

Democratic State Nomination: FOR CANAL COMMISSIONER ARNOLD PLUMER, OF VENANGO CO.

Meeting of the Democratic County Committee.

At a meeting of the Democratic Committee of Huntingdon county on Saturday the 14th day of July, A. D. 1855, it was

Resolved—1st—That moving on in her orb as of old, the Democratic party is still true to her ancient faith; and that she repudiates all the modern political heresies of the day, and especially the selfish, proscriptive, and intolerant heresy commonly known as "Know-Nothingism," as anti-republican, dishonest, and at war with American institutions it falsely pretends to uphold.

2d—That all citizens of whatever political attachments heretofore, who love their country, and would save her from the domination of unscrupulous demagogism, and the most ruinous political charlatanism, a forecast of which we have been furnished with in our last legislature, should unite in burying past honest differences and checking the schemes and success of these self-constituted dictators of the people—the masses of whom are the deceived dupes of the leaders, who are for the most part, the rotten refuse, and cast off excrements of the two old political parties.

3d—That the Democratic citizens of the various boroughs and townships in Huntingdon county, are requested to meet at their usual places in said boroughs and townships, on Saturday the 11th day of August, and elect two delegates to represent them in a general County Convention to be held in the borough of Huntingdon on Wednesday the 15th day of August next, to place in nomination a county ticket to be supported at the ensuing election; and elect a Representative Delegate to the next State Convention, &c.; and that in order to avoid treachery, that they be recommended to require a pledge of their delegates, that they are not members of the secret political order, generally known as "Know Nothings," and that they repudiate the political principle of said order—and that they also require a like pledge of voters at said delegate elections.

THOS. P. CAMPBELL, Chairman. SAM'L T. BROWN, Secretary.

Democratic Delegate Elections.

Our Democratic friends in every election district in the county, should not forget that Saturday next is the day on which it is expected they will generally turn out and select the right kind of men to represent the Democracy in the County Convention to be held in this place on Wednesday next.

Our Friends

Should remember that Court weeks are generally considered the printer's harvest—but very frequently the crop he gathers at such times falls far short of his expectations—a panic follows, and if he can avoid being forced, by the board, he is a lucky fellow.—We have no fears of being forced by the board, as our friends (with very few exceptions) are always at hand when we need their assistance. Reader, if you are in arrears, may we expect to see, or hear from you next week? The approaching campaign promises to be rather an exciting one, and we want those who approve of our 'platform,' to call and give us evidence of their approval. We have many readers who approve of our course, but they are not subscribers. Such can certainly afford to subscribe for the GLOBE for three or six months. For three months, 50 cents; for six months, 75 cents. Will each of our subscribers send or bring along a name? Some we know will.

A Passenger Train on the Broad Top Road.

By reference to an advertisement in another column, the reader will learn that on and after Monday next, a passenger train will leave this place every day in the morning and afternoon for Marklesburg and intermediate points, connecting with a daily stage line to Stonerstown, Hopewell and Broad Top Mountain. This arrangement will be a great accommodation to hundreds of persons visiting the great coal region, and to the people generally in the neighborhood of the road. The cars will run to other stations beyond Marklesburg as soon as the road is finished to such points. Freight will also be received and delivered at any of the stations on the completed part of the road. Who will be the first to send us a bushel of potatoes, a gill of grain or a barrel of flour, by the Huntingdon and Broad Top Rail Road?

No Sale of the Main Line.

On Tuesday evening the 24th ult., the Main Line of our public improvement were offered for sale at the Exchange, Philadelphia. There were no bids offered, and the sale was indefinitely postponed.

"SAG NIGHTS IN HUNTINGDON."—Under this head, the American of last week announced to its readers that a council of "Sag Nights" had been established in this place on the Saturday night previous. They assembled (says the American,) in a stable on Washington street, at 12 o'clock, midnight, a friend of the editors looked through a crack and there beheld them, with a dark lantern, a stranger acting as Grand Master, initiating some of the faithful.

Its pity the facts connected with the watching of the "Sag Nights" that night, should so soon spoil the story of the editors of the American. Our stable is on Washington street, and at midnight we were waked up and informed that somebody was trying to get into our hen-house. Fortunately we got out in time to save our Shanghaies. Since then we keep them under lock and key.—Now we would advise the editors of the American, and their friend, the next time they or either of them go out "Sag Night" hunting, not to select the stable where they know is kept a fine flock of plump chickens, as the place where they expect to find a "Sag Night's" meeting. Sneaking about such a place, at midnight, might create a suspicion that darkies are not the only ones that will disturb a hen-roost. But any excuse is better than none, when a "friend" is disturbed in the act of looking through a crack—the Shanghaies plump and fat—a little beyond his reach.

The Crops.

The weather, as every body knows, has continued very unsettled during two weeks past. Indeed there has been such a spell of weather, with slight variations, as has seldom if ever visited our country. The farmers look cross—feel cross—their heavy crops of wheat, rye and hay, have been considerably damaged—but their corn and potatoes,—whoever heard of such appearances? The general yield of the wheat crop is so abundant, and so far exceeding that of previous years, that the loss sustained can as a general thing, be well spared. The losses may be great, but still there will be a plenty for man and beast and every living thing. Be thankful.

