

The Compiler.

Tact and Fancy.

...Hon. Wm. Bigler will address the Democracy of Vermont, at Franklin, on the 24th instant.
...The result of the election clearly demonstrates that the people of Kentucky are tired of Sam. They have consigned him, and the whole dark-lantern crew, to oblivion...

Terrific and Destructive Fall Storm.

A few days ago a terrific fall storm passed over a portion of Livingston county, Ill. The Alton Telegraph says:
The hail stones were like pieces of cut ice, and some of them were seven inches in diameter. They fell in perfect torrents, striking down cattle, men and crops, and beating down by showers of stones. Thousands of acres of corn, that was getting along finely, with the promise of an excellent yield, were cut down as if by reapers, and the corn was stripped, and gardens, and out and wheat fields beaten to the earth.

Tropical Fruits in Pennsylvania.

The Wrightsville (Pa.) Star says that the cultivation of figs has interested a good many citizens of York county.
Henry Leitchman has a tree, on which the first crop of this season has ripened, and the tree is now loaded with a pretty full second crop. Mr. Samuel Maxwell, in Lancaster county, has been trying other experiments. He has a fine growing almond tree, which, last season, produced a very fair crop of nuts, but this season has, like the peach tree, which it resembles both in appearance and leaf, entirely failed to bring forth any fruit.

After the Snake.

Mr. Otho E. McCulloh, of Warren township, killed a common Garter snake on the 2d inst., which was found to contain the extraordinary number of 91 embryos, some of which measured 6 inches in length.
Chamberburg Rep.

General Johnston.

General Johnston has issued a proclamation prohibiting soldiers and citizens from disturbing the Mormons or their cattle, nor were any of the troops to enter the city under any pretext.
...Very serious depredations were committed in Cairo during the late high water. A large portion of the town was stolen, the depredators pretending to mistake it for drift-wood.
...The whole country is in a perfect blaze of enthusiasm over the successful result of the Telegraph enterprise, and celebrations have been held everywhere throughout the Union.

Later from Utah.

The Peace Prospects.—Letters from Utah up to July 10th confirm previous advices, and describe the return of the Mormons from Provo to Salt Lake City. With their limited means of transportation, at least a month must elapse before they can get back again and be settled. Governor Cumming continued to be treated with the greatest possible consideration by the Mormons, whereas the other Gentiles are left severely alone, and are compelled to sleep out of doors in ambulances or wherever they can find a shelter.
The correspondent of the Times says that Brigham Young and his people are very anxious for admission to the Union, and are exerting every effort to accomplish that result. They maintain that it is their constitutional right to be admitted, and they desire it, so that they can make a law limiting polygamy, and placing it within the charmed circle of "States Rights." They do not admit for a moment that Congress can impose any condition upon their admission prohibiting polygamy.
Within a few days, it is probable that their loyalty will be put to the test.—Judge Eckles, who is bold and fearless in discharge of his duty, proposes to issue writs at the suit of an ex-Mormon named Wadsworth, for the arrest of certain parties at Payson, 70 miles south of this city, for kidnapping Wadsworth's adopted child. Mr. Dotson, the United States Marshal, is expected to serve the writ within a few days, and to take the accused (Wm. Young and Geo. Wadsworth) to Fort Belknap for trial. This will test the power of the law, and they desire it, so that they can make a law limiting polygamy, and placing it within the charmed circle of "States Rights." They do not admit for a moment that Congress can impose any condition upon their admission prohibiting polygamy.

The Tomb.

On Saturday morning last, at the residence of his father, David Sweeney, in this place, Mr. BENJAMIN CLARY SWEENEY, in the 32d year of his age, died.
On the 10th inst., at the residence of Mrs. UPTON MORRIS, aged about 80 years.
On the 26th of July, in Reading township, Adams county, Mrs. MARY MAGDALENA MILLER, aged 79 years 10 months and 14 days.

Notice to Teachers.

I HEREBY give notice to all persons intending to teach in the public schools of the county, during the coming fall and winter, that I will hold an INSTITUTE, for the examination of all such teachers, in the Borough of Gettysburg, commencing on Monday, the 6th day of September next, and continuing for five days. All teachers are expected to attend this Institute, as I will grant no certificates, hereafter, except at that time. Private examinations, at my office, must be done away with, and all who do not attend the Institute will not be examined anywhere else. This law requires that the examination shall be conducted in the presence of Directors and others, and it is high time that in our County, as in other Counties, the rules should be rigidly adhered to.

Fire Protection Society.

THE above named Institution is a pre-arranged to receive Proposals for the insurance of property in this county. One hundred and twenty Applications, embracing property amounting to one hundred and ninety thousand dollars in value, were Approved on the 13th day of July instant.
The Society is organized with the sole view of securing the property of Farmers and other persons in insulated and detached locations, and property within the limits of the borough of Gettysburg, nor any other town wherein buildings are situated in blocks or lots, and where no fire engine or property wherein Steam-power is employed, or upon any buildings or property within one hundred and fifty yards of any Railway on which Locomotive engines are run, nor upon any property within one hundred yards of any stationary Steam-engine, will be insured. The burning of Combustible, Pine and Kerosene oil is considered extra hazardous and decidedly interdicted.
The carrying of candles, lamps and other bright articles, especially glass lanterns, through streets, alleys, lanes, and about buildings, is prohibited, and such articles, when so carried, are to be kept in wooden vessels in buildings insured, are so indispensable acts of "gross negligence," that in a case of damages by fire, the insured party may be put to the expense of proving that the fire did not originate from any of these reprehensible and inexcusable practices.
The intention of the Society is, by the adoption and enforcement of stringent precautionary Rules, as much as possible to diminish the chances of fire occurring from carelessness, and to conduct the business thereof on the most economical plan; the only Office receiving any remuneration for his services is the Secretary.
Application to be made to any of the Officers who are all Surveyors and Agents.
President, William A. Gannett; Secretary, George Thorne; Treasurer, James Russell; Vice President, Jacob Felschler; Directors, John Thorne, Joseph Bartel, Henry Winger of Straban; Tobias Boyer, George Lady; Peter Shull; Abraham Mifflin; Peter Kottman.

A Card.

FROM DR. JAMES M. JARRETT, OF THIRTON, YORK COUNTY, PENNSYLVANIA.—My connection for the past eight years with the above Institution, and a twelve years' course of steady devotion to the Cure of Pulmonary Consumption and its kindred diseases, together with my unvaried opportunities of observing the progress of the disease, and the comparative efficacy of the various modes of Medical Inhalation—has enabled me to arrive at a decisive, direct, and successful course of treatment for the positive and radical cure of all diseases of the Throat, Lungs and Pleura, and of every kind of Cough, and curative properties of medicines are directly addressed to the diseased organs and the integuments. I do not advise the use of Medical Inhalation of any kind, to the exclusion of general treatment; and although I continue to use the Inhalation, I have prepared a course of treatment for the positive and radical cure of all diseases of the Throat, Lungs and Pleura, and of every kind of Cough, and curative properties of medicines are directly addressed to the diseased organs and the integuments.
