

The Compiler.

Fact and Fanny. THE WORLD IS A HUT SHELL.

Ripe peaches are being eaten in South Carolina. There has been an extraordinary and fearful eruption of Mount Vesuvius, causing the loss of many lives and a large amount of property.

Mrs. Fanny Kemble, Mrs. Jenny Lind Goldschmidt, Mrs. Ellen Tree Keas and Mrs. Julia Dean Hayne, are all regular communicants of the Episcopal Church.

The editor of the Columbus (Ohio) Journal says a female convict in the penitentiary at that place actually lived seven weeks without swallowing a particle of food.

A Hint—If you are determined to commit suicide in consequence of poverty, do the deed early in the morning, instead of late at night, and you will save the expense of three meals.

They who drink away their estate drink the tears of their widows, and the very blood of their impoverished children.

Franklin seemed lightning by the tail, held it fast, and tamed it. Moses put clothes on it, and taught it how to read and write and do errands.

There is a lady down east so high-minded that she declines to own that she has common sense.

The following toast was recently given: The ladies—May we kiss all the girls we please, and please all the girls we kiss.

Here's Webster on a bridge, said Mrs. Partington, as she handed him the dictionary. Study it contentedly, and you will gain a great deal of inflammation.

The best bite we ever had when we went fishing, was the bite we took along.

New counterfeit halves and quarters have recently made their appearance in Reading, in great abundance. They have the ring of the genuine coin, and are so exceedingly well made as to deceive the most experienced.

Why do you associate with such low girls, Josh? When I was of your age I could always go with the first cut. "Daddy," said Josh, turning over the saw-log, "the first cut is always a flake."

Gen. Jim Lane is no longer a candidate for the United States Senate. Even the extremists of Kansas would be ashamed to elevate a murderer to a seat in our national councils.

The entire history of our diplomatic intercourse with the British government does not furnish an instance in which any complaint or remonstrance on our part, in regard to an encroachment upon our rights, has been met with so much promptness, or with such willingness to do us justice, as in the exciting case of the recent British expressions upon our flag in the Gulf of Mexico.

Preparations to Resist British Outrages in the Gulf. Intelligence from Havana to the 15th, furnishes us the fact that the United States steamers Fulton and Water Witch had touched at Cardenas, and resumed the search for the British cruisers Styx and Buzzard.

The latter movement, if carried out, will soon force a definite settlement of this question of the right of search. If a conflict once takes place, then we will have a fact to present, and upon that the correspondence between the two governments must be based.

Condition of the Crops at the West.

Effect of the Late Rain.—A merchant in Cincinnati, writing to one of the principal firms in New York, says: The alarm as to short crops in the West has in a great measure subsided. The crisis is past and the worst fears are over.

The wheat crop will be a good one in Ohio and adjoining States. It may be somewhat injured, but more in croaking than in reality. Our friends in Michigan say that their State has never produced so large a crop of wheat so good in quality.

The hay and oats crop will be very large, and as to the corn crop, a failure in this has never been known in the history of this country; a half crop will be quite as much as we shall want this year.

Most of the apples have been planted and will yield well. The Scioto valley, which is a great corn-producing country, was not planted last year until after the 10th of July, and yet a very large crop was gathered.

Three-fourths of the crop of Indiana was not planted until after the 20th of June. The feeling is general that the crop in the West will be abundant, notwithstanding the cholera, who did not confess that for a while he did feel the "windows of the heavens" had been opened upon us, and no ark built, no cattle driven in.

The effect of small crops would make winter scarce in the West this fall and winter coming, but there are no fears at all now as to this being the case. There is old wheat sufficient now in this country to feed the whole United States twelve months if the present crop were a failure, and there is also a large quantity of old corn yet unsold.

We feel very sanguine as to good times for our trade the coming fall and winter. St. Louis, June 22.—A call for a meeting at Leavenworth, Kansas, to form a vigilance committee, was responded to on the 15th inst., by a large number of citizens.

General Larimer, late of Pittsburg, presided. Resolutions were adopted discountenancing such an organization, declaring that no necessity exists for its establishment, and expressing entire confidence in the authorities to properly administer the laws.

MORE NEW GOODS.—JACOBS & BRO. have just returned from the city, with a very large assortment of Cloths, Casimeres, Vestings, Summer Goods, and everything else in men's wear, at the lowest prices. Also plain and fancy Shirts, Collars, silk and cotton Handkerchiefs, Suspenders, &c. Having bought unusually low for the cash, they are enabled to sell cheaper than ever—on an excellent fall cloth suit, made up, for \$15, for instance, the most common call, at our new establishment in Chambersburg street, five doors west of the Court-house, before purchasing elsewhere.

The Mighty Healer! World Known and World Tried. Holloway's Ointment. THE few admissions of all Nations, as well as the verdict of the most eminent Physicians of the Old as well as the New World, stamp this powerful remedial Agent as the greatest healing preparation ever made known to suffering man. Its PREVENTIVE QUALITIES are more than MARVELLOUS, through the external application of the skin, invigorating the circulation, it reaches the seat of the internal disease; and in all external affections its anti-inflammatory and healing virtues surpass anything else on record, and is Nature's great ally.

ERYSIPELAS AND SALT RHEUM are two of the most common and violent diseases prevalent on this continent, to these the Ointment is especially antagonistic, its "modus operandi" is first to eradicate the venous and then complete the cure.

BAD LEGS, OLD SORES AND ULCERS.—Cases of many years standing, that have pertinaciously refused to yield to any other remedy or treatment, have invariably succumbed to a few applications of this powerful agent.

ERUPTIONS ON THE SKIN, arising from a bad state of the blood or chronic disease are eradicated and the skin restored to its natural surface regained by the restorative action of the Ointment. It cures many of the cosmetics and other toilet appliances in its power to dispel rashes and other disfigurements of the face.

PILES AND FISTULA.—Every form and feature of these prevalent and stubborn disorders is eradicated locally and entirely by the use of this ointment: warm fomentations should precede its application. Its healing qualities will be found to be thorough and invariable.

Both the Ointment and Pills should be used in the following cases: Rheumatism, Gout, Neuralgia, Sciatica, Headache, Toothache, Stomachic Pain, Catarrh of the Bladder, Hemorrhoids, Piles, Fistula, Ulcers, Erysipelas, Salt Rheum, Scald Head, Ringworm, Itch, Prurigo, Eczema, Eruptions on the Skin, Burns, Scalds, Frost Bites, Bruises, Sprains, Swellings, Inflammations, and all other external affections.

Caution!—None are genuine unless the words "Holloway, New York and London" are discernible as a water mark in every leaf of the book of directions on each bottle. Beware of cheap imitations, and be guided by holding the leaf to the light. A handsome reward will be given to any person who furnishes information as may lead to the detection
