

A Key to the Black Republican Policy.

That part of the public (says the Washington Union) who are not admitted to the secret councils of the Black Republican party...

The Compiler.

H. J. STABLE, EDITOR AND PROPRIETOR. GETTYSBURG, PA.

Monday Morning, June 1, 1867.

DEMOCRATIC STATE NOMINATIONS.

FOR GOVERNOR, WILLIAM F. PACKER, of Lycoming. CANAL COMMISSIONER, NIMROD STRICKLAND, of Chester.

The State Legislature has adjourned! This event took place on Friday week, greatly to the satisfaction of every body, except the people of Harrisburg...

James B. Clay, son of the late Henry Clay, has been nominated for Congress by the Democrats of the Ashland district in Kentucky. It is said he has accepted the nomination.

Tennessee.—The gubernatorial candidates in this State have taken the "stamp," and have designated over fifty places where they purpose making speeches between the 21st and 30th of August.

A Response from California.—The citizens of Sacramento, California, responded in the most emphatic manner to the President's patriotic inaugural at their municipal election last month.

Brigham Young was first appointed Governor of Utah by President Fillmore—a fact which the small-potato journals of the mongrel opposition are careful to conceal in commenting upon the disgraceful state of things existing in that territory.

The Baltimore Sun says that the man who is sent to govern Utah must carry the sword with its edge turned towards the leaders of the Mormons.

The tax assessors of the city of New York have just made out their estimates for the current year. The total value of property assessed is put down at five hundred millions of dollars.

Rise in Real Estate.—Some years ago Henry Clay purchased some land four miles from St. Louis known as the "old orchard tract," for sixty dollars an acre.

Mrs. Jameson says—"The bread of life is love; the salt of life is work; the sugar of life is poetry; the water of life is faith."

The hog cholera is quite destructive at Chicago. The symptoms correspond with those shown in actual cases of cholera. The disease prevails where still-slows have never been used.

"Old Virginia Never Tires"

KNOW NOTHING HAS AGAIN TAKEN TO HIS HEELS—TO RETURN TO THE FIELD "AS SOON AS FORKED!"

The election for Attorney General, members of Congress, members of the Legislature, and county officers, took place in Virginia on Thursday last, and the old "mother of Presidents" has again covered herself all over with glory.

The Democrats have triumphed over all the Congressional districts heard from—and the returns indicate a large majority for the Democrats in the Legislature!!

Webster's Opinion of the Supreme Court. The Vermont Republican, a sterling Democratic Journal, says the Quincy Herald, calls attention to the fact that the new agitation which the Black Republican press is endeavoring to create...

Should the Main Line be sold under the infamous bill recently passed into a law by the Legislature and sanctioned by the Governor, the question very naturally arises in the mind, is there not remedy for the people who have thus been so fraudulently and injuriously wronged?

A Bitter Pill to Freedom.—That Chief Justice Taney's opinion in the Dred Scott case was manufactured to order to suit the views of the pro-slavery party admits of no doubt, as it is directly in opposition to an opinion he delivered some three years since.

There are at least two lies contained in the above little paragraph, which we copy from a Black Republican paper, and those lies are manufactured from the whole cloth.

The following facts, in reference to the vast extent of the Territories belonging to the United States, are worthy of consideration.—They are from the St. Louis Democrat:

"They suggest serious reflections touching the overwhelming preponderance of the North or the South, when these Territories shall have been filled up with population, as will inevitably be the case in the course of a few years more."

"A Little Out."—The Boston Post says that poor Witmot, the Black Republican candidate for Governor of this State, has written a very lugubrious letter accepting the nomination.

The fruit crop of Kentucky.—The executive committee of the Kentucky Horticultural Society have made a report in relation to the prospects of the fruit crop in that State. It expresses the opinion that the fruit crop generally will exceed the average, but that the yield of peaches will be light.

Death of Senator Butler.—New York, May 26.—Senator James Bull, a member of the United States Senate from the State of New Hampshire, died today.

Death of Senator Butler.—Augusta, Ga., May 26.—Senator Butler, of South Carolina, died last night at 6 o'clock, of dropsy.

The Main Line Question.

HARRISBURG, May 18. The Main Line bill has been signed by the Governor, and the works are already advertised for sale.

The following complimentary notices of the enlargement and otherwise improved appearance of the Compiler are taken from our exchanges abroad.

The Gettysburg Compiler, an able and reliable Democratic paper, has been so prosperous under the administration of our friend HENRY J. STABLE, that he has been able to incur considerable expense in enlarging and improving it.

We congratulate our friend Henry J. Stable, Esq., editor of the Gettysburg Compiler, on the evidence of prosperity manifested by the recent enlargement of the paper under his charge.

The Gettysburg Compiler has reached us this week considerably enlarged, and with an entire new dress of type, and presents to us no ordinary improvement.

We are pleased to see that our friend, H. J. STABLE, Esq., has enlarged the Gettysburg Compiler, and with the enlargement has also new type.

