Our Washington correspondent has again stepped out.

THE BROAD TOP ROAD OPEN TO THE MINES. -The first train of cars loaded with coal, from the mine of MAGUIRE & PORT, of this place, came down on Saturday last, and was forwarded over the Penn'a Road to be used at the Duncannon Iron Works.

A Collection of Thirty Thousand NAMES, &c., &c.-We have received a specimen of a monthly periodical to be published at Harrisburg by Rupp, WINGERT & Co., and edited by I. DANIEL RUPP, projector and editor of an original History of Religious Denominations in the United States, &c., &c., &c. The work will be very interesting to thousands of persons, who, we feel confident invite attention to Prospectus in our advertising columns.

HANDSOME AND SERVICEABLE.—We had the pleasure, yesterday, of examining specimens of the workmanship of Drs. MILLER & FRAZER, of this place. They were full sets of teeth set upon improved gold plates, and whoever the persons may be for whom they have been so handsomely and substantially finished, we can assure them that they have been exceedingly fortunate in their choice of Dentists to add to their appearance office, is giving the subject a zealous attenand comfort.

PA. LEGISLATURE.—Nothing of importance from Harrisburg. Brown's Liquor Bill which passed the Senate last week, is in the hands of a committee of the House. The numerous local bills occupy the attention of members.

Farmers' High School of Pennsylvania.

We find in the Bellefonte Watchman a memorial of a Committee of the Trustees of this Institution, to the Senate and House of Representatives of Pennsylvania, from which, and other sources, the Watchman learns that it is the desire of those who have this enterprise in hand, that the college should go into operation with an endowment of \$100,000. They have now in the treasury \$25,000, and the land owned and in their possession is valued our columns for the reason that the author is at \$12,000. This tract was the donation of Gen. James Irvin, and consists of some of the best land in Central Pennsylvania-and will, when properly improved, make one of the most valuable, and at the same time the most useful general locations in the State. To effect this, the Committee, with precedent and the importance of their movement in their favor, honestly ask an appropriation from the State to aid them in firmly establishing a Farmers' High School. Every college in Pennsylvania is more or less indebted to Legislative bounty for its success; and it is reasonable therefore, that while we foster the elements which conduce to the improvement of the embellishments of literature, we should not forget the useful sciences, nor fail to recognize every industrial pursuit. The first proposition called for an appropriation of \$50,000; but after mature deliberation, it was decided to ask for only \$25,000, leaving it for future liberality on the part of the Legislature to make up the deficiency, or rather to aid the Trustees in raising the requisite sum of \$100,000. With \$50,000 in hand, the Committee will be enabled to proceed in will make early application for copies. We their work, and when it has been commenced, there is little doubt of its entire success .-There is at least no doubt, that \$25,000 additional can be raised-after which the State can evince its liberality in making up the \$100,000, and thus insure the establishment of the institution.

The subject of Agriculture is fast becoming one of great importance, and has been taken under the fostering care of many of the States in the Union. The national government, with the aid of the attaches of the patent tion, and we daily hear of the vast benefits which that department is conferring. This benefit can be the better appreciated, when we consider our vast acquisitions of territory; but it would fail of its real objects, if the different States neglected to aid in its progress. Individual effort alone, would be futile BOOK NOTICES.—We have upon our table in its advancement; and, therefore, the comthe science of Agriculture, but elevate and ennoble the pursuit of labor.

We trust that this subject will not be neglected; as it is one in which the entire State is interested.

Presidential Prospects.

In every State in the Union the democracy are organizing for the presidential battle of next fall. North, South, East, and West, the lemocratic party has planted itself firmly, immovably, upon the platform of the Nebras. SERIOUS ACCIDENT ON THE PA. If the position of the democratic party in any State of the Union upon either of these questions shall, at any time, be called in question or doubted, it will afford us special State convention, in the State that may be designated, and show that it has taken its stand unequivocally and uncompromisingly as great battle is to be fought. Those who have lower—about 1000 barrels Pennsylvania sold heretofore acted with the old national whig yesterday afternoon at \$3 per barrel. party, under the lead of Clay and Webster, and the candidate of the opposition, who will go into the canvass pledgedsto deprive the people of the Territories of the right to govold office. The mass of the old whig party have been swallowed up by the abolitionists, and are now iollowing the lead of Giddings, Hale, Greeley, & Co. But there are hundreds and thousands of those who gloried in the name of whig, in the days of Clay and Webof such leaders as Giddings & Co. Remembering that Henry Clay, whom they always regarded as a pure patriot and a high-minded statesman, was himself a slaveholder, there are thousands of old-line Clay whigs who will not unite with those who would spit years. upon his grave and trample his fame in the dust by their wholesale, unscrupulous, and false-hearted denunciations of slaveholders and unprofitable crusade upon the people of the slave States. COMMUNICATION.

For the "Globe." MR. EDITOR-In a note written on a former occasion in order to contradict, a barefaced falsehood, I had no intention to touch the sensitive feelings—yet the communica-tion in the last "Globe" is proof that I have done so, and reached the dirt! That piece needs no comment; for, if I mistake not, the foul pop-gun through which those slimy wads were shot, is the identical thing who some time ago stigmatized a Minister of the Gospel "a liar" when he was preaching. The public need only be apprised of the above fact, and we feel assured that they will do ample justice to the would-be "Justice" as an author. And what shall be said of the man who does the shooting? Some gentlemen here would like to know what he primes with-they think he uses champagne, or perhaps, old Monongahela. I am rather incli- 60 acres, and lying on both sides of the Turnned to think he uses something strong. His powder smells so strong-and his nose! ah, that red nose! But enough at present about the little "Justice" and his "Pop-Gun." You may perhaps hear from me again.

THE LATEST FOREIGN NEWS. Mr. Buchanan reported as having demanded his Passports.—Peace prospects in the

NEW YORK, Feb. 24 - The steam ships Atlantic and Asia arrived this morning .-They bring no news of the missing steamship

The European intelligence shows that all goes favorably in the direction of a peace between Russia and the allies.

The real interest of the news by the Atlantic, is in relation to the prevailing excitement in England concerning American affairs.

It has been reported on the Liverpool Change, that Mr. Buchanan has demanded his passports, and the absence of himself and lady from a soirce given by Lord Palmerston, is attributed to the personal misunderstanding between the Earl of Clarendon and himself.

By our latest despatch from London we have no particulars of the reported misunderstanding, as the English papers maintain a complete silence on the subject.

The Earl of Clarendon is, however, reported to have spoken in the most imperious manner to Mr. Buchanan, which the latter promptly checked by closing the interview. It is stated that the Derby party intends to bring forward a motion in Parliament, on the subject of the omission of all allusion to America in the Queen's speech.

It is also reported, that France and England have jointly sent envoys to Brazil, to enlist that country against the interests of the United States in Central America.

In the meantime the general tone of the English press, is threatening and presumptuous towards the United States. The purely commercial presses form an exception, and the Chambers of Commerce, of Manchester and Liverpool, protest against any interruption of the amicable relations with the Uni ted States.

THE LATEST .- The London Morning Advertiser states that Sir. Henry Bulwer has intimated that he would like to act as mediator between the British Government and Mr. Buchanan. This movement is said to be at the desire of Lord Palmerston. An interview: was to take place at the American Embassy; when Sir. Henry Bulwer would explain at length to Mr. Buchanan the compromise he is prepared to recommend.

All the other papers maintain a profound silence upon this matter.
