A Tan Yard in Alexandria for sale or rent. Two valuable Farms in Franklin township for sale.

The first exhibition of the Huntingdon County Agricultural Society commenced in this borough on last Wednesday, and closed on Friday evening.

The number of articles exhibited was large, beyond expectation, and the display much finer than was anticipated.

A band of music was in attendance. In the ring prepared, the lovers of horses displayed the good qualities of their "bloods" and their own graces in riding and driving.

There were no swine exhibited. Among the neat cattle we observed several young bulls, Durham and Devonshire cows and heifers, and a pair of monster steers owned by Gen. John McComb of Union township.

We saw on the mechanical department, several very handsome buggies from the shop of Owen Boat of this borough, and Alex. De Armit of Hollidaysburg; a number of farmer's implements manufactured by S. B. Haines, Lewistown, J. N. Ball, Huntingdon, W. & G. W. Walker, & Peter Tippery, Shafersville, N. Watkins, and I. Grafius, Alexandria, and Wm. Loutitt & Co., Mill Creek.

Fruit was abundant and of the finest varieties. Among the apples we noticed the Smokehouse, Greyhouse, Sweet Bell-flower, Sweet Pippin, Esopus Spitzenberg, Winter Greening, Ballock Pippin, Lady Paradise, Lady's Choice, Red Streak, Tulpehoeken, Red Doctor, English Russet, Hooper, Cart-house, Pound, Black, Penock, Rambo, White Sweet, Lady's Sweet, &c.

The vegetables were comprised of cabbage of several varieties, red and sugar beets, pumpkins, soup, and butter beans, red and yellow sweet and common potatoes; a kind of turnip called Kohl Rabi, grown by H. W. Miller of this place, egg fruit, water melons, squashes, tomatoes, &c.

A number of handsome quilts were exhibited and many other articles of ladies' fancy work. The display of paintings, pen, and pencil sketches by male and female artists of our county reflect great credit on their authors.

There appears to be but one sentiment with those who attended the exhibition, that of universal satisfaction. Its tendency is certainly for good, and it is to be hoped that the interest now awakened may, by the time of another exhibition, be increased so that the next may be more general and still better than the first.

The Result in the County.

The people will see by the table on the opposite page that the vote is very small, in consequence of which the whole Know Nothing ticket is elected.

The Result in Blair.

The whole Know Nothing ticket elected. Majority from 6 to 800.

A GLORIOUS VICTORY!

Pennsylvania Redeemed!!! PLUMER'S MAJORITY 20,000!!! The State Legislature, The House will stand about 68 Democrats, to 32 Americans alias Know Nothings.

The reports of the committees on articles exhibited at our Fair, and advertisements crowd on our space so much this week that we have not room to give a variety of news.

The Encampment.

Six companies and two brass bands are on the ground this morning. The display will be grand.

Mr. ANDREW DECKER, of Henderson will please accept our thanks for a plate of 1st. premium superior honey in the comb.

From the Philadelphia Pennsylvanian of Wednesday morning last.

A Glorious Victory!

Hark!—what mean these shouts of joy?— Pennsylvania has spoken, in thunder tones, the doom of proscription and prejudice!

Then let the welkin ring—for man, made in the image of his God, is again free, and the scowling fiend of darkness has been scourged back to his dungeon.

There is a holy love and a holy rage—and between these our heart now alternates. The best virtues of man never glow so brightly, as when his passions are excited in a good cause.

Why all this joyous commotion? It springs from the love of justice in Democratic breasts. Liberty and Equality have asserted their great prerogative, and the Constitution of the land and the consciences of men are safe from further desecration.

Pennsylvania stretches her giant hand to Georgia, and waves it in triumph over North Carolina and Virginia in passing. In tribulation she has been for a year, while groaning under a despotism as contemptible as it was degrading.

The Paris correspondent of the London Times writes on the 27th, that the Baltic fleet will winter at Kiel.

Terrible Ravages of the Cholera.—Ten persons Buried Alive. A letter from Florence (Wales) gives very terrible accounts of the ravages of the cholera there. No less than 11,000 persons have, it is said, been carried off in the month of August.

The victory has been achieved by those who regard our glorious Union as a thing of too sacred a character to be tampered with by the wild fanatics of the day.

The News by the Canada.