Our friend H. J. STABLE, Esq., is determined to make the "Compiler" an A No. 1 paper. It comes to us this week in an enlarged and improved form, dressed in a suit of new and beautiful type.

The Compiler is a good paper "all the time," and this indication of its prosperity is cheering.

The Gettysburg Compiler, one of the best county papers in Pennsylvania, is out in a new dress and looks as if it was in a right prosperous condition.

This well-conducted and sterling Democratic paper comes to us clothed in an entire new suit, and looks bright as a new dollar.

The facility with which the opposition change their party name has been frequently the subject of amusing comment. In several of the New England States they now style themselves "the Union party."

The Gettysburg Compiler appeared last week with a new head and in a pattern new suit, making a very neat looking paper.

It is the Custom.

Local Matters.

The New Cent. The new coin of the denomination of "ONE CENT," just issued from the Mint, is in very good taste, and a decided improvement on the old "copper."

A description of the coin would now be useless. Before this issue reaches the readers of the Compiler, they will doubtless have seen the new cent, and judged it for themselves.

The following is of interest in this connection. It having been announced that the United States Mint in Philadelphia would commence on Monday morning, at nine o'clock, to pay out the new cents, a large crowd of persons assembled in front of the building long before the appointed time.

Every man and boy in the crowd had his pocket of coin with him. Some had their pockets of Spanish coin done up in bits of newspaper or wrapped in handkerchiefs, while others had carpet bags, baskets and other carrying contrivances, filled with copper—"very clean and bright," like boarding house fare.

The officiating priests at the temple of mammon had anticipated this grand rush and crush, and every possible preparation was made in anticipation of it.

The bags containing the "Nicks" were neat little canvas arrangements, each of which held five hundred of the diminutive little strangers, and each of which bore upon its outside the pleasant inscription "85." One of these little bags was inscribed with the words "cents for cents," and over the other "cents for silver."

Those who were served rushed into the street with their money bags, and many of them were immediately surrounded by an outside crowd, who were willing to buy out in small lots at an advance on first cost. We saw quite a number of persons on the street, the mint dealing out the new favorites at an advance of from thirty to a hundred per cent.

Those who made their way homeward after attracted the attention of passers-by, by their display of specie bags, and we doubt much whether in the history of the mint, there was ever so great a rush inside the building, or so animated a scene outside of it.

Notwithstanding the season is very backward, and the prospect of the spring crops is rather gloomy, still we apprehend that there will be an abundant harvest—take the country together. The Chicago Journal, for instance, predicts that the yield of wheat at the coming harvest in the West will be more abundant than it has ever been at any preceding harvest.

We almost daily hear of reports indicative of this state of things, from various parts of our own and neighboring States, since the season has fairly opened. The winter wheat in most localities looks well, and a liberal extent of soil is being devoted to spring wheat.

The quantity of corn that will be planted this season is almost incredible, and with anything like favorable weather for planting and growing, by far the heaviest crop of corn will be gathered this year that has ever been harvested in this country.

The great Comet is said to be distinctly visible between 2 and 3 o'clock every morning. It is very brilliant, and has a bright lengthy appendage!

City and County Treasurers.

The following Act, relating to the duties of City and County Treasurers, passed at the recent session of the Legislature, has become a law, having been approved by the Governor:

SECTION 1. Be it enacted, etc., That whenever any monies shall have been or may hereafter be collected by law in any city, county or township, for any special purpose, and paid into the hands of the treasurer of such city, county or township, it shall be unlawful for such treasurer to apply such monies, or any part thereof, to any other purpose than that for which said monies shall have been or may be collected, and every such misapplication shall be held and deemed a misdemeanor, for which such treasurer may be indicted, and tried in the Court of Quarter Sessions of the proper city or county, and upon conviction thereof such treasurer shall be punished by fine of not less than the amount so misapplied, and by imprisonment in the jail of the proper city and county for not less than three months nor more than one year.

The Bonds of the Gettysburg Railroad Company are beginning to attract the attention of the public, and we should not be astonished to see every dollar of the one hundred thousand to be disposed of in Bonds eventually taken by our own citizens.

Every man and boy in the crowd had his pocket of coin with him. Some had their pockets of Spanish coin done up in bits of newspaper or wrapped in handkerchiefs, while others had carpet bags, baskets and other carrying contrivances, filled with copper—"very clean and bright," like boarding house fare.

The officiating priests at the temple of mammon had anticipated this grand rush and crush, and every possible preparation was made in anticipation of it.

Those who were served rushed into the street with their money bags, and many of them were immediately surrounded by an outside crowd, who were willing to buy out in small lots at an advance on first cost. The great Comet is said to be distinctly visible between 2 and 3 o'clock every morning. It is very brilliant, and has a bright lengthy appendage!

Buildings in Chicago, it is said, now rent for about fifty per cent. above cost of erection.—Such a state of things cannot exist long.
