OATS.—Are scarce and in demand. No receipts for some days.

CLOVERSEED.—The wagon price according to the quality, ranges from 5 25 to 5 75 per bush.

The Editors of the "SATURDAY COURIER," will accept our thanks for the Extra, containing the late Foreign News.

The "LADY'S BOOK," and "CASSET," for March, have been received. Their contents are highly entertaining—the engravings are handsome, and neatly executed.

To the Hon. F. WHITLESSEY, we tender our thanks for the opinion of the Supreme Court, papers, &c., which he politely furnished us last week.

Also, to the Hon. T. Hartly Crawford, for a copy of the Globe, containing his speech on the United States Bank.

MASONRY IN THE CHURCH.—A Correspondent, in last Tuesday's "Compiler," over the signature of "B," has assailed us, personally, with a malignity and virulence which would disgrace any but the advocates of the "handmaid."

The Mansfield Gazette presents the following analysis of the legislation of the State of Ohio at the Session of the Legislature recently ended: "The last session of our Legislature was unusually protracted. The number of laws passed of a general nature, is small—those of a local nature very large. The titles of the laws of a general nature we will give, but omit the titles of the local laws, not considering them interesting to our readers. We have run over them and found among them,

27 Churches incorporated; 17 State roads; 15 Divorces; 12 Rail-road Companies; 10 Turnpike Companies; 12 Bridge Companies; 10 Libraries incorporated; 10 Towns incorporated; 5 Academies incorporated; 16 Acts of incorporation for Manufacturing, Scientific and other purposes.

The past year has been a successful one for the whaling business, and the voyages have been remarkably short. Among others at New Bedford and Fairhaven, the Albion brought in 2200 bbls. in 6 months and 20 days; the Brandt 2200 (140 sperm) in 7 months and 9 days; the Midas 2400 (140 sperm) in 7 months and 28 days.

of JERUSALEM! She leads her "blind candidates" into the Sepulchre where she pretends our SAVIOUR lay! SHE APPEARS TO RAISE HIM FROM THE TOMB, AND EXALT HIM TO THE RIGHT HAND OF HIS FATHER!! She places the representatives of the twelve Apostles around the table, cuts off Judas Iscariot!—AND ADMINISTERS THE SACRED WINE OUT OF A HUMAN SKULL!! In their signs and pass-words, THEY PRETEND TO PUT THEIR FINGERS INTO THE NAIL-PRINTS IN OUR SAVIOUR'S HANDS, AND TO FEEL THE WOUND IN HIS SIDE!!!

This is genuine Free Masonry. The Editor of the "Compiler" knows full well where the CLEAR ROOM OF IT IS FILED. This is no blasphemy of ours; but it is the vile and impious blasphemy of the Lodge—the bare recital of which makes the blood curdle in our veins!

We now ask every moral man—every true Christian, if these things are so, ought those who practise, if they approve, or who do not condemn AND OPPOSE THEM, to be permitted to pollute the Sanctuary of the Lord! To be permitted to mingle, in fraternal communion, in the celebration of those Holy rites, which THEY HAVE MOCKED AND BLASPHEMED?

But we are charged with having presumed to "judge the heart." We have never presumed to judge the heart of any man, except when its qualities were indicated by his acts. But thus far we have a right to judge:—"By their fruits shall ye know them."

Suppose it were proved, that a mocking company, in their drunken revels, had administered the Sacrament to each other; or had enacted the scene of the Burning Bush—and in their sober hours, had openly justified it, and still continued to justify it—would it be presumptuous in us to declare them unfit to be received into the bosom of the Church; exalted to its high places, and admitted to its sacred communion? But do not Masons personate DEITY as He appeared on Mount Horeb—and is not the very individual who thus acts the part of his Maker, often drunk at the very time? Are such men, or their advocates, fit subjects for the Church? Can any Church prosper, until it is purified of such uncleanness?

But we are accused with "spreading distrust among the inmates of the Tabernacle of the Most High."

