

The Minnesota Constitutional Convention.

We have already announced that the delegates elected to a Convention for the formation of a State Constitution, assembled at St. Paul on the 13th ult., and that two Conventions have been sitting since—one Democratic and the other Republican. The Democratic Convention comprises 55 members, and one more is to be added, who has not yet arrived. The Republican Convention comprises about as many. The two together comprise about a dozen more members than were elected. The excess is caused by the admission of duplicate members from some of the districts, particularly four from St. Anthony county, one from Houston county, and one from Mower county; each party claiming the election of its own candidates. In these cases the Republicans admit that the Democratic candidates had the largest number of votes, but claim, nevertheless, that they were not elected, because the ballots did not specify whether the candidates voted for, were Council members or Republican members. The answer is, that the Council District and the Republican District in each of the disputed cases were one and the same; and, therefore, that the distinction was entirely unnecessary. The Democrats further say that if any of their candidates were not elected for the reason mentioned, although having the largest number of votes, then for the same reason twenty-eight members of the Republican Convention were not elected—their cases being exactly similar. The six Democratic members from Pembina county are also rejected by the Republicans, on the ground that a part of that county is outside of the limits of the territory prescribed for the new State. The following extracts from the St. Paul Pioneer and Democrat, will show more exactly the origin of the difficulty:

From the St. Paul Pioneer, July 13th.

Things to be remembered.—Let it be remembered, that the President of the Republican meeting, now in session at the Capitol, was elected by the people of Winona and Washburn counties, in precisely the same manner as Judge Meeker, Mr. Chase, or their successors, whom he counselled, should be excluded from seats in the Convention, well knowing that their votes would have defeated him.

Another fact should be remembered;—twenty-eight Black Republicans claim seats in the Convention, and are now acting in the bogus assembly, who were elected precisely in the same manner as five Democrats, who were refused certificates in order that the blacks might be able to organize the Convention. Talk of bleeding Kansas, ye Black Republicans, after this record. Springfield, and a very saint, when convened in Ames, Baltimore, Foster, and the smaller fry.

The Pembina Delegates.—In addition to admitting five Delegates to the so-called Convention who were elected by the people to stay at home, a part of the dishonorable tactics of the Black Republicans was to use the votes of these delegates to exclude the Pembina Delegates from the Convention. A few facts in regard to the delegates will place the matter in its right light before the people. Pembina county forms a single Council district, lying on both sides of the Red River, a very large portion of the county being on the west side of the proposed State. The population of the county is about 1,000, and is divided; but that portion of the county on the west side of Red River is settled exclusively by half-breed hunters, while on the east side, especially near the head waters of Red River, and about Otter Tail Lake, there are many white settlers, who have recently gone diabler, and are entitled to Delegates to represent their interests in the Convention.

There are five election precincts in the county, three east of Red River, (St. Vincent, Leech Lake and Red Lake), and two west of the river, (Pembina and St. Joseph).

As well might the Delegates from the Tenth Council District be excluded from a Convention as the Pembina Delegates, were they to sit in that District, extending west to the Big Sioux, and a larger portion District lies without the proposed State than within it. Election precincts have been established in this District, outside the limits of the State. Yet we hear no complaints in regard to this district. Can it be represented in part by Black Republicans, and in part by whites elected by voters imported from Rice into Wascosa county.

More Light.—In addition to four bogus delegates from St. Anthony, and one from Houston county, we understand that upon an examination of the returns, it has been discovered that other Registers besides Messrs. Ann and McCann have been playing the rascal in order to bolster up Black Republicanism.

In Mower county, Mr. Armstrong, the Democratic candidate, had a majority of over 100 votes over his Republican opponent, yet the latter received the certificate, and is now acting in the bogus assembly.

This case makes seven persons claiming to be delegates, now acting with the Republicans, who have no right to seats in the Constitutional Convention. The fact stands out boldly—that the Black Republicans have not a quorum of legally elected delegates!

The Pioneer gives the names of fifty-five delegates now acting with the Democratic party in the Convention, and adds:

Without the aid of dishonest county officers, the Democrats have a majority of legally elected Delegates to the Convention. Every individual in the above list, was fairly, honestly, and legally elected. On other names remain to be added, that of Mr. Armstrong, of Mower county. This addition will make the Convention, if the Black Republicans do not receive from their revolutionary positions, stand 50 Democrats, opposition!

The whole number of members to be elected was 108.

Important Discovery.

CONSUMPTION

And all Diseases of the Lungs and Throat

WHICH conveys the remedies to the cavities in the lungs through the air passages, and coming in direct contact with the disease, neutralizes the tubercular matter, allays the inflammation, and brings on a speedy cure. It cures the lungs, purifies the blood, imparts renewed vitality to the system, giving that tone and energy so indispensable for the restoration of health. To be able to state confidently that Consumption is curable by inhalation, is to me a source of unalloyed pleasure. It is as much under the control of medical treatment as every humoral case can be cured in the first stages, and fifty per cent. in the second; but in the third stage it is impossible to save more than five per cent. for the lungs are so cut up by the disease as to be of little medical skill. Even, however, in the last stage, inhalation affords relief to the suffering, which annually destroys ninety-five thousand persons in the United States alone; and a correct calculation shows that of the present population of the earth, eighty millions are destined to fill the Consumptive's grave.

