A Domestic Tale of Forty Years Ago. READ THE CRITICS' OPINION OF NELLY.:

"It is beyond any American book of the present day. "The genuineness of its sentiments, its perfeet purity, and truth of its characters to nature, give it a high eminence among the books

of the day. "Our readers have heard of an oasis in a desert-well, Nelly Bracken is the oasis of the dreary desert of American female literature of the present day .- New York Courier and In.

"Unless we very much misjudge the value, it is destined to no mean rank among the original works of American fiction."

"It is a first effort, and is one full of promise of yet greater excellence."—Boston Atlas. The authoress of Nelly Bracken is with us a new, but by no means an unwelcome acquaintance. We have in our library, those more noted, but none that we should allow to crowd aside Annie Chambers Bradford, it matters little whether she be "sweet sixteen" or the shady side of five and thirty. The plot, sum and substance of this "tale of forty years ago," we have not time or space the present week to explain, and had we time even, it is best that those who have a taste for well wrought narratives should read, understand and judge for themselves. The book is handsomely printed and contains 377 pages .- Lawrence Journal.

A fresh and glowing picture of life in Kentucky, imbued with a feeling very winning to the reader .- Winchester Virginian. We like the preface and the book. thor's name is new to us, but she is evidently a writer of promise. Tho story is attractive, the

style easy, graphic and graceful. There is much beauty of sentiment and expression, and that mingling of humor and pathos, like bright rainbow hues painted on tears, which is a characteristic with many of the masters of light literature.-Fredericksburg News. Published by LIPPINCOTT, GRAMBO & CO.,

Electro-Magnet Lightning Rods FTER many years' close investigation and numerous experiments, the Pattentee sakes pleasure in informing the public that he has arrived at the true principles of protecting families, dwellings and property frem the destructive influence of Lightning. The cal-amities that every City, Town, Village and Country falls victim to annually, through the gross negligence of its inhabitants, is beyond calculation, especially when the remedy is so easy to obtain—this is found in Armitage's Patent Magnetic Lightning Rods, and in this alone. This Rod has been examined by the most scientific gentlemen in the world-Professors M'Murtrie, Johnson, Wallor and many others that have examined them, recommend and speak of them in the highest terms of approbation, and have pronounced them the only safe rods in use in this or any other country, for the protection of Lives and Property .--One advantage is to divide and throw back n part of the electric fluid harmless to the clouds; in time of a stroke this enables the rod to conduct that portion of fluid that belongs to the carth without the slightest danger of leaving rangements with a good workman, all repairs the conductor. This rod has many other adwill be done in a neat and durable manner, and | vantages over the old one.