Which is justly chargeable with the injury done to a person, the felon who administers poison to him, OR THE PHYSICIAN WHO EXTRACTS IT THROUGH THE INFLECTION OF GREAT PAIN? The patient, it is true, might have suffered less without the application of the antidote; but he would have perished in his easy stupor! Peaceful, indeed, would be the sheep-fold into which robbers had broken, if no one disturbed them by sounding the alarm—but it would be the peace of destruction! Who does the greatest injury to the Church, he who embodies within it corruption and irreligion; or he who points it out and condemns it? Is it the duty of those who see Thieves scaling the walls, to remain silent like "dumb dogs that cannot bark?" Let not members of the Church imagine that shutting their eyes to these things, is promoting the peace and harmony of Zion. It is but salving over an ulcer, which will fester and corrupt and mortify the whole. It is time for those who are Christians in heart, and not in name merely, to learn that they should no longer "dab with untemper'd mortar."

The Bill to abolish Loteries in this State, passed the House of Representatives, on the 16th inst., by a vote of 76 to 6.

The Apportionment Bill has passed the U. S. Senate, on second reading, and will no doubt become a law in the shape in which it passed the lower House.

MAINE.—The Legislature of this state adjourned lately; having been in session since the commencement of the year. The injunction has been removed from the late secret doings; and it appears that a resolution passed the Senate by a vote of 18 to 6 and the House by 80 to 69, "authorizing the Governor and Council to appoint three Commissioners to treat with a person to be appointed by the National Government, for a cession to Great Britain of the territory north of the St. John, or in other words for the acceptance of the award of the king of the Netherlands, on the payment to the state of an indemnity, the arrangement to be submitted for ratification to a future Legislature.

The crisis approaching.—We were informed by a gentleman yesterday, who received it from an authentic source at Washington, that Gen. Jackson had come to a determination NOT TO ENFORCE the decision of the Supreme Court, releasing the two citizens who are now, contrary to the constitution, imprisoned in the Penitentiary of Georgia, in case Georgia should refuse obedience to the mandate of the Court, of

which there can be little doubt. And further, that a series of numbers would appear in the Globe, commencing, we believe, on Thursday last, for the purpose of preparing the public mind for this decision of the President. This information may be relied on.—New York Evening Journal.

CONGRESS.

Twenty-Second Congress—First Session.

MONDAY, March 19.

The Senate did not sit on Saturday. In the House of Representatives Mr. Bell, from the Committee on Indian Affairs, reported bills authorising the appointment of an Agent to reside among the Choctaw Indians, west of the river Mississippi, in pursuance of the Treaty of 1830—in addition to the several acts regulating the intercourse with the Indian tribes—and to provide for the appointment of three Commissioners to treat with the Indians and for other purposes. Mr. Wickliffe submitted a resolution directing the Committee on Private Land Claims, to enquire into the conduct of the Commissioner of the General Land Office, touching an official request made to that officer by the Committee on the Public Lands. The resolution was amended, by directing the enquiry to be made by the Committee on the Judiciary, and agreed to. Seventeen private bills were considered in Committee of the Whole, reported to the House, and ordered to be engrossed for a third reading.

TUESDAY, March 20.

In the Senate, yesterday, Mr. Dickerson, from the Committee on Manufactures, made an unfavorable report on the subject of the reduction of the duty on Alum Salt. Mr. Bibb concluded his remarks in opposition to Mr. Clay's resolution on the subject of the Tariff. Mr. Forsyth moved to refer the whole subject to the Committee on Agriculture—lost, Yeas 18, Nays 22. The question recurred on Mr. Hayne's amendment. Mr. Hayne moved a division of the question and the vote was first taken on striking out the whole of the original resolution, after the word "Resolved," and decided in the negative—Yeas 13, Nays 23. The amendment was declared by the President to be rejected by this vote, and the original resolution consequently adopted.

