"Defeated but not Dismayed."

A full turn out of the voters in this county at the late election would have defeated the Know Nothing ticket. Even the members of the Order admit this - and they are now making, and will continue to make, every effort to strengthen their forces for the next campaign, when a Sheriff is to be elected. Already they have promised that office to at least two dozen office hunters for the purpose of holding them in the harness and inducing them to work faithfully for the success of their corrupt party. The Democracy can, if they will, defeat them at the next contest .-And we would recommend to every voter op- A Handsome majority for PLUMER of posed to the dark lantern party to subscribe operate against the efforts of the Know Nothing leaders in the townships. California Election.

The State election in California has resul ed in the success of the fusion candidate, Neely Johnson, over John Bigler, by about 4000 majority. The whole Democratic tick et was successful by a large majority in Sa Francisco. Bigler's majority in the city wa

We have received a letter from or young friend W. P. Brown, of Nevada cour ty, California. It dates back several weeks but as it contains some good ideas, and wi no doubt be interesting to many of his ac quaintances in this county, we cheerfully give it a place in the Globe. It will be found another column over the signature of " MINER."

The Military Encampment.

The encampment at this place, last wee was no small affair. The American Arti lery, with their band, of Mifflintown; t Logan Rifle, with their band, of Altoona; the Altoona Guards; the Scott Infantry, of Hu tingdon Furnace; the Scott Artillery, Hare's Valley; the Broad Top Rangers, a the Huntingdon Guards, as they passed o office on review day, made a very creditat display. The conduct of the soldiers, wh they remained with us, satisfied our good citizens that they could behave as gentlem abroad as well as at home.

Two years since any man could make money in California; now it is the reverse, and the scramble for office from the first to the lowest is truly terrific. The Sheriff's office of San Francisco, even at the reduced fees, is worth at least \$50,000 per annum, Recorder of Mortgages \$20,000, and so of others.

INDIANA ELECTION.—We have returns from 38 counties of Indiana, giving an aggregate Democratic majority of 8,166. The same counties last year gave about an equal majority for the Fusionists. The Indiana nor in this State has been declared, and is as Sentinel thinks the Democratic majority in follows: the State will be 20,000. Last year 12,623 Fusion majority. Riot and Murder in Baltimore.

At the special election held in Baltimore on Thursday last, to fill the vacancy occasioned by the death of a Democratic councilman, the Know Nothing rowdies of the city took possession of the polls and by driving peaceable voters from them, succeeded

on Thursday, for a member of the First Branch of the Baltimore City Council, to full the vacancy created by the death of Wm. George Baker, Esq., was warmly contested, and gave rise to scenes of violence and disorder which every good citizen must truly deplore. The vote, notwithstanding the interest manifested in the result, falls short of that polled a week ago. This is attributed to the disturbances at the polls and in the vicinity, as set forth in another column.-

The following is the vote:

Samue! J. Garrison, k. n., - - - 637 William A. Hack, dem., - - - 561 Garrison's majority, - - - 76

At the election last week the vote stood as Wm. George Baker, dem., - - - 671 Wm. M. Woods, k. n.,

Baker's majority, The know-nothing vote, it appears, has been increased 29 and that of the democrats has fallen off 110 since last week, Thus it is so strong as to stir up intense feeling appears that if the democratic vote of last against him among the outraged communiweek had been polled. Mr. Hack would have been elected by 31 votes.

The Know-Nothing majority in the ward for mayor last fall was 302."

THE BIGLER BROTHERS.

We copy this morning from the Pennsylvanian, an article with the above heading, reflecting on the circumstance that the Democratic Governors of Pennsylvania and California, the brothers Bigler, have successively fallen before the vindictive fury of know nothingism, in its short lived hour of triumph. Our own glorious old Commonwealth was first submerged by the flood of bigotry and intolerance which has been sweeping over the country, leaving but filth and slime to mark its track. Like all other floods, its course was quickly run, and its power for evil has here passed away forever. It bore down many a noble spirit, who attempted to stay its torrent, and for the time being, the boldest and the best were prostrated by its power. Its first eminent victim was the late Governor of Pennsylvania, WILLIM BIGLER.— He had refused compliance with the demands of fanaticism-he stood forward manfully and battled against the monster that threatened the constitution and the peace of society. The Democratic party stood up with him in the noble struggle. In a fair, open, manly contest the victory would have been with the right—with those who contended for the principles of toleration. But the weapons of the enemy were falsehood and treachery and the unguarded Democracy were sold and be-trayed by traitors in the camp. They found their standard bearer true under all reverses, and when he fell it was with his face to the foe. With Know-Nothingism WILLIAM BIG-LER refused all compromises. He placed himself on the record against it; the first executive of any State in the Union who, in an official message, utterly condemned and de-nounced its hideous doctrines. Whatever might be the ultimate result, he declared his eternal hostility to its principles and practices beyond the power of recantation.

