The National Convention of this Society, assembled in the City of New York on the 4th day of December, 1855, deems it a duty to address you as to the principles and objects of the body, which it represents. This Association has been established to fulfill the destiny of the hish nation-to effect the purpose for which so many patriots have toiled and suffered. We hold that the present condition of affairs in Europe presents to the mind of every man that favorable opportunity for which the ever rebellious and discontented mind of Ireland has been waiting with anxiety and hope. To our fellow-citizens in the United States we would say, that, in the furtherance of our purpose, we mean to outrage no law of the land, to violate no pledge which we have given to the Constitution of this country. If our antecedents in America be not a guarantee for our future conduct, the presence of citizens of American birth in our counsel is a pledge to the nation that we shall do nothing in violation of the law. We see a strong probability that the long expected opportunity may arise when Ireland can take her position as an independent nation, and to prepare ourselves