In the House of Representatives, various petitions and memorials were presented and referred: The bill making appropriations for the military service and for the support of government for the year 1832, together with a large number of private bills were read a third time and passed. The bill amending the act for the relief of the Insolvent debtors of the United States, passed at the last session, was taken up and discussed—but before any question was taken, the House adjourned.

WEDNESDAY, March 21.

In the Senate, yesterday, Mr. Benton introduced a bill granting to the State of Missouri 500,000 acres of land, to be applied to purposes of Internal Improvement. At an early hour, the Senate proceeded to the consideration of Executive business, and when the doors were opened, the Senate adjourned.

In the House of Representatives, Mr. Wilde submitted a resolution for an enquiry into certain facts connected with an increase of the specie circulation of the country. The bill in addition to an act for the relief of the insolvent debtors of the United States, was taken up and debated at length, and after some material amendment, was ordered to be engrossed for a third reading. The House then adjourned.

THURSDAY, March 22.

In the Senate, yesterday, after the reception and reference of petitions and memorials, the Senate passed a number of House bills through their first and second readings, and referred them to appropriate committees. The bill introduced, on leave, by Mr. Benton, granting a quantity of land to the State of Missouri, for the purposes of internal improvement, was read the second time, and referred to the Committee on Roads and Canals.

In the House of Representatives, Mr. Adams, from the Committee on Manufactures, reported a bill for the prevention of frauds on the revenue, which was read a first and second time, and committed to a Committee of the Whole on the state of the Union. Mr. Adams took the occasion to inform the House that he should not renew the application, made by him last week, to be excused from further service on the Committee on Manufactures. The bill supplementary to the several laws relative to the sales of the public land, was again considered, and, after a long debate, ordered to be read a third time to-morrow.

FRIDAY, March 23.

In the Senate, yesterday, the bill authorizing the Judges of the District Courts of the United States to take bail, during vacation, for property seized, was read a second time, and ordered to a third reading. Mr. Wilkins made an ineffectual motion to take up the Apportionment Bill. Mr. Clay's resolution was taken up, and Mr. Forsyth having withdrawn his motion to postpone its further consideration to the first of May next, Mr. Sprague spoke, at length, in support of the resolution. Mr. Wilkins offered an amendment to the resolution. Several other amendments were offered and debated, and, at length, the resolution, with various instructions, was referred to the Committee on Manufactures.—The Senate adjourned at 7 o'clock.

In the House of Representatives, Mr. Irvin, from the Committee on the Public Lands, reported a bill for the sale of the unlocated lots in the fifty quarter townships in the U. States Military District in the State of Ohio, reserved to satisfy warrants granted to individuals for their military services. The greater part of the day was spent in the consideration of the bill

from the Senate, for the organization of the Ordnance Department; and the House adjourned, pending the same.

SATURDAY, March 24.

In the Senate, yesterday, the resolution submitted on Thursday, by Mr. Clayton, instructing the Committee on Manufactures to take into consideration the expediency of distributing the public lands or the proceeds of their sale among the several States, was taken up, and Mr. Clayton spoke in its support. Mr. Poindexter moved an amendment referring it to the Committee on Public Lands; and on motion of Mr. Hayne, the resolution and amendment were laid on the table. The Army Appropriation Bill was taken up, amended, and ordered to a third reading. Some time was spent in the consideration of Executive business, after which the Senate adjourned.

In the House of Representatives, Mr. Verplanck, from the Committee of Ways and Means, reported a bill making appropriations in conformity to the stipulations of certain Indian treaties. Mr. Doddridge, from the Committee on the District of Columbia, reported a bill to erect a bridge and aqueduct over the Potomac river at Georgetown, in the District of Columbia. The resolution proposed by Mr. Wilde, in relation to the specie circulation of the country, was further discussed by Messrs. Irvin and Speight.—The debate was arrested by the expiration of the hour allotted to morning business.—Numerous private bills were considered in Committee of the Whole, reported to the House and ordered to be engrossed. The House adjourned over to Monday.
