Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, discaused by mercurial disease, low living, dis-ordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. What-ever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, " I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lunks, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitu-tions not only suffer from scrofulous complaints, but they have far loss power to withstand the attacks of other diseases; conrequently, vast numbers perish by disorders which, although not scrof dous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which de-cimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kiducys, brain, and, indeed, of all the organs, arise from or

are aggravated by the same cause. One quarter of all our people are rerofulous; their persons are inveded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla, the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is com-bined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from his destructive consequences. Hence, it should be employed for the cure of not only scrofuls, but also those other affections which arise from it, such as Experies and SEIN DISEASES, St. ANTHONY'S FIRE, ROSE, OF RETSITULAR, PROPERTY. BLOTCHES, BLAIM and Bosts, TUMONS THETER and SALT REEVEN, SCALD HEAD, RINGWORM, RESURATION, STRUCTURE and MERCURIAL DIS-RASSS, DROPSY, DYSPERMA, DESILITY, and indeed, ALL COMPLAINTS ASSISTED OF ANY VESTA-TED- OR IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in trath, for acrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsapa-rills is to purify and regenerate this vital fluid, without which sound health is impossible in

contaminated constitutions. Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC. are so composed that disease within the range of their action sun warely withstand or evade them

One dose often repeated is a sure cure for Cholera Morrey, and a preventive of Cholera.

Ber Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

Ber One bottle taken for Jauwdice removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appeated, and makes food digest well.

One dose often repeated cures Chronic Diarrhoma in the worst forms, while Summer and Bowel complaints yield almost to the first dose.

One or two doses cure attacks caused by Women in thild and the server and the server of the summer. January and Market and Morrey in the state of the body or obstruction when the first dose.

arising from a low state of the body or obstruction Ayer's Cherry Pectoral, FOR THE MAPID CURE OF .

Coughs, Colds, Influenza, Hoarseness, Croup, Broachitist Incipient Consump-tion, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness and so numerous are the came its cures, that almost every section of country at sonds in persons publicly known, who have been restdered from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies shrust woon the community have failed and been distributed, this has gained friends by every trial common benefits on the afflicted they can make the and produced cures too lamateus.
