of Know-Nothings--and as many may be ignorant of the true character of that order, we copy from the *Journal*, the opinion of its editor no doubt honestly expressed, previous to the last general election. Since then, circumstances, perhaps over which the Doctor had no control, have made him acquainted with "Sam." The Doctor then said:

"Is it not but a plan for office hunters to raise themselves to posts which have long eluded their grasp? Is it not a secret association avowedly for political purposes, and therefore WORSE THAN ANY OF THE SECRET ASSOCIATIONS IN THEIR WORST DAYS?"

A Know-Nothing. Last week we were made acquainted with a *Know-Nothing* such as the mass of that party is composed of. He had not taken the papers and the only information of a political character he had received from time to time for a year past, was from office hunting Know-Nothings. He was positive that the Catholics had taken Boston and several other large cities, and that they were murdering the Protestants in every part of the country. He frequently went to bed in great fear of being butchered by the "rascally Catholics" before morning. After paying in advance for the *Globe* he went on his way, rejoicing that he was no longer the tool of unprincipled Know-Nothing office seekers.

In Huntingdon county, including the borough, the Know-Nothings made a clean sweep. *Lewistown Gazette*.

In character with Know-Nothingism. But as such falsehoods are only intended for a foreign market, it matters little how strong they are made. We publish the item that the Whigs as well as Democrats may know how Know-Nothing victories are manufactured.

Extension of the Borough Limits.

The following is a copy of the act recently passed by the legislature respecting our Borough. As it goes into effect immediately, all the territory described in the bill now belongs to the borough of Huntingdon, and all persons who have resided within the extended limits one year, will be entitled to vote for corporation officers next Monday.

A SUPPLEMENT to an act entitled, "An Act to extend the town of Huntingdon, in the county of Huntingdon, into a borough," passed March twenty-ninth, one thousand seven hundred and ninety-six.

SECTION 1. Be it enacted by the Senate and House of Representatives of the Commonwealth of Pennsylvania in General Assembly met, and it is hereby enacted by the authority of the same. That the borough of Huntingdon, in the county of Huntingdon, shall from and after the passage of this act, consist of all the territory included within the following metes and bounds, to wit: Beginning at the Juniata river where the Hickory corner between George Croghan's and William Logan's survey stood, thence by the line between said surveys to William M. Murtrie's corner; thence by his line to Standing-Stone creek; thence up the eastern side thereof, at low water mark, to a point opposite the north-eastern corner of William Orison's out-lot; thence by John Simpson's line, across said creek, by William Orison's out-lot, the Standing-stone creek road, and Hartley and Kautz's lot, to said Simpson's corner on the western line of the Smith survey; thence by the line between John M. Cahan's land, and lots of said Hartley and Kautz, George Jackson, and Daniel Africa, to Armstrong Wiloughby's corner in Annie Figart's hollow; thence up said hollow, including said Wiloughby's land to the extended eastern line of Bath street of said borough; thence down said line to the old boundary of said borough, and along the same to the centre of the Warm Springs road; thence up the centre of said road to the northern line of the Asher Clayton survey; thence by the same to where a hickory corner stood; thence by the line between the Renner farm and land of Hou George Taylor, to the said Juniata river; thence down the same, at low water mark, to the place of beginning.

SECTION 2. That said borough is hereby erected into a separate election district, and a separate district for the assessment of county rates and levies, and shall not hereafter be in any way connected with the township of Henderson in the assessment and collection of taxes.

SECTION 3. That all the laws now in force relating to the said borough of Huntingdon, and the by-laws and ordinances thereof, are hereby extended to the territory included in the limits herein before described.

SECTION 4. That all elections for said borough and district shall be held at the court house therein.

SECTION 5. That so much of the act incorporating said borough, passed the twenty-ninth day of March, Anno Domini, one thousand seven hundred and ninety-six, authorizing the election of a town clerk, is hereby repealed, and that the burgesses and town council hereafter elected, shall, at their first meeting annually, elect a competent secretary and a treasurer.

SECTION 6. That the second, third, (excepting the fourth article) fifth, sixth, seventh, eighth, ninth, tenth, eleventh, twelfth, thirteenth, seventeenth, eighteenth, nineteenth, twentieth, thirtieth, thirty-second, and thirty-fourth sections of an act regulating boroughs, approved the third day of April, Anno Domini, one thousand eight hundred and fifty-one, are hereby extended to, and be of force, in said borough of Huntingdon.

SECTION 7. That as soon as practicable after the passage of this act, the street regulators of said borough for the time being, shall make an accurate survey of the boundary lines, streets, roads, lanes, alleys, and public squares, or lands thereof, and permanently mark the same, and make a correct map of said survey, and as soon as the same shall be completed, the chief burgess shall give notice in one or more newspapers printed in said borough, that upon a certain day therein named, said draft or survey will be the subject of appeal to the council, and on said day, the council shall hear any objection that may be made to the same, and shall adjudge and determine whether any, and what, alterations shall be made therein, after which the said regulators shall make a duplicate copy of the survey, or map, or draft determined by the council as aforesaid to be correct, and the same shall be filed in the office for the recording of deeds in said county, and the other copy shall be filed and kept with the papers of said corporation, and the said maps or drafts, so filed or a copy thereof, under the hand and seal of the proper officer having charge thereof, shall be conclusive to the courses and width of the streets, roads, lanes, or alleys, boundaries, or cetera in said map or draft mentioned.

