The first cause of tubercles is from impure blood, and the immediate effect produced by their deposition in the lungs is to prevent the free admission of air into the air cells, which causes a weskened vitality through the entire system. Then surely it is more rational to expeet greater good from medicines entering the cavities of the lungs than from those admin istered through the stomach; the patient will always find the laugs free and the breathing easy, after Inhaling remedies. Thus, Inhalation is a local remedy, nevertheless it acts constitutionally, and with more power and certainty than remedies administered by the stomach. To prove the powerful and direct influence of this mode of administration Jacobs, one square West of Baltimore street, bility in a few minutes, paralyzing the entire chloroform inhaled will entirely destroy sensinervous system, so that a limb may be amputated without the slightest pain; inhaling the ordinary burning gas will destroy life in a

During eighteen years' practice, many thousands suffering from diseases of the lungs and throat, have been under my care, and I have effected many remarkable cures, even after the sufferers had been pronounced in the last stages, which fully satisfies me that consumption is no longer a fatal disease. My treatment of consumption is original, and countries of the period and a thorough investigation. My perfect acquaintance with the nature of tuber on up.