Truly the gateway of death has no arrow so much as this disease. In all ages it has been the greatest enemy of life, for it spares neither age nor sex, but sweeps off alike the brave, the beautiful, and the graceful and the gifted. By the help of that Supreme Being from whom cometh every good and perfect gift, I am enabled to offer a cure for this fearful disease, which annually kills one million of people in Consumption. The first cause of tuberculosis is from impure blood, and the immediate effect produced by their deposition in the lungs is to prevent the free admission of air into the cells, which causes a weakened vitality through the entire system. Thus surely it is more rational to expect greater good from medicines acting on the lungs than from those administered through the stomach; the patient will always find the lungs free and the breathing easy, after inhaling remedies. Thus, Inhalation is a local remedy, nevertheless it acts constitutionally, and with more power and certainty than remedies administered through the system of the stomach. The direct influence of this mode of administration on the blood will entirely destroy sensibility in a few minutes, paralyzing the entire nervous system, so that a limb may be amputated without the slightest pain; inhaling the ordinary burning gas will destroy life in a few hours.

The inhalation of ammonia will raise the system when fainting or apparently dead. The odor of many of the medicines is perceptible in the skin a few minutes after being inhaled, and may be immediately detected in the blood. A convincing proof of the constitutional effects of inhalation, is the fact that ticks, which always prey on the sufferer, find foul air—this is a sure evidence that proper remedies, carefully prepared and judiciously administered through the lungs should produce the happiest results? During eighteen years' practice, many thousands suffering from diseases of the lungs and throat, have been under my care, and I have effected many more cures than have been effected by any other mode of treatment. My treatment is original, and founded on long experience and a thorough investigation. My perfect acquaintance with the nature of tuberculosis, enables me to distinguish readily the several forms of disease that simulate Consumption, and apply the proper remedies, rarely being mistaken even in a single case. This familiarity, in connection with certain pathological and microscopic discoveries, enables me to relieve the lungs from the effects of contracted chest, to enlarge the chest, purify the blood, and enable me to preserve the strength, giving energy and tone to the entire system.

Medicines with full directions sent to any part of the United States and Canada by patients communicating their symptoms by letter. But the cure would pay me a visit, which would give me an opportunity to examine the lungs and make a personal diagnosis, and I would be able to give you a more certain and more effectual cure than you could be effected without my seeing the patient.

ALL of the best workmanship and good materials, which will enable them to warrant their work in any variety of CHAIRS. Coffins made at short notice, and in the various styles.

House Painting and Papering attended to, and done in the best manner.

Their prices will be as low as the lowest, as all who may patronize them will acknowledge. All kinds of country produce taken in exchange for work.

NORBECK & REILEY.
Gettysburg, Feb. 23, 1857. 1y

Health or Sickness?

HOLLOWAY'S PILLS.—The blood furnishes the material of every bone, muscle, gland and fibre in the human frame. When pure, it secures health to every organ; when corrupt, it necessarily produces disease. HOLLOWAY'S PILLS operate directly upon the elements of the blood, to remove all impurities, and to purify, and thus radically curing the malady, whether located in the nerves, the stomach, the liver, the bowels, the muscles, the skin, the brain, or any other part of the system.

Used Throughout the World!

HOLLOWAY'S PILLS are equally efficacious in complaints common to the whole human race, and in disorders peculiar to certain climates and localities.

Alarming Disorders.
Dyspepsia, and derangement of the liver, the source of infirmity and suffering, and the cause of innumerable deaths, yield to these curatives in all cases, however aggravated, and in all seasons. They give vigour to the nerves; they relieve the bowels, purify the fluids, and invigorate the system and the constitution at the same time.

General Weakness—Nervous Complaints.
When all stimulants fail, the renovating and bracing properties of these PILLS give firmness to the shaking nerves and enfeeblid muscles of the victim of general debility.

In all cases of the fracture of bones, injuries caused by steam explosions, bruises, Burns, Scalds, Rheumatism, Stiffness of the Joints, and contraction of the sinews, it is employed and warmly recommended by the faculty. This marvelous remedy has been introduced into the wards of some of the leading Hospitals of Europe, and no private household should be without it.

Valuable Testimony.
The Medical Staff of the French and English Armies in the Crimea have officially signed their approval of Holloway's Ointment, as the most reliable dressing for scalds, cuts, and gun wounds. It is used by the surgeons of the Allied Armies.

