

Democratic State Nomination:

FOR CANAL COMMISSIONER

ARNOLD PLUMER, OF VENANGO CO.

Meeting of the Democratic County Committee.

At a meeting of the Democratic Committee of Huntingdon county on Saturday the 14th day of July, A. D. 1855, it was

Resolved—1st.—That moving on in her orb as of old, the Democratic party is still true to her ancient faith; and that she repudiates all the modern political heresies of the day, and especially the selfish, proscription, and intolerant heresy commonly known as "Know-Nothingism," as anti-republican, dishonest, and at war with American institutions it falsely pretends to uphold.

2d.—That all citizens of whatever political attachments heretofore, who love their country, and would save her from the domination of unscrupulous demagogism, and the most ruinous political charlatanism, a foretaste of which we have been furnished with in our last legislature, should unite in burying past honest differences and checking the schemes and success of these self-constituted dictators of the people—the masses of whom are the deceived dupes of the leaders, who are for the most part, the rotten refuse, and cast off excrements of the two old political parties.

3d.—That the Democratic citizens of the various boroughs and townships in Huntingdon county, are requested to meet at their usual places in said boroughs and townships, on Saturday the 11th day of August, and elect two delegates to represent them in a general County Convention to be held in the borough of Huntingdon on Wednesday the 15th day of August next, to place in nomination a county ticket to be supported at the ensuing election; and elect a Representative Delegate to the next 4th of March State Convention, &c., and that in order to avoid treachery, that they be recommended to require a pledge of their delegates, that they are not members of the secret political order, generally known as "Know Nothings," and that they repudiate the political principle of said order—and that they also require a like pledge of voters at said delegate elections.

THOS. P. CAMPBELL, Chairman. SAM'L T. BROWN, Secretary.

SEE NEW ADVERTISEMENTS.—Valuable Broad Top Land for sale. To Iron Masters and Dealers. General Agency and Commission Business. J. Weichselbaum, Optician and Oculist, will be in town during Court weeks.

We are requested by the agent for Godrich's History, noticed on the 11th ult., to state that the numbers of books to supply those who have already subscribed, has arrived and will be delivered during the week. A very large number of subscribers have been obtained for this valuable work in the townships already canvassed, which make it necessary that they should be supplied before other parts are visited. The Book is a valuable one and cannot fail to meet with a large sale wherever it is offered.

Has our County Superintendent Violated the Law?

Webster's Dictionary is the only acknowledged standard in this country; and we are credibly informed that, if there is a standard in England it is Webster. It is considered the most complete, accurate and useful Dictionary by Bancroft, Prescott, Horace Mann, Cass, Benton, Clay, Daniel Webster, Winthrop, Sparks, Thos. Dick, Brougham; and a host of others in the literary galaxy with over one hundred members of Congress have endorsed the same opinion. If we wish our language to rise in beauty and harmony above the mixed and mongrel dialects of foreigners as well as the vulgar provincialisms of our land, "There is no point to which the guardians of our schools should be directed with more watchful or earnest attention, than to the training of all the pupils to a competent and correct acquaintance with our mother tongue." Our language is now the most extensively spoken of any on the face of the earth. It is not only spoken but studied, and admired far to the east of the Ganges, and far to the west of the Mississippi. It is destined to become the universal language, not only on account of the vast amount of books, periodicals, tracts, and newspapers sent abroad among the nations, but on account of the persevering industry of the Christian Missionary. Every hour of the day as the morning sun in its onward course lights up new regions, the voice of the Missionary teacher is raised to heaven in prayer, for the light of knowledge to beam upon the bowed condition of the heathen.

Let our language, then, be studied in its purity. The decision has already been made, and the highest degree of excellence conferred upon Webster. "The scepter which the great Lexicographer wields has been most worthily won." It is the Herculean achievement of sixty years hard toil. Again and again he crossed the Atlantic, studied in Scotland and England, bidding the universities of Oxford, Edinburgh, and Cambridge to pay tribute to his literary enterprise.

We find in the American an advertisement of a Dictionary by a Mr. Worcester: we also find an editorial recommending the work and condemning Webster. If our County Superintendent is responsible for this attack upon Webster and puff of the other, we regret it, not only on account of it being an official infringement, on a well established standard, but because it is a direct violation of the very law which creates the office of County Superintendent.

Next week we shall consider the merits of Worcester the pretender.