That miserable humbug, Bowlegs, has endeavored to cast opprobrium upon us, to make Whigs dissatisfied with their ever faithful organ.—Gabe, editor of the Journal.

The ever faithful Whig organ! the Journal! That's rich—deducedly rich. And we have endeavored to cast opprobrium upon you, Gabe, to make Whigs dissatisfied with their ever faithful organ! What balderdash! Why Gabe, do you think the Whigs can't see to read the Journal without the aid of your dark lantern? They have read in the Journal that you voted last fall for the first time—and that vote was the Know Nothing ticket from the highest State officer down to county auditor. They have since read in the Journal a record from your family Bible that you voted illegally—that you had no lawful right to vote until the 19th of June last. Is it any wonder then that the Whigs who are not Know Nothings, should declare unanimously in favor of kicking the Journal and such an editor overboard.

"PAP" TAYLOR ON KNOW NOTHINGISM.—The editor of the Cincinnati Times, "Pap" Taylor, is one of the leading Know Nothings in the West, and was the Know Nothing candidate for Mayor last winter. His paper has always been considered the leading organ of the secret party. Testimony from that quarter, as to Know Nothingism, ought therefore to be considered worth something. "Pap" Taylor is now out for a "reorganization," and calls for an independent and popular action, for the following reasons:

"This independent popular action must be had, in order to clear the wreck of the 'Order' from the trickery and treachery that now hampers its action by the regular forms of procedure, and retrieve us from the underhand machinations of those persons in whom the American party has confided, but who have betrayed it. Drop Council action for the present, where the ropes and wires are all cunningly laid, which are to bind your limbs and strangle your life out whenever the first effort is made to relieve yourselves;—be assured, those who have already tricked that they might fetter your motion, are prepared to keep you quiet, if you remain under the old routine."

Ah ha? Has "Pap" Taylor found the "machinery of the Order," binding his limbs and strangling his life out. This was exactly the experience of Halderman, of the Louisville Courier. Thus, one after another, are the presses of the country breaking loose from the thralldom which seeks to fetter and control their free opinions; and every one that escapes can hardly find language sufficiently strong to express their abhorrence of secret oath-bound political parties. We never expect to hear of any complaints of the kind from Gabe of the Journal, or from the "Professor" of the American, as they feel perfectly at home under the iron rule of the Order.

We beg the Globe to "tell the truth and shame the devil."—American.

As the devil is the father of lies, we are making an effort to reach his feelings by first shaming his imps. As soon as they feel a little more so, we shall attack the old chap himself, and fetch him and his 'dark lantern party' off a log all standing.

Proceedings of Town Council.

We invite the attention of our citizens to the proceedings of Town Council in another column.

The Harmony of the Whigs and Know-Nothings in Ohio.

Some three or four weeks since what was then said to be a Whig State Convention, was held in Ohio, Salmon P. Chase, the rankest Abolition in the State was nominated for Governor. Other Abolitionists were also nominated for State offices. The truth is, the Abolitionists are now the leaders of the dark lantern party in every State in the Union, and as has been the case in Ohio, so will it be in every State where Know-Nothingism controls a state Convention. But the old line whigs are beginning to open their eyes to these facts, and already they are rallying in opposition to Abolition and Know Nothingism in Ohio, as will be seen by the following from the Phila. Daily Argus:

"The fact is every day becoming apparent that the Whigs are not all traded off to the Free Soilers but that a portion of them, in some of the States mean to resist the Abolitionizing process, which seems the present great purpose of Know Nothingism. This is the case in Ohio. They have held meetings in several counties; indignantly denounced the trading operation; boldly portrayed the so-called 'Republicans'; and resolved to keep the old Whig banner flying. One of these rallies took place in Ross county. It was a large and enthusiastic gathering. Thomas C. Jones, in a most eloquent and impressive speech," portrayed the inconsistency of such Whigs as supported Mr. Chase. General John L. Taylor, member of Congress—a Whig account says—"addressed the meeting in a speech of pith and moment, embracing a great variety of subjects. He vindicated the national Whig party from its open opposers and insidious enemies; he showed that the present 'fusion' movement (so called in Ohio and other non-slave holding States), had its origin in Washington, in the nursing of the most rabid disunionists in the country. The resolutions passed contain severe and just condemnation of the present truly disgraceful fusion movement.—These Whigs resolve as follows:

"We will not, at the bidding of a set of desperate factionists, ignore every principle which distinguishes the Whigs as a national and state party, and join in a hue and cry with hangers of every political stripe, with only the pitiful game before us, that some of them may be run into office."

Another resolution denounced Salmon P. Chase and the Convention that nominated him; and among other things specified, "for the pernicious nullification principles foreshadowed in the platform of the Convention which nominated him and in Mr. Chase's response, striking at the legislation and judiciary of the general government within their constitutional limits."

