chloroform inhaled will entirely destroy mensibility in a few minutes, paralyzing the entire nervous system, so that a limb may be am-putated without the slightest pain; inhaling the ordinary barning gas will destroy life in a Sheads. The inhalation of ammonia will rouse the system when fainting or apparently dead. The odor of many of the medicines is perceptible in the skin a few minutes after being in haled, and may be immediately detected in the blood. A convincing proof of the consti-tutional effects of inhalation, is the fact that