SECTION 8. That the election of School Directors held on the sixteenth of March, one thousand eight hundred and fifty-five, shall be of like effect as if the same had been held under the provisions of this act, and the board of School Directors is hereby declared to be organized with like effect as though the same had not been affected by the general School laws of this Commonwealth.

HENRY K. STRONG, Speaker of the House of Representatives. WM. M. HESTER, Speaker of the Senate.

Approved the 27th day of March A. D. one thousand eight hundred and fifty-five. JAMES POLLOCK.

TROUBLE IN THE KNOW-NOTHING CAMP. We find the following in the *Harrisburg Daily Item*, a Native American paper:--

"From the present indication of affairs the great so-called American party is greatly on the wane. The objects of the organization, at the time of its commencement, were calculated to do great good, but designing men entered its ranks and the seed sown by them is fast germinating into full fruition. Peace and harmony has given way to discord and confusion. Men who were thought to be beyond doubt honest and virtuous in their intentions when they joined the organization have turned out worse than ARNOLDS and worthy to be classed as JUDAS ISCARIOTHS. Is Gov. Pollock aware that the course he is now pursuing not only brings upon him the anathemas of his fellow men, but the wrath of God? Does he not remember the ever memorable night of the 25th of May? But, without the fear of God, no scheme is too low for a politician to resort to.

All our merchants are fixing up to give the people an agreeable surprise. They will speak for themselves in our next issue.

A WHIG Meeting.

Having quite a number of old line Whig subscribers, and hundreds of Whig readers, we will occasionally let them hear through the columns of the *Globe*, what course is being pursued by their political friends in other parts of the State. The *Journal*, of course, now that it is closely wedded to the principles (!) of Know-Nothingism, can not be expected to give any "aid and comfort" to the old liners of the once "great Whig party."

At a meeting of the independent Whigs of the city of Philadelphia, held at the Court House in that city, on Saturday the 24th inst., the following resolutions were unanimously adopted:

Resolved, That the new element of secret political organization is incompatible with manliness and fairness of political purpose--and the more so, if it be combined, as is alleged, with proscription for opinion's sake.

Resolved, That the progress of this element in the Commonwealth has corrupted the integrity of political action, by substituting responsibility to secret combination--for responsibility to public opinion and the popular will openly expressed. That it has seriously impaired the confidence between those who profess the same opinions, saps the foundation of personal and national morality, and degrades its adherents by unworthy subterfuges and evasions--and that its fruits have been the worst Municipal and State Legislation with which, for many years, we have been afflicted.

Resolved, That the conduct of the present Legislature, elected by the same secret influence, in increasing the Banking Capital of the Commonwealth, and exposing the community to the inevitable danger of an inflated paper currency, deserves, and now receives, our earnest reprobation.

Resolved, That with deep humiliation we are compelled to trace the same influence and effect in our Municipal Government, increased and increasing expenditure with accumulating debts as its first fruit--heavier taxation--a system of pecuniary jobs without restraint, and a course of personal and official conduct, as exhibited in weekly records, having the necessary effect of destroying public confidence and respect.

Resolved, That if injustice be done to the secret political organization by attributing to its ascendancy these results, there can be but one mode of disproving it; and that is by withdrawing the veil of secrecy in which their proceedings are shrouded, and vindicating the great principle of Americanism by letting the world see that Americans are not ashamed of what they are doing.

Resolved, That what we understand by Americanism such as Washington taught, and the Whig party has sought to maintain, is Fidelity to the Constitution in its letter and spirit--religious toleration in its broadest sense--welcome to the honest and industrious man that asks a home and community of right, and Protection to our Industry--the industry which works in the soil and under the laws of the Republic, and to this Americanism we are not ashamed to profess our faith.

The *Reading Gazette* in speaking of the election held in that city on Friday week last, says:

"As we generally expected, the Know-Nothings have made a clean sweep, electing all their candidates by considerable majorities. They were not victorious, however, in a fair and open fight, but resorted to the disguise of professed 'Independent' candidates, by which means they obtained almost the entire Whig vote, some Democratic votes and--marvelous to relate--not a few foreigner votes, in addition to the pure Know-Nothing support. Although a fair proportion of old-line Whigs were upon the Anti-Know-Nothing ticket, we do not believe it received in the whole city fifty WHIG votes--another evidence that the Whigs who are not Know-Nothings, are yet with them at heart, and rejoice at their success, if for no other reason, because it involves the defeat of the Democratic party."

The vote for Mayor stood: For Samuel L. Young, (Fusion) 840; William M. Baird, (Know-Nothing) 1544.

The whole vote for Mayor was 2384, being 489 more than the whole vote of last year. Mr Baird's majority is 704.
