

A new Star in the Literary Firmament.
NELLY BRACKEN,
A Domestic Tale of Forty Years Ago.
READ THE CRITICS' OPINION OF
NELLY.

"It is beyond any American book of the present day."
"The genuineness of its sentiments, its perfect purity, and truth of its characters to nature, give it a high eminence among the books of the day."
"Our readers have heard of an oasis in a desert—well, Nelly Bracken is the oasis of the dreary desert of American female literature of the present day.—*New York Courier and Inquirer.*"

"Unless we very much misjudge the value, it is destined to no mean rank among the original works of American fiction."
"It is a first effort, and is one full of promise of yet greater excellence."—*Boston Advertiser.*

The author of Nelly Bracken is with us a new, but by no means an unwelcome acquaintance. We have in our library, those more noted, but none that we should allow to crowd aside Annie Chambers Bradford, or matterless whether she be "sweet sixteen" or the shady side of five and thirty. The plot, sum and substance of this "tale of forty years ago," we have not time or space the present week to explain, and had we time even, it is best that those who have a taste for well wrought narratives should read, understand and judge for themselves. The book is handsomely printed and contains 377 pages.—*Lawrence Journal.*

A fresh and glowing picture of life in Kentucky, imbued with a feeling very winning to the reader.—*Wheatley Virginius.*
We like the preface and the book. The author's name is new to us, but she is evidently a writer of promise. The story is attractive, the style easy, graphic and graceful. There is much beauty of sentiment and expression, and that mingling of humor and pathos, like bright rainbow hues painted on tears, which is a characteristic with many of the masters of light literature.—*Frederickburg News.*

The Chambersburg and Mount Union Stage Line Revived.

The proprietor of the line is desirous that it be maintained, and he therefore earnestly calls upon the public generally to patronize it, confident that it will be for their mutual advantage. Every attention necessary will be given, and the running of the Stages will be regular.

JUNIATA ACADEMY.

THE Summer Session of this Institution, located in Shirlsberg, will commence May 1st, 1855, and continue five months.
The location being pleasant, free from the Ague and Fever of the Juniata Valley, and easy of access by a daily line of Coaches from Mt. Union, seven miles distant, on the Central R. R., is well suited as a retreat for youth leaving home for a High School. In addition to good buildings, there is provided a complete and well furnished apparatus at a cost of over \$1000. No reasonable pains will be spared to give attention to the moral and religious culture of the pupils, in order to prepare for entering our best colleges, and especially in view of practical life, the great end of education. The government will be firm, yet parental. Personal advantage, a sense of honor, and the great laws of the Bible will be appealed to rather than the teacher's authority.

The above safe was in use in our office, on the second floor of our building, from which place it fell into the cellar, and remained there until the fire was out. The safe was then removed and opened in the presence of at least one thousand persons, who witnessed the good condition of the contents.—Will you please have the Safe and Locks repaired, as we intend to put it in use again, having perfect confidence in its fire proof qualities.
Yours, Respectfully,

MATCHES! MATCHES!!

JOHN DONNELLY,
MANUFACTURER AND INVENTOR OF SAFETY PATENT SQUARE UPRIGHT WOOD BOX MATCHES.
No. 106 North FOURTH Street (above Race), PHILADELPHIA.
MATCHES having become an indispensable article in housekeeping, the subscriber after a great sacrifice of time and money, is enabled to offer to the Public an article at once combining Utility and Cheapness. The inventor knowing the danger apprehended on account of the flimsy manner in which Matches are generally packed in paper, has by the aid of New Steam Machinery of his own invention, succeeded in getting up a safety patent square upright wood box; this box is far preferable, inasmuch that it occupies no more room than the old round wood boxes, and contains at least Two Hundred per Cent more Matches, which to Shipments could be secured against moisture and spontaneous combustion, and dispels all danger on transportation by means of Railroad, Steamboat or any other mode of Conveyance.
These Matches are packed so that one gross or more may be shipped to any part of the world with perfect safety. They are the most desirable article for Home Consumption, and the Southern and Western Markets that have ever been invented.
DEALERS and SHIPPERS, will do well to call and examine for themselves. We warrant to be superior to anything heretofore offered to the Public.

ARMITAGE'S

Electro-Magnet Lightning Rods
AFTER many years' close investigation and numerous experiments, the Patented sakes pleasure in informing the public that he has arrived at the true principles of protecting families dwellings and property from the destructive influence of Lightning. The calamities that every City, Town, Village and Country falls victim to annually, through the gross negligence of its inhabitants, is beyond calculation, especially when the remedy is so easy to obtain—this is found in Armitage's Patent Magnetic Lightning Rods, and in this alone. This Rod has been examined by the most scientific gentlemen in the world—Professors McMurtrie, Johnson, Waller and many others that have examined them, recommend and speak of them in the highest terms of approbation, and have pronounced them the only safe rods in use in this or any other country, for the protection of Lives and Property.—One advantage is to divide and throw back a part of the electric fluid harmless to the clouds; in line of a stroke this enables the rod to conduct that portion of fluid that belongs to the earth without the slightest danger of leaving the conductor. This rod has many other advantages over the old one. The only place of manufacturing is in Vine St., 3 doors above Treble's, Philadelphia, where all persons are respectfully invited to call and examine for themselves. For sale Wholesale and Retail by