"A Little More Grape, Captain Bragg." It is evident from the article under the caption "The Street Regulators Again" in the last American that the writer thereof is in an uneasy position. He handles the subject of controversy and would convey to the public mind the idea that he had delved the facts of the case, exposed and fairly commented on the same. His article is little else than a cunningly devised fable, misrepresenting the facts, and calculated to produce in the reader a wrong impression of the transaction. We proceed to examine his blustering.

He says the Globe has been in "great tribulation, for weeks past, on account of a matter of but small concern to its readers."—Ever since the advent of Know-Nothingism we have strenuously opposed its spread and condemned its unholy principles, as our readers will attest; a majority of whom endorse our position. We have read and published instances of its proscription which occurred throughout the country; now, we have an example at home which fully illustrates that particular principle of the sect. This principle and its illustrative example is interesting to the readers of the Globe, because it occurs at home, where each can, for himself, examine the facts. Probably if the allegation of tribulation was made toward the writer of the American, the end of truth would be better served. A careful examination of the whole of the article in question would lead to such a conviction.

The writer says "Mr. BLACK did not want the appointment" and Mr. MILLER has all his time otherwise taken up. "This being the case, at the next meeting the vote on said resolution was duly re-considered, and an election was gone into which resulted in the choice of JAMES STEEL, Esq., P. C. SWOOP and J. F. RAMEY." Who prevaricates now? Neither Mr. BLACK nor Mr. MILLER declined serving as Regulators. The former expressed an indifference as to whether he was re-elected or not for reason of the meagre wages—one dollar per day—and who would not in these days of high prices? Either of the gentlemen, however, would, had they been called on, discharged the duties of the office.—In the Journal of the proceedings of the Burgessess and Town Council, the following is recorded:

Huntingdon, May 8th, 1855.

Burgessess and Town Council elect met pursuant to notice, at the office of Daniel Africa, Esq.; Burgessess, Town Council and Supervisors sworn, &c.

On motion, William I. Steel was nominated for Secretary. Nomination for Secretary closed. Elected by acclamation.

J. S. Africa nominated Jacob Miller for Treasurer. Nomination for Treasurer closed. Elected by acclamation.

On motion proceeded to an election of Street Regulators. Alexander Port, Esq., nominated Jacob Miller, David Black and J. S. Africa as Street Regulators. Elected by acclamation.

[Then follows other business not having any bearing on our subject.]

Signed, WILLIAM I. STEEL, Sec'y.

Huntingdon, May 25th, 1855.

[After other matters the following appears:]

On motion of A. Port, Esq., seconded by Peter Marks, the appointment of Regulators made at the last meeting was unanimously reconsidered. [Mr. Africa not present.]

Signed, WILLIAM I. STEEL, Sec'y.

Huntingdon, June 7th, 1855.

The Burgessess and Town Council met at the office of Daniel Africa, Esq. Present: Theo. H. Cremer, Chief Burgess; Alex. Port, Esq., Assistant Burgess; Councilmen, John A. Nash, R. A. Miller, Wm. Hoffman, Peter N. Marks and Wm. Williams. The meeting being called to order, Theo. H. Cremer, Chairman.

On motion the following persons were nominated for Street Regulators: PETER C. SWOOP, JAMES STEEL, Esq., J. F. RAMEY, J. SIMPSON AFRICA, and DANIEL AFRICA, Esq.

PETER C. SWOOP, J. F. RAMEY and JAMES STEEL, Esq., having the highest number of votes were declared elected.

Signed, WILLIAM I. STEEL, Sec'y.

Thus the record stands, which every citizen has a right to, and can examine if he desires. Now prithe Mr. writer where is that "resolution" on which you built your hopes. We have searched the minutes of the Board in vain for it and concluded that it was only a chimera of your excited brain. In pursuance of the ordinance passed 10th Nov. 1850, an extract from which was published in our issue of the 4th ultimo, the present board of Borough Fathers, on the 8th of May last, as will appear from the minutes published above, elected JACOB MILLER, DAVID BLACK and J. SIMPSON AFRICA, Regulators. They were duly, LEGALLY elected in the presence of the last named which would be sufficient notice to him. The others were informed of their election by members of the board. "Such are the PLAIN and simple facts of the case" as appear by the Journal.

