are vital, without affecting us."

But, sir, we have another witness to introduce, whom no American can hear without respect and gratitude, the writer of the Declaration of Independence, the patriarch of the Democratic faith, the statesman and patriot, second only to Washington in the estimation of his countrymen. Mr. Monroe, during his whole Presidency, was in the habit of the most confidential communication with Mr. Jefferson upon all questions of serious liar, but when all of her thousand tongues asconcern. He consulted him upon this sub- sert one thing and proclaim it aloud under ject, and here follows the answer, dated October 24, 1823. Never were sentiments sounder in themselves or more beautifully ex- In view of an occurrence which must be fresh pressed:

"The question presented by the letters you have sent me is the most momentous, which discretion in the arrangement of this Comhas ever been offered to my contemplation, since that of Independence. That made us a nation; this sets our compass, and points the The House Printing is still undecided. nation; this sets our compass, and points the course, which we are to steer through the ocean The vote for Mr. Follet, of Ohio, the antiof time. And never could we embark on it under circumstances more auspicious. Our first and fundamental maxim should be, never to entangle ourselves in the broils of Europe. Our second, never to suffer Europe to intermeddle with cis. Atlantic affairs. America, North and South, has a set of interests, distinct from those of Europe, and peculiarly her own. She should, therefore, have a system of her own, separate and apart from that of Europe; the last is laboring to become the domicil of despotism-our endeavor should surely be to make our hemisphere that of freedom."

And now there are those, who would mar the magnificent figure of Mr. Jefferson, by converting his ocean of time into a mere duck pond, and his fundamental maxim, never "to suffer Europe to intermeddle with cis-Atlantic affairs," into the historical recollection of a temporary project to save our neighboring States from a blow aimed at that time at their safety, and all danger from which passed away, as suddenly as it has arisen.

And there is another voice from the tomb, which speaks the same confirmatory languour history, and in the hearts of our countrymen, as long as true genius and elevated patriotism shall find admirers.

In 1825, Mr. Clay, then Secretary of State, in a letter to Mr. Poinsett, says, "that the then President, Mr. Adams, who was Secretary of State when Mr. Monroe advanced his doctrine, coincides in 'both principles,' (noninterference and anti-colonization,) which were laid down after much and anxious deliberation of the part of the late Administration. The President, (Mr. Adams,) who then formed a part of it, continues to coincide with both, and you will urge upon the Government of Mexico the utility and expediency of asserting the same principles on all proper occasions.

It is obvious, sir, that Mr. Calhoun was under a misappreheusion in relation to the imperfect, and that it was so, is beyond all, contradiction. He considered that the "declaration of Mr. Monroe had reference to a specific case, (the Holy Alliance,) and stopped there." "Mr. Monroe," he added, "was a wise man, and had no design of burdening the country with a task it could not perform. He knew there was a broader declaration made by the gentleman, then Secretary of State," &c. What Mr. Calhoun here alluded to, I profess my inability to comprehend.—
No declaration could well be broader, than that of Mr. Monroe; and whatever agency or ican question, was delivered the other day. advice Mr. Adams may have had, or It was a rather poor affair, in my judgment, given in the matter, its responsible paternity to come from a successor of Daniel Webster. rests upon the Chief Magistrate. Indeed, Mr. Clay, by his and Kansas, and "that polar sea upon which it I do not know. Indeed, Mr. Clay, by his authority, as I have shown, avowed his concurrence in it. But, sir, those who knew Mr. Monroe well know that he was entitled to the character of wisdom, here given to him by Mr. Calhoun. He was a safe and sagacious statesman, cautious in his investigations, looking narrowly into every question presenting itself, hearing all that could be said, and sion of three hundred thousand square miles then deciding for himself, and adhering with of the free territory of the republic." I supunshaken firmness to his decisions. I knew him well, and hold him in remembrance as a true patriot and a pure one, and the worthy blustering cowards, and that she can play out successor of his personal and political friends, Jefferson and Madison. The declaration of impunity. All these rumors of war with Mr. Monroe contained the enunciation of a England, in the opinion of this astute Senageneral principle, and its application to a par- tor, were set affoat only "to divert the people ticular case, while Mr. Calhoun has confined from attending to what was passing on the it to the latter, divesting it thus of all claim other side of the Mississippi." Here we to the establishment of a great line of policy.

It has been said here more than once, and I think, though I am not certain, that it was said by Mr. Calhoun, that the course of action of Mr. Monroe upon this subject, was the result of a suggestion made by Mr. Canning to Mr. Rush. This is another, among the many errors, which seem to have clustered around this whole matter. It is easy to ciety! A free highway to the Pacific is of show this.

This is a brilliant idea—too brilliant to be reduced to practice. I think. As Mr. Follet's friends are not strong enough to elect their favorite, it is not easy to understand how they could repeal the elections that have taken place. They had better 'come to terms' with the aspirants who stand in their way, and who can be bought off with a reasonable share of the profits!

The joint resolution from the Senate appropriating \$1500 for the relief of the poor of Washington and Georgetown, still hangs in the House. It seems that the benevolent people of Washington and Georgetown cannot take care of their own poor. Congress must not only build their Water Works and carry forward all their public improvements, but i must also feed their hungry and clothe their naked. Not so with either of the other two parties. Republicanism, as now claimed by those assuming the title, stands, and can stand, only as a Northern party. It has no national character-it covers no national ground-it has no party existence. It is sec-Knew Nothingism has a national name,

or, in other words, the same name throughout the nation; but it is the same in name only in the several sections of the country, if we except, as we should, its sameness in fanaticism, intolerance, violence and crime. It puts forth no code of principles suited alike to the North and the South, and the K. N. of the one spurns the K. N. of the other from his embrace as a hated and despised thing .-There can be no candidate of this party who can meet the requirements of both sections which comprise it, unless the one or the other utterly yields all its professed principles. There is no nationality, no broad preading principle about it, and like "repub-icanism," it would break down constitution-I barriers, and set at naught the rights of the people.

Such an aspect does the field present as briefly viewed. What precise form these two latter actors in the struggle may ultimately assume, it is difficult to say. But, be it what set the seal of reprobation upon both, and hold fast to those principles which are not bounded by geographical lines, nor propagated by "dark lantern" oaths, but which embrace the whole country, and are nourished in the light | tions an interest and value they never before pos of true freedom and patriotism. The questions involved in the struggle are of more importance than that of the expediency or inexpediency of the repeal of the Missouri Compromise. Indeed, this can. hardly enter into the contest, for no considerable portion of either of the forces desire its full restoration. That matter is past.-The future of the country, its momentous interests, the preservation of its unity, the administration of its laws, the perpetuity of its strength and position in the family of nations, these are the rallying points, and in anticipation of the warfare for these, the people have in many of the States sounded out already the notes of preparation, and given full notice that their armor is buckled on, that they have already driven in the outposts, and wait only the time to charge, to com-
