Clover as a Manure.

"A crop of clover is worth a great much like new soil. If you let the notified to attend. tifully filled with seed that it will not used re-stocking. We glorify men May 3, 1858. ii who build expensive barns and cellars in which to save manure, when we A VALUABLE IRON & BRASS FOUN-DRY.—On Tuesday, the 25th of May, at should glorify the man who has no I o'clock, P. M., the undersigned, Assignee barn at all." So says a New York under a deed of voluntary assignment, for farmer.

Feeding Horses.

The following facts from a gentleman uffalo, N. Y., who seems to be familiar with the facts, may be valuable, "GETTYSBURG FOUNDRY," with all the in a general sense:—"The towing of necessary apparatus, Steam Engine, Flaske, boats on the Eric Canal is done in part Patterns, Tools, &c. The Foundry is now in by horses that are taken along with the boats, and partly by towing companies

Tunning order and doing a good business.

There will also be sold a good IRON SAFE. who keep their horses at stations about twelve miles apart alorg the whole May 3, 185%, to length of the canal. There are three of these towing companies, and they NOTICE is hereby given to the Stockhold employ about 1,400 horses. They have mill feed (bran or shorts weighing May 3, 1858. te about twenty pounds to the bushel,) mixed up wet with cut hay, and they accordingly feed this altogether."

GROCERIES, NOTIONS, &c.—
Fruits. Fruits of every description, as follows—Layer Itaishia, Figs.

Black Teeth in Pigs. As many of our farmerr are not aware of the disease that destroys at Groceries. least one-eighth of young pigs, I will give a description of the disease and of the cure. Symptoms.—The hair stands out, with a slight cough, lank in appearance, and do not eat well; as the Perfumery. cough increases, they grow stupid, have the scours, and die in fits. Cure .-Catch the pig, and you will find just back of the tusks a small black tooth (similar to the wolf-tooth in the horse,) set in the jaw. Take a hammer and a punch, and break the tooth loose, and with a pair of nippers take out the tooth Flour & Feed. We have made arrangements or touth; and if the tusks are black, break them off also, and give the pig a little sulphur with his feed .- Corres-

Important Discovery. CONSUMPTION and all Diseases of the Lungs and Throat are positively Cured by Inhalation, which conveys the remedies to the cavities in the lungs through the air DERSages, and coming in direct contact with the disease, neutralizes the tubercular matter, allays the cough, causes a free and easy expectoration, heals the lungs, purifies olood, imparts renewed vitality to the nervous system, giving that tone and energy so indispensable for the restoration of health. To be able to state confidently that Consumption is curable by inhalution, is to me a source of unalloyed pleasure. It is as much under the control of medical treatment as any other formidable disease ; ninety out of every hundred cases can be cured in the first stages, and fifty per cent. in the second ; but in the third stage it is impossible to save more than five per cent, for the Lungs are so cut up by the disease as to bid definee to medical skill .-Even, however, in the last stages, Inhalation fords extraordinary relief to the suffering attending this fearful scourge, which annually destroys ninety-five thousand persons in the United States alone : and a correct calculation shows that of the present population of the earth, eighty millions are destined to fill the

Consumptive's grave.

Truly the quiver of death has no arrow so fatal as Consumption. In all ages it has been the great enemy of life, for it spares neither age nor sex, but sweeps off alike the brave, the beautiful, the graceful and the gifted. By the help of that Supreme Being from whom cometh every good and perfect gitt, I am enabled to offer to the afflicted a permanent and speedy cure in Consumption. The first cause of tubercles is from impure blood, and the immediate effect produced by causes a weakened vitality through the entire system. Then surely it is more rational to expect greater good from medicines entering the cavities of the lungs than from those administered through the stomach : the patient will always find the lungs free and the breathing easy, after Inhaling remedies. Thus, Inhala-tion is a local remedy, nevertheless it acts constitutionally, and with more power and certainty than remedies administered by the stomach. To prove the powerful and direct priced qualities. Gentlemen's Furnishing chloroform inhaled will entirely destroy sensing the CARRIAGE MAKING BUSH-Goods, in great variety. Boots, Shoes, Hats, bility in a few minutes, paralyzing the entire ment in East Middle Street, hear the east

The inhalation of ammonia will rouse the Carriages; Fulling-Top, Rocksystem when fainting or apparently dead.—
The odor of many of the inclicines is perceptible in the skin a few minutes after being inhaled, and may be immediately detected in the blood. A convincing proof of the consti-tutional effects of inhalation, is the fact that sickness is always produced by breathing foul air-is not this positive evidence that proper remedies, carefully prepared and judiciously administered through the lungs should produce the happiest results? During eighteen years' practice, many thousands suffering from diseases of the lungs and throat, have been under my care, and I have effected many Thirty-hour and Alarm Clocks, at all prices remarkable cures, even after the sufferers had to be had at been pronounced in the last stages, which fully satisfies me that consumption is no perfect acquaintance with the nature of tuberfamiliarity, in connection with certain pathoready and willing to make everybody com- me to relieve the lungs from the effects of contracted chests, to enlarge the chest, purify the blood, impart to it renewed vitality, giving

energy and tone to the entire system. Medicines with full directions sent to any part of the United States and Canadas by patients communicating their symptoms by letter. But the care would be more certain if the patient should pay me a visit, which greater certainty, and then the cure could be effected without my seeing the patient again.
