THE present session of this Institution will close Wednesday October 3d. The exhibition will take place in the evening. The examination the week previous. These exercises the public generally are invited to attend. The next session will commence the last Wednesday of October. The institution is located at Shade Gap; a quiet and retired place, free from all temptation to vice, idleness or dissipation. The location is a healthy one, being situated among the mountains. It is entirely free from the nuisances so common along our rivers, and so destructive to health.

The course of instruction is such as has been found by experience most suitable for expanding and developing the powers of the mind. The student is early taught to rely upon himself, to think, to reason, and to investigate the different subjects which are brought him. The government is strict but mild, only requiring what is for the student's highest good. Around him is thrown, as far as practicable, the restraints and comforts of a well regulated Christian home.
