CONSUMPTION And all Diseases of the Lungs and Throat

are:Positively Curable by Inhalation, WHICH conveys the remedies to the cavities in the lungs through the air passages, and coming in direct contact with the disease, neutralizes the tubercular matter, allays the cough, causes a free and easy ex-pectoration, heals the lungs, purifies the blood, imparts renewed vitality to the nervous system, giving that tone and energy so indis-pensable for the restoration of health. To be able to state confidently that Consumption is cases can be cured in the first stages, and fifty cent , for the Lungs are so cut up by the disease as to bid defiance to medical skill .affords extraordinary relief to the auffering attending this fearful scourge, which annually destroys ninety-five thousand persons in the United States alone; and a correct calculation

Consumptive's grave.

Truly the quiver of death has no arrow so fatal as Consumption. In all ages it has been the great enemy of life, for it spares neither age nor sex, but sweeps off alike the brave, the beautiful, the graceful and the gitted. By the help of that Supreme Being from whom cometh every good and perfect gitt, I am enabled to offer to the afflicted a permanent and speedy cure in Consumption. The first cause of tubercles is from impure blood, and the immediate effect produced by their deposition in the lungs is to prevent the free admission of air into the air cells, which causes a weakened vitality through the entire system. Then surely it is more rational to expect greater good from medicines entering the cavities of the lungs than from those admin istered through the stomach; the petient will always find the lungs free and the breathing easy, after Inhaling remedies. Thus, Inhalation is a local remedy, nevertheless it acts constitutionally, and with more power and Chair & Furniture Establishment certainty than remedies administered by the stomach.