Having done its work speedily here and assed to the other extreme of the Union, and pollutes with its tread the golden soil of California. Gov. John Bigler, like his brother of Pennsylvania, would not bow the knee to the dark spirit, and he and the best men of that Commonwealth fall together before it. Its course there, as here, will be short and shameful, and those who have been victimized by it will be again lifted up and sustained by

a just and grateful people It is characteristic of the Democratic party to remember those who have suffered in its behalf, and in the time of its power, to do them justice. The good men and true who in the beginning were made victims will have no cause to regret their course. They know that no want of merit in themselves brought defeat; that all fell alike, the humble and the eminent-that no character however greatno attachments, however long or well founded, could avail against the secret oath-bound association against which they contended. The prostration of the two brothers, Governors of the Keystone and Pacific States, because of their faithful devotion to the principles of the Democracy will only endear them the more to the party, which will yet take especial pride in showing its appreciation of their integrity.—Pittsburg Union.

From the Baltimore Sun. A DREADFUL MURDER AT CUM-BERLAND.

Murder of Dr. J. C. Hadel and Mr. Graf, his Student.

The town of Cumberland, Md., was on Monday night and Tuesday in the most in-tense excitement, occasioned by two of the most appalling and unprovoked murders on record, the whole object being, it is supposed, plunder. The victims are Dr. J. F. C. Hadel, formerly health officer of Baltimore, but for the last three years a practising physician of Cumberland, and a young man in his office, named Henry Graeff. A German pedar, lately from Pittsburg, named Frederick Miller, has been arrested, charged with the murder, and against whom the testimony

It appears that on Monday evening the body of young Graeff was found in the mountains, a short distance from town, bearing evidence of having been killed by a gunshot wound. The body was recognised and brought to town, and, on inquiry, it was ascertained that Dr. Hadel was also missing. and inquiry was made of his friends in Baltimore without obtaining any information in relation to him. In the mean time a German pedlar was arrested on suspicion of mur-dering Mr. Graeff, and on searching him the watch and chain, pocket-book, and clothing of Dr. Hadel were found in his possession, leaving no doubt as to his having met with the same fate as his unfortunate young friend.

The murderer was arrested at 12 o'clock on Monday night and the greatest excitement existed until daylight next morning, when a large body of citizens started out to search for the body of Dr. Hadel. The search was continued until about 10 o'clock Tuesday morning, when the body was found in the mountains, horribly mutilated. He had been stripped naked, his head cut off from his body, and stabbed, besides the mark of having been shot through the back of the neck.

The head was missing.

It appears that the German pedlar who has been arrested on the charge of being the perpetrator of this horrible massacre is a stranger in Cumberland, and has been boarding at a farmer's house by the name of Steel, near town, for some days past. On Sunday morning between 9 and 10 o'clock this stranger and the Doctor were seen going over the bridge in the direction where the latter was murdered, and Mr. and Mrs. Steel say that this man called for his gun about that hour, and it is believed he enticed the Doctor out by telling him some one was very ill, and shot him through the back of his neck, as his coat, found in the possession of the supposed murderer, had the mark of a bullet through the collar.

After murdering the doctor it is supposed he returned to Steel's, as the latter says that he brought his gun back about noon, and immet with a deserved overthrow soon after, it mediately started towards Cumberland. He was next seen in the doctor's office, in Cumberland, by a gentleman who called there to enquire for the doctor. Young Graeff was there with him, and on the gentleman enquiring for the doctor, he was told by Graeff that he was out in the mountains, and had met with an accident, having fallen in the water. It was supposed that the murderer had told Graeff this tale and that the doctor had sent to him to bring him some dry clothes. The murderer and Graeff were seen in the afternoon going in the same direction—Mr. Graeff carrying a bundle with him. Mr. Steel also says that this man, accompanied by Mr. Graeff, came to his house, and the man got his gun again, and they went on up the mountain together. Two other gentleman also say that they passed them together on the mountain, and five minutes after heard the report of a gan.

The body of Graeff was found with a gunshot wound in the back, and he had been beaten over the head, it is supposed, dying in a few moments. The accused returned the gun and the bundle which Graeff had with him, to Steel's again, and left them there.

Further Particulars .-- The Head of Dr. Hadel Found. The search for the head of Dr. Hadel was

continued throughout Tuesday, and a party finally found it burried some distance from where the body was found. It appears that the German arrested was

seen in Dr. Hadel's office on Saturday evening. When arrested there was found in his possession the doctor's gold watch, his seal ring with his name upon it, together with all here and hereafter. his clothing, books, &c. From the Carlisle Volunteer, Lunatic Hospital, Harrisburg.

