Americans Ruling America.

The West Chester Jeffersonian, in speaking of the method by which the miscalled Americans are secking to tule America, presents the subject in a light calculated to attract attention. It says the present is fruitful of instruction in the politics of the country. The new theory of the new party which organized in dark garrets and wrote its political creed by the midnight lamp, and consecrated their faith by the blood of their brethren shed in the riots of Philadel. the table yesterday. I think they should phia, New York, Louisville, Cincinnati, Baltimore and St. Louis, is being put to practice in the attempt of "Americans" to rule America!-More than one and a half months have passed since the present "Americam Know-Nothing" Congress has been assembled, and yet the organization of the House has not yet been effected. No scene of the kind has ever before been enacted in this nation. It has no parallel in disgrace! no equal in contempt to the people! no rival in weakness, no competitor in folly, no like in everything disgraceful, factious and reckless. It is an anomaly. With vain boasting sort is forcing itself upon the House, and as about roling America, it has failed to rule itself. Prating of liberty and good government, it is a scene of anarchy, and is unable to produce any government at all ! Talking much of foreign paupers, it has converted its members into a band of hungry paupers feeding on the treasury of the people, without doing us any service! The nation is being humbled by its actions; and the contempt of the world will cir. cle round those who now constitute the popular branch of the national Congress. It is a shame. The representatives of the people should be ashamed to thus misrepresent an honest constit. ucney. If they have lost all regard for them. of the nation, the hope that the struggling masses of mankind have in us, the memory of WEB. STER and CLAY, and CALHOUN, and ADAMS, and RANDOLPH, and JACKSON, of whose greatness the who has advanced them money from time to present members are the faintest shadow of a shadow,-let common sense and common honesty make them organize the House or go home!" "Americans ruling America!" Look ye yonder to the Capitol of the nation, and behold "Americans ruling America." Go there and learn the new doctrine of the government of a country by the enemies of civil and religious freedom. When you have gathered instructions there, then reflect that most of those who are actors in the farce are creatures of midnight or. ganizations, which two years since banded together for political purposes, bound by wicked and infamous oaths to proscribe their fellow citizens on account of religious belief and place of birth. These are the Americans who are ruling America-who are disgracing America! Shame on them ! Shame on such Ameri. cans !!

Correspondence of the Globe:

An impression has for some time prevailed among some of the supporters of Mr. Banksprobably not the most knowing of them-that the pecuniary necessities of the National Administration would compel the Democratic members to give way before the close of this month. I think they are deceiving themselves, and for their benefit I will quote the exclamation of a philosophical Ethiopian who failed, after numerous trials, to cure his leg of rheumatism. "Ache away, old feller," said he, giving his knee a thump with his fist, "I can stand it as long as you can." I have no selves, let the interests of their country, the pride | doubt the Administration can stand it as long as the Members of Congress, one-half of whom would have been completely starved out be- of the house in regard to the President that fore now, but for the generosity of Mr. Glossbut one voted. The public schools of Tell District are all doing well, and it is the desire of the people that they should be further improved; and it is more than likely that the folks in this section will have the pleasure of hearing some of "Tells" thunder tones as an educational meeting will be held in our township sometime next month, when matters of interest to the schools will be discussed before the people of the township. I will conclude, Mr. Editor, by saying that the proceedings published in your paper, signed by the President and Secratary were the true report of the proceedings of that meeting; and what is stated by "Tell" is untrue from be-gining to end. I could occupy several columns of your valuable paper in describing the character of this man "Tell," but it would be a waste of time and space to do so. I may at some future time give the reason why Mr. "Tell" wrote that communication but shall make this suffice for the present.

Pennsylvania Legislature.

The bill to repeal the restraining liquor law of last session, passed the House finally on Thursday last, and sent to the Senate for its concurrence. In the Senate the bill was made the order of the day for to-morrow.

The bill to increase the pay of Justices of the Peace, Aldermen and Constables, also passed the House.

The bill to increase the pay of Jurors and witnesses, was taken up and postponed for the present.

The following are the remarks made by Dr. WINTRODE, of this county, when the bill for the repeal of the act to restrain the sale of liquors was before the House :--

Mr. WINTRODE had only a few words to say upon the subject now under consideration, all. important and all-absorbing as it is. He had neither the vanity nor the presumption to believe that he could say anything new, or could throw any additional light upon the subject, after the very full and able discussion it has received at the hands of his learned friends from the city and from Lawrence. He had the honor, aye sir, the honor, of representing on this floor a temperance constituency—a constituency that, in. 1854, rolled up well nigh two thousand majority for total prohibition. They were in favor of prohibition in 1854-they are in favor of prohibition now. Their sentiments on this subject have undergone no change. They deny the right-the moral right of any man or class of men, to deal out poverty, disease and death; to engage in any traffic the direct, well known, universal and inevitable tendency of which is to kill-to kill body and soul. But as prohibition is for the present beyond our reach, we are in favor of that which approximates most nearly to it. If we are to choose between the present law restraining the sale of intoxicating liquors, and the promiscuous license system of 1834, with its various supplements, we are decidedly and em.
