## Grinding Feed.

inson's Penn-Yan Address.

Experimental farmers have long urged the importance, and even necessity, of chopping or grinding hay, as well as other food, for cattle and horses. The lazy drones have had a hearty laugh over the idea, and called it "Book Farming."

Now the theory of chopping and grinding food is based on a principle which lies at the foundation of animal physiology. Rest is essential to the accumulation of muscle, as well as fat. If we wish to increase an animal in fiesh or fat, we do not work him.

Now a cow wants one-thirtieth of her own weight in hay a day, to keep her in good order; and we may thus calculate the amount of labor required to masticate the food, and fit it for the stomach. The labor of chopping or grinding twenty-five pounds of dry hay a day, is no small item. This excessive labor is performed by one set of musoles—the jaws; but, by sympathy, afblood to circulate quicker, the breath and still the growth of the animal is retarded.

If a machine was invented to grind ducing fat and muscle. Chopping hay and stalks is valuable just in proportion as it approximates to grinding, while the hair is still black, show the ed to the public. relative amount of labor performed by Nearly 300 "Herring's Sales" have been

# Blowing up Stumps.

stump with a tap root, and with an inch and a quarter augur, bore in, slanting downward, as near to the heart of the base of the tap root as you can judge; then put in a charge of one or two ounces of powder, with a safety fuse, and tamp in dry clay or ordinary tamping material, to fill the hole, some six inches above the charge; then touch fire to the fuse, and get out of the way. The blast will usually split the stump into three pieces, and make It hop right out of the ground. If the charge is put too high up, the blast will only split the top of the stump, without lifting it.—Ohio Cultivator.

New Grafting Wax .- Take two ounces of common rosin, melt it slow over a fire, being careful not to heat it so much as to make it throw off its spirits good. On funeral occasions, &c., he will be of turpentine. When it becomes clear as syrup, add a little less than an ounce needed. Torms CASII. of alcohol, and mix well, and put in a bottle at once and cork tight. Alcohol is to be added sufficient to make the applied to trees it hardens at once, and Go to Tipton's—go to Tipton's mixture liquid and keep it so, and when forms an air-tight covering.—Foreign Paper.

Arrested for Perjury .- Deputy U. S Marahal Wynkoop, has arrested S. S. Rankin, (of pugilistic notoriety and Know Nothing proclivities) for wilful perjury and contempt, in swearing that he was a citizen of the United States, while vouching at the late election for one about to become a citizen. At a hearing before U. S. Commissioner Hazlett, Runkin was held in \$2500 bail. It will be remembered Rankin was appointed by Gov. Pollock, one of his Aids de-Camp, and was a warm advocate of the present Know Nothing Mayor, notwithstanding his foreign extraction.

The gentleman named above has made himself exceedingly conspicuous in relation to a late case which has been prominently before the public, and now he has got hold of the hot end of the poker himself. The "People's party" is rapidly becoming a happy family.-Phila, Argus.

The wesith of Wm. B. Astor, of New York, is estimated at \$50,000,000.

How much happier is this man with the millions which he cannot use, than Nov. 30, 1857.

Second Train leaves at 1 r. n. with passengers for Baltimore and intermediate plasengers for Baltimore and intermediate plases, and refurns with passengers from York, the millions which he cannot use, than the hod-carrier who works for a dollar a day?

Portland, Me., until next spring. She ings, Vestings, Lineas, Calicoss, Ginghams, and a large stock of domestic goods. Also, Gland, making the trip, it is expected, and will be sold at small profits for Cash.—Please call, azamine, and judge for yourselves. Gettysburg, March 29, 1858.

Effection destruction of weedsmarrying a widow.

C. H. BUETLER. Lumber, Coal and Stoves.
