MONDAY MORNING, JANUARY 4, 1858.

Town & County Affairs.

Railroad Opening.

A formal opening of the Railroad from New Oxford to Hanover will take place on Wednesday next, in which the public are cordially invited to participate. As stated last week, a train of cars will leave New Oxford about noon, upon which all may take a free ride to the Hanover Junction and back. We expect to see a goodly number of the citizens of the county present on the occasion. The enterprise is one of the highest importance—and this opening should, hence, not lack in interest.

Lectures.

On Monday evening, Prof. STOEVER addressed the "Young Men's Christian Association," in the German Reformed Church—theme: "Washington—a model of self-culture."

The next regular Lecture will be delivered in the Presbyterian Church, this evening, at 7 o'clock, by Rev. Mr. ZIEGLER—subject:—"*Counsel to young men.*"

New Court House.

The County Commissioners have secured the services of a first class Architect, Mr. S. D. BUTTON, of Philadelphia, to prepare plans and specifications for the new Court-House, the whole to be completed in four weeks.

A tasteful, well designed and substantial building, combining every advantage which the limit of means may allow, will no doubt be had. The rough draft already submitted by the Architect gives high satisfaction.

☞The ladies of the Presbyterian Church of this place have presented their Pastor, Rev. G. P. VAN WYCK, with a certificate of life-membership in the Young Men's Christian Association, and twelve volumes of late Theological works, valued at $30.

Rev. S. H. GIESY, Pastor of the German Reformed Church at Hagerstown, had a Christmas surprise by finding in his study an elegant full suit of clothes and a purse of money.

☞The property of MARY HEWITT, deceased,—about 10 acres—near Bendersville, was sold by the Administrator, ABEL T. WRIGHT, on the 19th ult., to JOHN H. HUTTON, for $679—one half in cash on the 1st of April and the rest in two equal annual payments with interest.

☞The following preamble and resolutions, passed by the Quarterly Conference of the M. E. Church, which met in this place on Saturday week, on the death of Mr. DAVID CHAMBERLIN, have been handed to us for publication. Mr. CHAMBERLIN at the time of his death was in the 68th year of his age—having been a man of most exemplary character and much respected:

Communicated.

Whereas, it has pleased that God who is too wise to err, and too good to be unkind, to remove from our midst, in the militant church, our venerable and estimable brother CHAMBERLIN, who for more than a quarter of a century has been connected with us in church fellowship, and for many years sustained the office and performed the duties of Steward, leader and trustee on this circuit. Therefore—

Resolved, That while we lament our own deprivation of his goodly counsel and truly religious life among us, we bow in resignation to the divine will, firmly believing that our loss is his gain.

Resolved, That a copy of the above preamble and resolution be handed to the family of the deceased, entered on the journal of the conference, and published in the papers of the town.

Communicated.

MR. STAHLE—Dear Sir:—I find in your paper of the 14th inst. a note made of "the largest corn crop on record." You will find this "headed off" if you will take the trouble to examine the report of the Commissioner of Patents for 1855—part 2d, (Agriculture,) page 25. There it is shown that of nine competitors, Mr. Mateon, of Kentucky, raised, on ten acres, 189 bushels and 1 quart of shelled corn per acre; and Mr. Pean, of the same State, 198 bushels to the acre. Yours, FARMER.

The Corn Rotting at the West.—The Missouri Democrat has news from Ohio, Indiana, and Kentucky that the corn is rotting to a disastrous extent, both that which is on the stalks and in the cribs. This, says the Democrat, is a matter of grave importance.

☞A writer in the *Boston Cultivator*, appears to think that potatoes are liable to rot with the potato rot about every sixty years, and shows by statistics that sixty-three years after the vicious tubers brought into Europe the rot first appeared, and at the specified period it has failed to make its appearance since that time.

Not Mad.

We take the following from a recent publication in New York of Geo. Francis Train, entitled "*Young America in Wall Street.*" In an off hand manner it develops a very substantial truth:

"A month hence, and the capitol is full.—Now, as the everlasting discussion of negro slavery has occupied our statesmen, our press, our politicians, for so many years without accomplishing anything but to extend it, I would suggest, as an experiment, a little practical legislation on our national laws, our foreign relations, our internal improvements, our currency, and all subjects of vital import to the American people.

