

The Vice President.
"Ireneus," of the New York Observer, who is traveling at the South, was lately a guest at a wedding in Lexington, Ky., where he met the Hon. John C. Breckinridge, Vice President of the United States. He thus describes his person, manner and domestic state: "John C. Breckinridge, Vice President of the United States, was one of the guests at the wedding. The rough portrait of him, that stare every body in the face last fall, give but a poor likeness of this extraordinary man, who, at a youthful period of life unexampled, has been called on to preside over the most august body of men in this country. His form is tall, erect and commanding, his countenance grave and thoughtful, his manners smooth and graceful, and his conversation indicates a sober, intelligent and thinking man. With a lovely and accomplished wife and sweet children, he resides in a most elegant cottage, one story high, shaded deeply with trees, a little way out of town. I could not but admire the simplicity of our republican institutions, when I saw that this great people have come to this embowered cot, to find a man to preside over its Senate, and perhaps to fill its chair of state."

Letter from Brigham Young.—It is stated on the avenue that yesterday the President received from Brigham Young a letter expressing gratification at being about to be relieved from the labors and cares of federal office, and pledging himself that the Mormons will treat all the federal officers he may send to the territory well, provided they prove to be honest men, who attend only to the legitimate discharge of their official duties. His letter is further said to be replete with abuse of the returned territorial United States functionaries. —Washington Star.

Great Game of Billiards.—The Albany Express states that the greatest billiard match ever made in this country is shortly to come off between L. J. Higham, the great Albany player, Michael Phelan and Ralph Benjamin. These three gentlemen are said to be the greatest billiard players in the world. The match is to take place either in New York, Philadelphia or Baltimore.

Syrian Wheat.—A gentleman of Alabama received from the Port Office some spring wheat from the Holy Land, which he received last spring. It came to maturity in seven weeks, producing a large full head, with a berry in every respect equal to the original. This wheat is reported to ripen in Syria in sixty days from sowing. It will thus be seen that our climate hastened its period of maturity eleven days.

The common council of New Haven (Connecticut) have ordered the Alanthus trees to be cut down, on account of their disagreeable odor.

Charlotte Jones, Henry Fife, and Monroe Stewart, recently convicted of murder at McKeesport, Pa., have been sentenced to be hung.

We know a watchmaker's apprentice who is so ugly that he has only to look at the most obstinate watch to make it run.

To pickle peaches take three pounds of sugar to one quart of vinegar. Spice them—pour the vinegar and sugar on cold, then set the jar in a pot of boiling water and keep it there until they boil.

Sure Enough.—The Boston Post wants to know why credit should not be given to physicians in notices of deaths. It well as ministers and not of narrations. A newspaper announcement should read: "Died at the hands of Dr. Naddolagis, John Doe, aged 80 and so."

The Bay Safe, measuring 51 feet high, by 44 feet wide, and weighing 4,500 pounds, has been attracting much attention at the office of the FARMER'S & MERCHANT'S SAVINGS INSTITUTION, in S. W. corner of the public square. Everybody nearly in town has been to see it. Our friends from the country have been as still dropping in, to see this, the largest safe ever brought into the country.

This safe furnishes another ground for confidence to depositors. The security for the deposits they make is of the same character, and as extensive as those afforded by a bank to its depositors. In the one and the other being in the same manner liable. The safe keeping of the money and the security to depositors thus afford a double safeguard to those thinking of depositing their money where, instead of being idle, they will produce interest—in the Savings Institution.

The greatest natural ornament to the human form is, unquestionably a fine, luxuriant, healthy growth of hair. It has been so esteemed in all ages of the world, and among all nations, savage and civilized. Hence, the Indian regards the scalp of his enemy as his greatest trophy. For a similar reason, the fashionable belle often disfigures the region of her forehead, as well as her other physiognomical organs with borrowed locks.

He who should discover a mode of preventing the hair from showing the irascible of envious time by turning prematurely gray, a method by which it could be restored when falling off or being in process of falling off, its continued and luxuriant growth, would be justly entitled to rank among the benefactors of the human race. Read the testimonials of the wonderful, not to say almost miraculous effects of Professor Wood's Hair Restorative, and see if he has not accomplished all this. —Capital City Free Press, July 27, 2w

Waller's Pills are indispensable to the security of health and life in new settlements. Fever and ague, bilious remittents, and bowel complaints, are the worst enemies the western pioneer has to encounter, and he can only certainly and permanently put them to flight with the aid of this unrivaled cathartic, detergent, and restorative. There are multitudes of fallow and feeble invalids, now languishing in the western climes, under the cruel scourge of these diseases. They would soon find their health, vigour, strength, and cheerfulness return, under a course of Waller's Pills.

There are occasions when even the most skillful people need medicine, the changes of diet, of the weather, and the changes of other causes, produce a laxity in the system that needs correcting, or in other words, the liver becomes slightly deranged, and needs a purgative. If all who find themselves in this situation will try Dr. Sanford's Invigorator, they may be sure of relief, as we can testify to the efficacy in curing Headache, Indigestion, Sour Stomach, and other ills so common in a family. It acts, as a medicine, easier and better than any dose of pills we ever employed, and is so mild that the smallest child can take it. —Capital City Free Press, July 13.

The Philadelphia Sun says: "The American Republican Party are in favor of keeping those Territories free, so that all American citizens, native or naturalized, may, for generations to come, have a free home for free men." In the Gospel, according to St. Matthew, we find this text: "Again, the devil taketh him up into an exceeding high mountain, and sheweth him all the kingdoms of the world, and the glory of them; and saith unto him, 'All these things will I give thee, if thou wilt fall down and worship me.'" But the devil did not own a foot of the land he promised!

A wealthy Baptist brewer, Mr. Vassar, of Poughkeepsie, New York, has given \$25,000 to the University of Rochester, N. Y., for the erection of college buildings. Such home brewed generosity deserves imitation, besides showing that there is virtue in "lager."

The Rev. C. S. Burnett, while laboring as a Missionary in Southern Asia, discovered a simple and certain Cure for Consumption, Asthma, Bronchitis, Coughs, Colic, Nervous Debility, and all impurities of the Blood; also, an easy and simple mode of infusing the remedy. Actuated by a desire to benefit his suffering fellow-men, he will cheerfully send the Recipe (free) to such as desire it, with full and explicit directions for preparing and successfully using the Medicine.
