How completely this compound will do it has been proven by experent on many of the worst cases to be found

of the following complaints: —
Schotula and Schotulous Complaints, Call at Reininger's and is daily working cures, almost too great to believe. It cures as if by matoria on Tic Doulourum, Dreilling Dreilling or many instructurated from the city with another seldom more than one bottle is required to on Sr. Annon's Fire, and indeed the whole class of complaints arising from Impunity or THE BLOOD.

This compound will be found a great promotor of health, when taken in the spring, to expel the foul humors which fester in the load at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the andurance of foul eruptions and ulcerous scree, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whonever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is ob-structed and sluggish in the yeins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pebulum of life disordered, there can be no lasting health. Souner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation, of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sansparilla,

or any thing che. During late years the public have been mis-led by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Barsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obliquy which rests upon it. And we think we have ground for believing it has virtues which are presistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should

be judiciously taken according to directions on the bottle. DR. J. C. AYER & CO.