"Since my remembrance, this country has been agitated by legislating for the blacks. The whites have been neglected. There are about three millions of the one, and twenty-five millions of the other. Now, while I have the best possible feeling toward the 'blacks,' I have also the highest respect for the whites; and as twenty-five millions of the latter have been requested to stand aside, so that the three millions of the former might be attended to, I am an advocate now for a change in our congressional policy.

"Leave the 'blacks' alone for the next ten years, and take care of the 'whites.' The whites deserve more attention than Congress has devoted to them, and, having legislated for the blacks for so long a time, they have at least the Democratic right of the majority to protest against anything more being done for so inconsiderable a minority in numbers, to say nothing of the question of equality, at least for some few years.

"There has been enough talk on the question to fill the British Museum with reading matter; yet, after all, no one has discovered any invention to bleach a black man white. Next winter the slaves of the south will be sheltered, clothed, and fed, while multitudes of free-born men are pale with want, demanding labor to purchase bread.

"In such times as these the futile discussion of the slave question had better be thrown under the table, not to be taken up again till Congress has legislated on some of the practical questions of the day. The whites demand a hearing."

Education in the Navy.—Certain of our naval officers have addressed a memorial to Congress asking for the adoption of a regular system of education on board men-of-war. They desire that schoolmasters shall be appointed by the federal government, at a fair salary, to superintend the instruction of the boys and such men among the crews as are anxious to avail themselves of the opportunity to learn. The additional expense incurred, the memorialists think, would be doubly repaid by the rapid improvement in the *personnel* of the navy, and the increased facility of shipping men and boys at our recruiting stations. When it is possible to obtain an elementary English education aboard ship, a very grave objection to the enlistment of youth in the service will have been removed; and the improvement in the intelligence of crews must greatly increase the efficiency of our little navy.

The Atlantic Telegraph.—WASHINGTON, Dec. 30.—Secretary Toucy has sent a letter to C. W. Field, Esq., informing him that the United States frigate Niagara will be again detailed to lay the Atlantic Telegraph cable. Chief Engineer Everett has been given leave of absence to give his services to the telegraph company. The President and Secretary Toucy are both favorable to the enterprise.

☞One hundred millions of gold annually cross the Isthmus of Panama.

Charles Fenno Hoffman.—A notice is going the "rounds" of the press that Charles Fenno Hoffman, the celebrated poet, who has for some time been an inmate of the Pennsylvania Hospital, near Harrisburg, is lying dangerously ill. The Telegraph, of that city, says that so far from this being the fact he is enjoying most excellent health, and hopes are entertained that at no very distant day, with the treatment now observed, the distinguished gentleman may be restored to that position in society of which he was an intellectual ornament.

Cheap Goods

STILL COMING AT FAHNESTOCK'S.—We have just received from New York and Philadelphia another supply of cheap Goods, to which we invite the attention of the public. We purchased at auction several cases of very cheap Tickings, which we can sell at a bargain.

Thirty-one cent Tickings for 25 cents;
Twenty-five " " 18¾ "
Eighteen and three-fourths at 15 " &c.

We have yet on hand some of those cheap Muslins and Prints which have made such a noise among judges of cheap goods. Having been in the city almost constantly during the last few months, we were enabled to watch opportunities for obtaining bargains, and we now propose to give our numerous customers the benefit of them. Don't fail to call to

Hover's Liquid Hair Dye.

THE testimony of Prof. Booth and Dr. Brinckle having previously been published, the following is now added:

From Prof. McClosky, formerly Professor of Theory and Practice of Medicine in the Female Medical College of Pennsylvania, and late Professor of Surgery in the American College of Medicine, &c.

PHILADELPHIA, Nov. 27th, 1856.

MR. JOSEPH E. HOVER.—A trial of your Liquid Hair Dye will convince the most skeptical that it is a *safe, elegant* and *efficacious* preparation.—Unlike many others, it has in several instances proved serviceable in the cure of some cutaneous eruptions on the head, and I have no hesitation in commending it to those requiring such application.

Very respectfully,

J. F. X. MCCLOSKEY, M. D.,
