AND A DECEMBER OF A DECEMB OF A DECEMBER OF A DECEMBER

During the fall a contract was concluded and organized by the selection of Hon. J. B. erection of an Engine House, a Freight House DANNER as President, and II. J. STARLE and Passenger thion at Gettysburg. Forthis purpose the Board procured ground from Mesers. Doersom and Codori for the Engine House and Freight House, in consideration of a switch privilege; and from Geo. W. McClellan for the Passenger Station, on the corner of Carlisle and Railroad streets, in consideration of the erection of the building for that

purpose on the lot. The company agreed to pay Messrs. Warner for the buildings erected \$4,480, part in cash and part in bonds of the

company, at 80 per ceut. of their par value. During the fall the Board contracted with the Trenton Locomotive and Machine Manufacturing Co., for 15 Lime cars, and have received them. They cost \$235 per piece in the bonds of the company at 80 per cent. The

account being still open and unsettled with the company, the credit is not brought into the statement of the Auditors.

The amount of bonds sold as per report of last year was \$36,200, which, together with the amount sold during this year, makes the whole amount of sales of bonds \$30,700.

It is hoped that an effort will be made by the next board of Directors to furnish the road with Bolling Stock as soon as possible, We are decidedly of the opinion, from a short experience, that the interests of the road will suffer every day by a delay in this matter.