During the recent trip to Harrisburg, we paid a visit to the Pennsylvania State Lunatic Hospital. It was our first visit to this institutian, and for the polite attention shown us, by Dr. Jones, the present gentlemanly Assistant Physician, we feel under many obligations. We were taken into every apartment of the extensive buildings-the rooms of the patients, dining-rooms, baking room, wash-house, Library, &c. In taking a cursory view of the institution and its inmates, we felt a degree of pain, mingled with pleasure-pain at seeing so many unfortunate fellow-beings laboring under the great and and distressing calamity, dethronement of renson; pleasure to notice the tender care that is bestowed upon the patients. Everything in and about the institution is clean and comfortable, and no efforts are spared on the part of its efficient officers to render the inmates as happy as their situation will allow. Kindness, good food, proper exercise, and a simple course of medicine, are some of the means resorted to by the officers to restore to the patients their former reason .--Nearly every week patients are arriving at the institution from all quarters of our State, and numbers are being discharged, some entirely restored, others improved.

It is at once a novel and most distressing sight to look at the patients, in their apartments, and mark the various degrees of in-sanity with which they are afflicted. We first entered the male apartment, and no sooner had we set foot in it than three of the patients approached us. One of them shook our hand very cordially, appeared happy as a lord, and bade us welcome to his mansion: another (an incessant talker,) placed his cold bony hand on our shoulder, and wanted to draw us aside to tell us all about his troubles; the third had a wild-devil-like appearance, and we confess we felt a chill pass over us when he jerked our arm and demanded "a chew of tobacco." On the impulse of the moment, we were about to grant his request when Dr. Jones (who accompanied us,) shook his head, and we had to deny the poor fellow his wish. Tobacco, we believe, is not allowed to the patients. After a little parley, we got clear of the three patients at the door.—
we proceeded on—oh, what a melancholy sight. Here was a poor fellow-creature on his knees as prayer—a few feet from him was another in the very highest state ot glee —farther on could be seen a young, intelligent looking man, his hands folded on his breast, uttering the most dreadful oaths. Before his derangement he had been very pious. Then again a large number presented the saddest picture of melancholy-others again looked at us with a vacant stare, and made

all sorts of ugly faces. They were idiots. From the male we passed to the female apartment. Here, too, we were met at the threshhold by a smiling little crazy girl, apparently not over ten years of age. She took our hand, looked up in our face, and smiled sweetly. Scarlet fever was the cause of her derangement. She is improving rapidly, and no doubt will be entirely restored before long. In the large parlor or sitting room a numder or patients were at work, sewing, knitting, &c. As in the male department, various grades of insanity are at once noticed. The deepest distress was depicted in the faces of most of the patients.-Some, however, appeared cheerful, and to all appearance, quite rational. Others, again, were ranting and scolding. A young lady, some 18 or 20 years of age, attracted our attention. She was handsome, modest, and of fine person. Her hair was braided, and her dress becoming, and in good taste. She had no appearance of insanity in her face or eye, and, had we not been told we could not have believed her a patient. When we were about leaving the room, however, she commenced to laugh most immoderately, and her eves rolled as she passed the room in the greatest excitement. She is an educated lady, of highly respectable family, has improved much since she has been in the hospital, and strong hopes are entertained that she will entirely recover. Unreqitted love was the cause of her derangement of mind.

The institution, as we have said, is admirably conducted, and we hope to see our State Legislature appropriate liberally to its support. The unfortunate insane deserve our constant sympathy and aid. Kindness to these poor creatures will have its reward

Coming Back.

The People's Advocate, published at York, which has hitherto supported the Know-Nothing ticket, considers the recent result conclusive, and refuses to go on. It says:

"Know Nothingism is exploded, we fear, and we are rather sorry for it. It seemed to most admirably. But we have now lost hope in it, and have nothing to rely on but the old method of appealing to the conscience and

NEW YORK ELECTION.—The New York Tribune in an article on the prospect of that States, with reference to the approaching election, says:

"One year ago, the Know-Nothings were young and sanguine, with the largest possibilities before them. They really believed they were destined to bound from trinmph to triumph, until 'Sam' should hang up his hat in the White House, in March, '57. Virginia, North Carolina, Tennessee, Texas, Georgia, Pennsylvania and Ohio have since dispelled that illusion most effectually. *

Marshal Pelissier reports on the 1st inst., that a brilliant contact between the French and Russian cavalry was fought on the 29th ult., at Konghill, five leagues north east of Eupatoria, in which the Russian cavalry, commanded by Gen. Kerf, were defeated by the French cavalry under Gen. Allonville.-Six guns, twelve amunition wagons, a campaign forge, with all its appurtenances and 160 prisoners were captured, besides 250 horses. Fifty Russians were killed, among them Col. Androwsky. The French had six

RUSSIA. Berlin, Thursday.—Rumors have been rife that the Russian government has invited Prussia to take steps towards a renewal of negotiations with the Western Powers.

Public feeling in Russia has began to manfest itself since the fall of Sebastopol. Large proprietors have lost half and even two-thirds of their revenue from want of outlets for their produce, and from the abstraction of labor. The government functionaries and the youth just from the millitary schools alone favor the continuation of the war.