These Whigs are in earnest in their opposition to the works of a "set of desperate factionists." This is one of their resolutions: Resolved, That our Whig fellow citizens throughout the State be and they are requested to hold meetings and rally in a party capacity preparatory to a State Convention on or about the 1st proximo, appoint central committees and committees of correspondence, and bestir themselves generally and particularly in view of the pending State and Presidential elections, as becomes a party of principle numbering nearly 160,000 voters at the latest trial of strength.

It remains to be seen what the Whigs of Pennsylvania will do. We commend to their notice the doings of their Ohio brethren against the "most rabid disunionists in the country," against a set of "desperate factionists," against their foul conspiracies; against the peace of the country."

Proceedings of the Burgess and Town Council.

The Burgess and Town Council met at the Court House. Present, Theo. H. Cremer, Chief Burgess; J. Simpson Africa and Alexander Port, Esqs., Assistant Burgesses; Peter N. Marks, John A. Nash, R. A. Miller and Wm. I. Steel Councilmen. The meeting being called to order. Theo. H. Cremer, Chairman. Mr. Cremer presented the following:

ORDINANCE, directing the manner in which notice may be given to the owners, or occupiers of town lots in the borough of Huntingdon, which required to make, or pave sidewalks or footways in said borough, and for other purposes. Passed August 2nd 1855. SECTION 1. Be it enacted by the Burgess and Town Council of the Borough of Huntingdon, and it is hereby enacted by the authority of the same, That whenever the owners or occupiers of any lots within said borough, are required to make or pave side or footways by any ordinance of said borough, or otherwise fifteen days personal notice shall be given to the owners thereof, if residing in said borough, or to the occupants thereof if the owners reside out of said borough, and in case such lots are not occupied, and the owners thereof reside out of, and have no known Agent in said borough, then written or printed notices put up at some conspicuous places on said lots or premises for thirty days shall be sufficient notice to owners thereof.

Sec. 2. That the Street Regulators be authorized to purchase for the use, and at the expense of said borough, such instruments as may be necessary for regulating the streets, alleys, and lots, and for grading the footways in said borough.

Sec. 3. That it shall be the duty of the Supervisor receiving the highest number of votes at his election, to examine all the sidewalks or footways and the gutters adjoining the same, in all the occupied streets of said borough, on the first Monday of every month, and in case any of said sidewalks, footways, or gutters shall be found unfinished or out of repair, he shall give notice to the owners, resident or occupiers of any lots adjoining the sidewalks, footways or gutters, so unfinished or out of repair, to complete or repair the same as the case may be; and if the owner, resident or occupier of such lot shall not within ten days after being so notified, complete and repair the same, the Supervisor shall complete or repair the same, and the expense thereof shall be paid by such owner, resident

or occupier, on conviction before any one of the Burgesses; and in case any gutters shall be found obstructed so as not to conduct the water properly, or foul, so as to annoy the citizens or endanger the health of the community, like notice shall be given, and if the owners thereof shall not open or clean the same within twenty-four hours, the supervisor shall do the same, and the expense thereof shall be paid by the said owner or occupiers of said lots on conviction thereof as aforesaid, besides one dollar fines and the costs.

Sec. 4. That from and after the first Monday of August, 1855, the compensation of the Treasurer of the borough of Huntingdon, shall not exceed the sum of thirty dollars per annum.

The vote being taken on the main question was as follows: Yeas, P. N. Marks, John A. Nash, Alex. Port, Theo. H. Cremer. Nays, R. A. Miller, J. Simpson Africa, Wm. I. Steel.

On motion of J. Simpson Africa, Resolved, That there be a Committee of three appointed to ascertain the outstanding debts, and the probable expenses of the borough, for the current year, and report the same to the board at the next stated meeting. Committee, Alex. Port, P. N. Marks, Wm. Williams.

A communication from P. C. Ellmaker, in regard to the Phoenix Engine of this borough was received and read, and the Sect. authorized to communicate with the gentleman, and inform him that the present board of officers, who have acted as such for a short time, are informed by their predecessors in office, that said Engine was not as good as represented to be, for which reason they refuse to pay the balance of \$20, and that under these circumstances, the present board do not feel justified in paying the same.

On motion adjourned. Attest, Wm. I. Steel, Secretary.

Doctors will Differ. Gabe says "the Whig Party is strong enough in the county, to elect a ticket over all opposition."

The American says, the Know Nothing party "comprises the very best men of the old Whig party—which is now completely extinct."

We shall wait the action of the Whig Convention which is to meet here next week, before we say how much truth there is in the assertion of either.

Henry Clay on Fusion.

The following is an extract from a speech delivered by Henry Clay, in the house of representatives of Kentucky, November 19, 1850, and now applicable to know-nothingism:

"But if it (the whig party) is to be merged into a contemptible abolition party and abolitionism is to be engrained upon the whig creed, from that moment I renounce the party and cease to be a whig. I go yet a step further: If I am alive, I will give my humble support to that man for the presidency who, to whatever party he may belong, is not contaminated by fanaticism, rather, than to one who, crying out all the time that he is a whig, maintains doctrines utterly subversive of the constitution and the Union."