We are further enlightened: "And now for the Globe's fabrications:" it is asserted "that the above action was prompted by a 'proscriptive spirit.' The plain unvarnished 'fact negative this idea.' Have you any sense of truth? You know sir, when penning those sentences that you were falsifying.—When the election of Regulators, May 8th, became generally known, several gentlemen, members of the Know Nothing Order denounced the action of the "Fathers" as condemnable, and alleged that they had violated their obligations in electing persons who were not members of the Order. This announcement coming from persons of high authority in the party produced in some of the members of Borough Council not a little trepidation. Among, and one of this num-

ber was John A. Nash, the ostensible editor of the American. He stated to another member of the board, that this matter (the election of Messrs MILLER, BLACK and AFRICA,) had been discussed and objected to, by the members of the Order, and that certain gentlemen whom we can name, if necessary, had made objections, and that three were made to bring a charge against the Burgessess and Town Council in the "Order" unless that election of Regulators was revoked; that he John A. Nash, was afraid that, that would be done, and might give them trouble and urged this member to vote for the reconsideration of the election. In fear of such charge the reconsideration of May 25th was had, for it was distinctly stated in the Council room by a member of the board (whose name we can give when necessary) that the objections to the Regulators they had elected were that they were not members of the Order. This was talked about, was understood by every member present, and we assert was the reason why the reconsideration was had. This statement, Mr. writer, you can not, and in the face of truth you dare not deny. If this is not proscription we know not what else to term it, and we pronounce you guilty of wilful premeditated falsehood.

"The appointment of JACOB MILLER, Esq., Treasurer is another evidence of the falsity of the Globe charge." Mr. MILLER although an excellent man in any station has all his time taken up in the service of the "Broad Top Company as its Treasurer and "Secretary." Then if his time is too much occupied to serve as regulator why burden him with the office of Treasurer of the borough of Huntingdon? Because his election on May 8th was legal and as he can be removed for misconduct only his election could not be revoked.

To excuse the board for the removal of the third Regulator, Mr. Africa, the American's writer produces the same argument used in a former article on the same subject, that it is incompatible for a member of the Council to serve as Regulator. This we exploded two weeks ago. His legal objection is contrary to the custom for half a century. In 1807, JOHN BLAIR, Esq.—one of the Assistant Burgessess—occupying the same position—was elected a Regulator. In 1808, ANDREW HENDERSON, Esq., Assistant Burgess and JOHN McCABE, a Councilman, were elected; in 1810, the latter named, still a Councilman, was elected; so also in 1811, 1815 and 1816. WILLIAM STEEL, Esq., who was an Assistant Burgess for 1824, '25 and '26, was elected and served as Regulator during the same years. HENRY MILLER, Chief Burgess in 1825 served in the same office. We could cite instances of the kind down to the present time but our space does not allow it nor the effectual refutation of the sagacious writer's objection demand it. If any one has doubts he can have them allayed by an examination of the record which does not lie.

The remaining part of the article in the American is foreign to the question and it is not necessary that we should answer it.—It consists of a cowardly insinuation against citizens of this borough.—Now readers of the Globe we have given a fair, unrefutable statement of this case, and may we ask what motive prompted this action?—Facts and an unprejudiced public answer: The proscription of the Know Nothing Order. In this petty transaction, which is dishonorable to the parties concerned, is a fair sample of the proscription of a party which, if it could gain a permanent ascendancy in our country, would prevent the election to offices of any, except such as are sworn to lie and act dissembler. True the Know Nothing party contains many honest and intelligent men for whom we have a high regard, but we are sorry to see them become the dupes and follow in the wake of corrupt and designing political tricksters.

From the Chicago Times. Cruelty of Abolitionism.

