**H**AVING for several years past been in respecting the Statistics and general history of Pennsylvania, I have determined to arrange my materials, and after collecting the town. A man about 50, had been confined some necessary additional information, to pub- cough; respiration difficult, and was given over by hish a GAZETTEER of the State. But to do his physician and friends, who considered him in this in a proper manner, and to make the *a confirmed consumption;* after taking three boxes of these Pills all the threatening symptoms are re-work creditable to myself, and generally and generally and he is fast necessarily maned. useful, it is obvious that I shall have to depend greatly upon the assistance of my fellow citizens throughout the Commonwealth for facts and details respecting the particular districts in which they reside; as without such aid, years would be required to collect the information by personal journeys this distressing state, after having tried other throughout the State-I beg leave to solicit communications, and in order that those who are disposed to favor me with them, may precisely understand the nature of the information required, the following heads of subjects are given.

the timely administration of that long tried and invaluable Medicine, DR. RELFE'S ASHMATIC PILLS, which have been known to cure persons supposed

to be far gone in a Consumption, and exhibiting all the appearance of approaching dissolution. The Pills a : o constitute an excellent PECTORAI

MEDICINE. The e therefore who are troubled with the common coughs occasioned by acrid humours tickling in the throat, or fefluxions upon the lungs, depriving the patient of refreshing sleep, and gradually introducing the train of *Pulmonary* affec-tions, will receive from the use of the Pills, cortain, and frequently the most sudden and cheer ing relief. They appease the cough, promote easy expectoration, relieve and often cure protracted obstinate and most distressing cases. 'Common Colds are generally removed by the Pills in a few

hours. These Pills also afford immediate relief in the harrassing and suffocating complaint of the Asthma. In attacks of this disease characterized by difficulty of breathing; tightness and stricture a-cross the breast and in the lungs; oppressive flatalence; wheezing; coughing & hoarseness; costiveness and other Asthmatic symptoms, the timely administration of Dr. Relfe's Pills, invariably mi tigates the attack, often ensures permanent relief, and sometimes effects a radical cure.

The Pills may be taken with the most perfect safety, as they require, in ordinary cases, no confinement, and may be administered with the ut-most confidence to all ages and classes of people. These popular Pills have been used by multi-tudes with unexampled success, in a vast variety of cases, from those of the slightest, to others of the most confirmed character. Their powerful agency has been known to revive from the bed of sick. send him back again to "the busy hum of men" an active man of business in the full enjoyment of the blessings of health.

found them most excellent."