Both the Ointment and Pills should be used in the following cases:

Bleeding	Rheumatism	Sore Throat
Burns	Scalds	Sore Eyes
Chapped Hands	Fall Rheum	Spots on all kinds
Chloric Acid	Sciatic	Rifl Shoots
Fistula	Stomach Disorders	Uterine
Gout	Scorbutic Ulcers	Wounds
Lancet	Sore Legs	Wounds of all kinds
Leucorrhoea	Sore Throat	Wounds of all kinds
Mercer's Sore Throat	Wounds of all kinds	Wounds of all kinds
Phlegm	Wounds of all kinds	Wounds of all kinds
Rosacea	Wounds of all kinds	Wounds of all kinds
Scurvy	Wounds of all kinds	Wounds of all kinds
Sore Throat	Wounds of all kinds	Wounds of all kinds
Ulcers	Wounds of all kinds	Wounds of all kinds
Wounds	Wounds of all kinds	Wounds of all kinds
Wounds	Wounds of all kinds	Wounds of all kinds

assortment, at SCHICK'S.

To Those Who Want Farms.

A FARM WITHIN THE REACH OF EVERY MAN.

THE RIDGWAY FARM COMPANY has been organized by a number of gentlemen who desire to settle or purchase homes on the great North West. The farm consists of the best limestone soil of the most superior quality for farming, in a rapidly improving place, into which an extensive emigration is now pouring. The property is located in Elk county, Pennsylvania, in the midst of a thriving population of some 10,000. The climate is perfectly healthy, and the fertile quality of the western farm is unknown. It also has an abundance of the best quality of Coal and Iron. The price to buy it out is from \$3 to \$20 per acre, payable by instalments, to be located at the time of purchasing, or a share of 25 acres entitling to locate some for \$20, payable \$6 per month, or 124 acres payable \$4 per month. Discount for every sum of \$100 and under, paid in advance, a discount of 5 per cent. will be allowed, and for over \$100 a discount of 10 per cent.

In considering the advantages of emigrating to

the West, the following facts are presented: First—The soil is a rich limestone, capable of raising the heaviest crop, owing to which this settlement has attained its present great prosperity. Second—It is the centre of the great North West Coal Basin, and is destined soon to become one of the great business places in the West. It will supply the cities of the West (according to population and travel the greatest in the Union). It has fine workable veins of the best Bituminous Coal, amounting in the aggregate to over 22 feet, which makes 22,000 tons of coal under each acre. This will make the land of inestimable value. The eminent state geologist Dr. Josias T. Jackson, of Boston, has made a geological survey of the land, and analysed the coal, the iron ore and the limestone. This report together with maps will be furnished to inquirers.

Four—Three railroads are laid out thro'

the country. The Hagerburg and Erie Railroad is a market fair for Erie and West, it runs from Erie to Philadelphia. A large part of this road has been finished, and is now in running order. A heavy force is now working from Erie towards our land in the western direction, the means for the completion of the same will be furnished by the Western Allegheny Railroad, which connects us with New York, Boston and Pittsburgh. The Venango Road connects us with the West.

There are already good Turnpike Roads

running through this property, various other roads have been opened to accommodate the emigration and settlement which has already taken place.

There is no opportunity equal to it now offered to the man who wants to provide himself a home in an easy way, and make a settlement where he can live in prosperity and independence in a climate PERFECTLY HEALTHY.

No case of the fever ever having been known to occur in this settlement, which is situated like going to the backwoods of the West, among perhaps intolerant people, where there is no society, churches, or schools, where the price of land is high, and where the emigrant, after being used to the healthiest climate in the world, has to endure sickness and pain. But here is a thriving settlement, and the family here is in a healthy and comfortable state, having three stores, containing churches, schools, hotels, taverns, saw mills, grist mills, and everything desired. There is a cash market at hand. The lumber trade last year amounted to over two hundred million feet of lumber. In a short time, owing to the coal, it is believed to reach \$5,000,000. The works of iron works and manufactures will soon be started; they are at present starting them extensively at Warren. Even for those who do not wish to go there, the payments are such that they can easily buy a farm to save their rising families from want in the future, or to gain a comfortable home, which will take place in the value of lands. By an outlay scarcely missed, a substantial provision can be made.

Persons should make early application,

apply or write to E. Jeffries, Secretary, No. 130 Walnut Street, below Fifth, Philadelphia. Letters carefully answered giving full information.

Shares or tracts of land can be bought or secured by letter enclosing the first instalment of five dollars, when the subscriber will be furnished with books, maps, &c. Warrantee Deed given. Persons can also purchase from our Agents.

Use from Philadelphia to Tyrona on the

Pennsylvania Central Railroad, and thence by Stage to the land. This is a delightful season to visit St. Mary's—the best hotel accommodation is afforded. Enquire for E. C. Schultz, Esq., the Agent for the property at St. Mary's.

JOHN WILSON.

Local Commissioner of the Illinois Central R. Co., Chicago, Illinois.