A Mr. Henry, of Virginia, arrived in Pittsburgh with a number of negroes, on his way to Ohio, where he proposed to purchase them homes, and put them in a way to support themselves comfortably. While in Pittsburgh the poor negroes were induced by the abolitionists to believe that Mr. Henry had an intention to keep them as slaves, and they not only abandoned him, but have become scattered over the northern parts of Pennsylvania and Ohio. Mr. Henry made no effort to recapture them, as an arduous task, imposed on him by the will of a deceased friend, who ordered that upon his death his slaves be taken to Ohio, be there manumitted, and each of them provided with a good comfortable home, to be paid for out of his estate.—By the laws of Virginia slaves cannot be manumitted and remain in that State, and it was while these poor Africans were on their way to receive the bounties of their deceased master the abolitionists stepped in and defeated all the kindness. The abolition press and clergy are exulting over the successful "robbery of the slaveholder." Alas! it was the negroes, and not the Virginian, who had been robbed. The estate retains the price which would have been paid for their farms and habitations, and the negroes are turned loose upon the world, with no hand to aid or encourage them. Experience has shown that an escaped slave, or a suffering, starving, perishing negro, can hope for but little actual help from the abolitionists. They will help to steal him from his master, and that done will let him perish by the road-side for want of bread. For all the suffering and want to which these poor Africans may be subjected the sentimental liberty-mongers, and cracked-brained zealots who deal out condemnation to all who would not make war upon the South, will be held responsible before a just God. This case is a very fair example of the real charity abolitionism is capable of dispensing.

Great Excitement. The Huntingdon and Broad Top Road was opened, in part, on Monday last. At three o'clock the locomotive "Beaver," purchased by the company, arrived, and was immediately placed upon this great improvement, and with tender crowded with men and boys, passed over the completed part of the road, some eight miles. In the evening at six, two trucks, having been fitted up with seats for the occasion, and crowded with some two hundred of the people, were attached to the "Beaver," and an excursion trip was made, pleasant to all concerned, and we suppose equally so to those who were lookers on. When "the good times come," come, we expect to have a jolly ride in "the wagon."

The Whigs of Blair county are kicking out of the Know-Nothing traces by hundreds. Last week the County Convention, held by order of the Whig County Committee, exploded, the delegates opposed to the dark lantern party withdrawing. They, the straight-outs, have ordered another Convention to be held on the 28th inst., when the dark lantern gentry 'can't come in.'

The straight-out Whigs of this county are not as fortunate as they are in Blair—there they have an organ,—here they have none. Gabe, would-be, their organ-grinder, but he is not yet in their ranks—he is a Know-Nothing and an illegal voter at that. Such a case, the Whigs who have any respect for themselves, would rather should remain with his fellows in the dark lantern party.

The County Agricultural Fair. A list of premiums to be awarded at our first Agricultural Fair, will be found in another column. Now let every enterprising farmer, mechanic, &c., go to work with a determination to contribute something toward making the display a credit to the county.

Mr. Lewis asserts we are again a candidate for the institution.—Gabe, Jr.

The institution at the foot of the hill—the jail? Yes, that's so—and if you are not elected it will be because you have published a false record from the bible! Its rather an unpleasant fix you have got yourself into, aint it, Gabey?

"That miserable humbug Bowlegs," is playing the very devil with Gabe's calculations,—aint he, Gabey? You have battled long, and faithfully, against locofocoism, have you? You didn't vote for MORT, the locofoco nominee for Canal Commissioner, did you, Gabey?

PUBLIC SALE OF BROAD TOP COAL LANDS.

The undersigned will sell at the Court House in Huntingdon, on the 15th day of August next, the undivided two-thirds of 438 Acres of Semi-Anthracite Coal Land, bounded on the north by lands bought (of Isaac Cook, Esq.) by the Huntingdon and Broad Top Railroad Company, on which a valuable vein of coal is now opened—on the south and west by lands of John McCannell & Co., who have opened coal at several points immediately on the south of the tract offered for sale, (which tract is underlaid by the principal coal seams of the Broad Top Coal region.)

The lands mentioned are located in a depression of the great dome of Broad Top, where will terminate the Shoups run branch of the Huntingdon and Broad Top Railroad—where converge the public roads from Trough Creek Valley, Wells Valley, Stonerstown, and Hopewell, and destined to become the centre of mining operations on Broad Top—to accommodate which John McCannell & Co. are preparing to lay out a Town on their lands adjoining the tract now offered for sale. The whole of this tract is susceptible of cultivation, part of it is heavily timbered with chestnut and pine. To a mining company this tract affords great facilities; accessible at present from the Huntingdon and Broad Top Railroad, and must ere long be tapped on the east by the Drakes Ferry and Broad Top Railway, shortening the distance to the seaboard at least 20 miles.

Persons desirous of examining this tract will call on Jesse Cook, Esq., on Broad Top, or make inquiry of J. P. Leslie, Geologist. Terms, one-third in cash, balance in one year. JAMES J. McELIENNY, JOHN DOUGHERTY. July 31, 1855.