HALIFAX, Oct. 9.—The Royal mail steamer Halifax, Captain Stone, from Liverpool on the 25th ult., arrived here at 7 20 this evening.

The Canada reports, Oct. 3. lat. 50 38 N., long. 26 39 W., passed steamship Africa bound East. Sept. 29, off Point Lynas, passed ships Lucy Thompson and Columbia, bound into Liverpool.

Progress of the War.

THE CAMPAIGN IN THE CRIMEA.—Active operations have been resumed in the Crimea. The Grand Duke Constantine arrived at Nicolaeff on the 20th, and it is said that the Czar himself would shortly visit that place to superintend the winter Crimean campaign.

Another despatch from Prince Gortschakoff dated the 26th, states that on the previous day 33,000 of the Allies had debouched from Eupatoria, and occupied the neighboring villages on the left flank.

Despatches from Sebastopol of the 16th, announce that the Russians were fortifying themselves in the north part, and were constructing new batteries, and that the French were advancing cavalry and a column of infantry toward Bakshi-serai by the Baidar road.

Letters from the camp mention that the Allies were actively preparing for a campaign. The correspondent of the Paris Patrie under date of Sept. 26, says: Ever since their retreat, the Russians have continued to fire shells at us, and it would be a mistake to suppose that our armies in Sebastopol are beyond the range of the enemy's batteries on the northern shore, and on the plateau.

A letter from Berlin, dated the 23d says: Various circumstances at St. Petersburg seem to indicate that Prince Gortschakoff will soon evacuate the forts to the north of Sebastopol, those forts being only strategic points; but great preparations are making by the Russians for a winter campaign.

From three to four hundred deserters most of them Poles, had arrived at the allies' camp. They stated that the demoralization of the Russian army was most complete, and that such was the confusion from the first moment of the attack, that the soldiers, exhausted with fatigue, remained for twenty-four hours without provisions.

The Cossacks had taken twenty-one prisoners while foraging at Kerch.

The Campaign in Asia.

Vienna despatches say that Kars was greatly strained for provisions, and that the garrison were eating horse flesh.

Advices from Trebizond, dated 6th Sept., announce that the Russians had abandoned Erzeroum and were at Malegulemia.

The Baltic Sea.

DANTZIC, Sept. 23.—The steamer Bull Dog has arrived here with mails from the fleet.—All the high pressure block ships had left for England. The weather here continued unsettled.

The Paris correspondent of the London Times writes on the 27th, that the Baltic fleet will winter at Kiel.

A frame containing beautiful specimens of printing was exhibited by Wm. Lewis, Esq. A number of well executed daguerreotypes contributed by Mr. E. P. Prettyman. All which is respectfully submitted.

WILLIAM DORRIS, JR. JOHN PORTER, JAMES CLARK, JAMES HENDERSON, JOHN C. WATSON.

Mechanical Implements and Manufactures. The Committee upon Mechanical Implements and Manufactures, submit the following report of their examination. We award premiums as follows: To Burgess & Grim, for best pair of horse shoes, 50c Good specimens were also exhibited by Messrs. Henry C. Cramer and Jacob Devoe. A hand hammer made by Jacob Isenberg also deserves a notice as a piece of skillful workmanship and fine finish, but we do not find a specific premium attached to it.

To Gen. R. C. McGill, best Cooking Stove, \$1 He also exhibited numerous other stoves, and ornamental castings from the Huntingdon Foundry, giving evidence of good workmanship and neatness of design, to none of which are premiums attached.

To Glasgow & Steel, for best set single harness, \$1 To Glasgow & Steel for best saddle and bridle, 1

They also presented an improved horse collar, but not a full set of farm harness, which is the only other premium in our list. They had no competition, but it is justice to state that competitors would have had something to boast of.

Jos. Douglass exhibits a beautiful double barreled, revolving cut rifle, which although not in our enumerated list, we take notice of and recommend a premium, discretionary with managers.

To Thomas Sorrel for best pair of boots, \$1 To William Williams for best speci-

men of marble work. He had no competition, but the specimen of his skill in the monument to Rev. Jno. Peebles is the best evidence that he need fear no competitor.

To C. B. Hissong for the best stoneware, the only ware on exhibition, \$1 We notice a specimen of beautiful pressed brick from the yard of Summers & Saxton, which although not on our list, we deem embraced in the class and recommend a premium.
